[redacted]

FYI –

(U//~~FOUO/PR~~) I have attached the slides that was provided by [redacted] in the meeting. Slide #2 shows the planned schedule of release/availability of these products/features to customers. Sorry, I made mistake in saying that the [redacted] would be available in 2 months, when it's actually slated for release in late [redacted].
[redacted] Although as of right now, when [redacted] sells or advertises these systems to their customers, they are informing their customers NOW [redacted] customers – [redacted] that the [redacted] would be capable of [redacted] and setting their expectations of capabilities.

FBI TTU

Statement of Work

Program Management & General Requirements

Developed for Federal Bureau of Investigation
Technical Tracking Unit (TTU)

b3
b7E

1. SCOPE

This Statement of Work (SOW) delineates the management, engineering, services, documentation, manufacture, procurement, delivery, and Test and Quality Assurance requirements for a Technical Tracking Services Contract. This SOW will guide the Contractor in fulfilling FBI TTU's stated requirements.

1.1. Goals

This TTU contract has been constructed to accomplish the following goals:

- a. Adhere to a rigid and compressed operational and fielding schedule.
- b. Execute specific Task Orders to accomplish the following:
 1. Deliver critical technical support services to the Government, Government Partners and their technical representatives.
 2. Deliver operational tracking equipment and systems, with documentation and technical support, in the numbers and variations noted within this SOW as task orders. Specific deliverables are delineated in this document.
 3. Provide support services for legacy equipment and systems to include, but not limited to, technical support, field support, repair and replace services, equipment update services, documentation services, engineering development services, and systems engineering services.
 4. Provide research and development engineering support services for new equipment and systems to include, but not limited to, engineering design, technical support, field support, repair and replace services, equipment update services, documentation services, engineering development services, and systems engineering services.

PROCUREMENT SENSITIVE

2. APPLICABLE DOCUMENTS & EQUIPMENT

The following documents are considered part of the TTU SOW but only to the extent called out by the requirements contained herein. Exceptions to the TTU SOW will be allowed in cases where specific authorization has been granted by the Contracting Officer (CO) (telephonically or in person followed by written authorization) to meet TTU requirements. The Contracting Officer's Technical Representative (COTR) will assist the CO and Contractor in these matters.

2.1. Specifications and Attachments (as required)

ATTACHMENT A: Concept of Operation; As required per task (Classification level set per task)
ATTACHMENT B: Minimum Essential Requirements (MERS); As required per task (Classification level set per task)
ATTACHMENT C: Discrete vs. Covert Description (Presentation Slide) (Unclassified)
ATTACHMENT D: "Tree and Branches" Concept (Pictorial) (Unclassified)
ATTACHMENT E: Key Management Concept (if required) As required per task
ATTACHMENT F: Costing Breakdown; As required per task
ATTACHMENT G: Provisioning Strategy; As required per task
ATTACHMENT H: [REDACTED] As required per task
ATTACHMENT I: [REDACTED] As required per task
ATTACHMENT J: Production Plan guide; As required per task

b3
b7E

2.2. Government Standards and Regulations

Selective military standards may be imposed. These requirements will primarily affect case design and ancillary attachments. Determination of military standards and specification will be determined when task options are executed, and in consultations between the Government and the contractor.

2.3. Government Security Standards and Regulations

- a. Standard — as indicated in DD-254
- b. Specific to Program — as indicated in DD-254
- c. Contractor must adhere to Defense Security Service (DSS) approved operating procedures and NISPOM.
- d. Security Clearances per DD-254

SECURITY STATEMENT: This program, all documentation, all associations, all stated and implied requirements and all personnel must adhere to and meet security requirements. Any breach of security will result in immediate termination of the program and possible repercussions, both contractual and criminal. All dissemination of the program and contract information must be approved in writing by the COTR, to include, but not limited to, partners, technical and contract

PROCUREMENT SENSITIVE

information and personnel. The contractor shall set up procedures to insulate the program procurement or parts and protection of program information as agreed upon by the COTR.

2.4. Commercial Standards

Unless otherwise specified, best commercial practices as accepted by the cellular telephone manufacturing industry are applicable to all hardware developed under this contract.

2.5. INFOSEC, Information Assurance and COMSEC Standards

As required, current National Security Agency (NSA) standards and certification requirements are applicable to all contract equipment as agreed upon by COTR. This shall include all applicable [REDACTED] requirements.

b3
b7E

2.6. Contractor Furnished Documentation

The contractor shall provide all documentation created or used under the contract to include:

- a. Program Review Documentation
- b. Meeting Minutes
- c. Meeting Notes
- d. Briefing Slides
- e. Program Deliverables per Contract
- f. All Contractor Team Member working Notes
- g. All trade studies performed including supporting documents
- h. Working and development models, hardware and prototypes
- i. Should the contractor utilize [REDACTED] programs to fulfill requirements of this contract, all documentation shall be provided.

b3
b7E

3 REQUIREMENTS

3.1 Program Management, Planning and Control

The Contractor shall provide an experienced Project Manager (PM) and Project Engineers (PE) who shall have responsibility for all program and technical requirements respectively and as approved by the COTR. All assigned program personnel shall meet the requirements stated in the Security Requirements portion of this SOW and if applicable have previous, first hand experience on tracking and intercept technologies. The government retains final approval authority of contractor personnel assigned to this program.

PROCUREMENT SENSITIVE

3.2 Project Management Plan

The TTU [] contract is constructed to adhere to rigid schedule and cost criteria. The Contractor shall deliver a comprehensive Project Management Plan that includes the following:

b3
b7E

- a. Initial Schedule Baseline
- b. Project Planning and Control (personnel and responsibilities).
- c. Data Management & Control
- d. Risk Management & Control
- e. Security Management & Control
- f. Engineering Task Management
- g. Item Production, Testing, and Support Plan to include INFOSEC
- h. Delivery Schedule
- i. Logistics Management & Support

3.3 Status Reporting

The contractor shall provide periodically, to the COTR, a Status Report including updates to a Master Project Schedule (in Microsoft Project Manager ®). The Master Project Schedule shall include record data on each individual task (including projected start and completion dates), progress to date (updated task status), and any known risks, delays, or cost impact. All reports shall be delivered as indicated below.

Reporting	Frequency	Form	Due
Program Management Plan Master Project Schedule (Baseline)	Once	Written & Software	1 week after award; updated as required and accepted
Status Reporting - briefly indicating progress and changes from baseline	Weekly	Written & Software (email)	End of Week; COB
Problems & Issues - including proposed resolution and program impact	As needed	Written & Software (email)	End of Week; COB

3.4 Formal Meetings

The contractor shall host meetings as indicated below and provide the COTR a meeting agenda three (3) days prior to the scheduled date. Agendas for scheduled and unscheduled meetings shall be by mutual agreement between the Contractor and the CO or COTR. Minutes for each meeting shall be provided by secure fax or email no later than 2 workdays after the meeting concludes for concurrence and approval by the CO or COTR. Specific "breakout" meetings will be planned for technical discussions.

PROCUREMENT SENSITIVE

- a. All meetings shall begin with a briefing of Baseline Schedule deviations with explanation.
- b. All meetings shall begin with a briefing of Baseline cost deviations with explanation.
- c. All meetings shall conclude with the contractor recapping assigned action items.
- d. All meetings shall include, with concurrence of attendees, a scheduling of the next meeting.

All meetings will include a presentation clearly indicating goals of the meeting to include the following:

1. Program Task progress from last the meeting (in Microsoft Project 0, appended monthly)
2. All previous or ongoing actions with a required close date and action officer
3. Actions closed out from last meeting
4. Outstanding actions from last meeting
5. Projected program goals/tasks to be completed prior to the next meeting with finish dates and action officer
6. Hardware and software demonstrations if applicable

3.4.1 Award Kick-off / Post Award Meeting

The Contractor shall host a post award Kick-off Meeting. The Kick-off meeting shall address, but not necessarily be limited to:

- a. Program(s) continuity for the Contractor & Government. (if Applicable)
- b. Goals and Objectives
- c. High/moderate risk technical issues (in MS Project Manager® -- Tasks vs. goals).
- d. Other program related topics.

Meeting	Frequency	Location	Duration
Award Kick-off <ul style="list-style-type: none"> • Personnel introductions • Specification review • Security Awareness and Process • Program Goals Objectives 	Once; within 2 weeks of award	Contractor Facility of	As Required
Development and Pre-production Reviews	Monthly	Contractor Facility or <u>as agreed to by COTR</u>	As needed

PROCUREMENT SENSITIVE

Meeting	Frequency	Location	Duration
<ul style="list-style-type: none"> • Progress review (per procurement plan) • Demonstrations (as required) • Specification refinement 			
Security Reviews <ul style="list-style-type: none"> • Physical & Program 	As required or to resolve security issues	Contractor Facility or as agreed to by COTR	As needed
Technical Assessments & Security Reviews	No less than Monthly and as required or to resolve issues	Contractor Facility or as agreed to by COTR	As needed
Technical One-on-one exchanges (These are more informal meetings designed to allow technical staffs to work closely together in the lab environment — little prior coordination and no presentations are required)	As required or to resolve issues	Contractor Facility or as agreed to by COTR	As needed
Production Reviews	No less than Monthly and as required or to resolve issues (after initial production starts)	Contractor Facility or as agreed to by COTR	As needed

3.4.2 Issue Resolution

The contractor shall provide the Government COTR recommendations, in writing, on how to resolve issues noted in meeting minute. Recommendations shall include any potential impact to the program schedule or cost.

3.5 Configuration Management

The Contractor shall institute a procedure to control, document and track all engineering software and hardware developed in relation to this SOW. Security procedures shall be implemented.

3.6 Program Control and Dissemination of Information

The contractor shall be guided by the contract security requirements, and adhere to the

PROCUREMENT SENSITIVE

following additional requirements:

- a. There shall be no program PC boards, software modules, security modules or any designs derived from this contract marketed, fielded, or sold to foreign Governments without prior written consent of the FBI CO.
- b. There shall be no contract user information provided to any other US Government entities or foreign Governments without prior written consent of the FBI CO or COTR.
- c. The contractor shall notify the CO or COTR of any intended planned discussion with other possible users.
- d. All contractor product advertising documentation that is not specific to this contract but use components, modules or software derived from this contract shall require Government CO and COTR approval prior to publication and dissemination. The intent is not to restrict marketing and business but to ensure compliance with Government security requirements and Government "economy of numbers" cost benefit.

3.6.1. It is the intent of the Government in relation to the functioning of the products derived from this contract, to restrict all sensitive information and to control dissemination of sensitive technology implementations that may result in disclosure of system operation. It is also the intent of the Government to ensure that the technology implementation, identity of its users, and concept of operations remain restricted and protected.

3.6.2. It is not the intent of the Government is to restrict non-sensitive items comprising derived products and systems from possible sale of equipment or components that may be based upon this contracts designs. Such sale to US Government civilian and military components or for another government application is encouraged. The US Government (specifically the FBI) has invested substantial funding and seeks to recognize a future cost advantage through a quantity sales effect. The US Government also does not intend to restrict foreign government participation, but all foreign government participation and sales must adhere to ITAR requirements and be approved by the CO and COTR.

3.7 Research & Development and Production General Requirements

During the course of this contract, the contractor shall deliver to the Government equipment with documentation in quantities listed within this SOW or agreed upon per task order. This equipment shall meet specifications delineated within the Task Order Technical Specification. The specific intent is the rapid development, prototyping, testing and production fielding of R&D items. The Government reserves the right to award multiple research and development contracts pursuant to this technical field of endeavor as required.

PROCUREMENT SENSITIVE

3.7.1 Engineering - Overview

The contractor shall provide engineering design and support services in accordance with the activities defined in this SOW and specific Task orders. The contractor is required to interact closely with FBI personnel, FBI contractor representatives, and other technical representatives. This interaction will insure goals and objectives of the program are achieved.

3.7.2 Required Final Design and Production Phase Overview

The Contractor shall provide a Final Design and Production Phase plan for R&D efforts as dictated by the specific Task order. This plan will assist the Contractor in achieving the Government's requirement for successful rapid delivery of resultant products. The plan will include, but not be limited to, technical processes and descriptions for the items. Refer to attachment J for additional information.

3.8 Task Orders

3.8.1 Task Descriptions

3.8.2 Each Task Order describes an area of development and/or procurement of critical equipment and capabilities. The Government will provide a specific SOW to execute a specific Task Order and subtask order.

3.8.2.1 Capabilities Task Order

Development shall include the referenced technologies listed below. Development of capabilities (as Task Order executables) of [REDACTED]

[REDACTED]
[REDACTED] as

indicated in Task Order technologies.

3.9 Technical Data/Documentation

PROCUREMENT SENSITIVE

The Contractor shall prepare and deliver data in accordance with the Contract Data Requirements of this SOW. Below is a documentation tree indicating, but not limited to, required documentation.

3.9.1 Required Documentation

The Contractor shall prepare and deliver data in accordance with this SOW. All Documentation items shall be costed and approved separately. All documentation shall be delivered in hard copy and by CD once configuration is stable and production commences (post LRIP). Documentation shall include those listed below as appropriate by Task Order. Draft copies shall be delivered prior to production for review and comment.

b3
b7E

PROCUREMENT SENSITIVE

b3
b7E

3.9.2 Training CD Documentation

3.10 Technical Data/Documentation — additional — Unclassified WEB Access

4 Government Furnished Equipment (GFE)

The contractor may be provided GFE under specific task order guidance. This

PROCUREMENT SENSITIVE

equipment may be for use in research and development or for inclusion into final products, as per task order. Additionally separate task orders may request that the contractor purchase openly available equipment to assist in research and development. Equipment purchased by the contractor under specific task order request is to be considered Government Furnished Equipment.

5 Security Requirements

Security requirements are those specified in DD 254. Other restrictions and guidance will be provided within this document and supplemental documents.

6 R&D Minimum Essential Requirements (MERS)

The Government shall provide MERS per Task Order.

6.1 Alternate Minimum Essential Requirements (MERS) - Modification of Configurations (Versions)

The program may include task order options as indicated for the development and production of alternate configurations, referred to as Version. Most Versions will require all task order MERS, or may either delete individual MERS or add additional MERS as indicated. These MERS may be referenced in additional documentation delivered in concert with this document or at a later date. Some Versions will be derived from requirements from partnerships and will have associated MERS.

6.2 Versions as applicable to Contract Programs

This contract is a US Government FBI Program. All Task Orders are based upon FBI requirements and concept of operations. The FBI has a requirement to quickly move through concept evaluation, development, production and fielding to meet critical FBI missions and FBI published priorities.

FBI Mission Priorities that this contract will support:

- | | |
|--------------|--|
| Priority 1: | Protect the United States from terrorist attack. |
| Priority 2: | Protect the United States against foreign intelligence operations and espionage. |
| Priority 9: | Support federal, state, local and international partners. |
| Priority 10: | Upgrade technology to successfully perform the FBI's mission. |

Particular requirements and possible future partners have been characterized by the "Tree & Branches Concept Pictorial" as depicted in Attachment E. Foundation FBI task order MERs makeup the tree trunk and modifications and variants make up the branches. The foundation or tree trunk development lay the principle ideology of upgradeability, modularity

PROCUREMENT SENSITIVE

concept, flexible case and the paradigm of the Government owning/controlling the standard interfaces between modules.

6.3 Clarification of Discreet versus Covert

b3
b7E

6.4 Key Management Concepts

Key Management Concepts will be defined and coordinated during development of products as required. The contractor shall utilize this as the basis for required documentation and certification. See ATTACHMENT E: Key Management Concept.

6.5 Initial Task Order Production Units

Initial task order production units shall comply fully with the task order MERS.

b3
b7E

6.6 Equipment Provisioning Equipment

7 Contract

b3
b7E

8 Logistical Support

PROCUREMENT SENSITIVE

The logistical support plan and program shall lay the foundation and assist the Government in the fielding of products and shall be closely linked with the Configurations Control requirement stated in this SOW. The contractor shall provide all logistical support during the production manufacturing period. This support shall be closely coordinated with the FBI COTR and will be transitioned to Government facilities at a prearranged and designated time.

- 9 The Logistical Support shall facilitate, but not be limited to, the following items:

b3
b7E

PROCUREMENT SENSITIVE

b3
b7E

10 Warranty

Products development under this contract shall come with a 1 year hardware warranty from delivery date which includes the following:

b3
b7E

Products purchased under this contract shall come with a 1 year hardware warranty from delivery date.

b3
b7E

 and included in this contract.

11 Product Initial Fielding Support

The contractor shall provide initial fielding support to the Government and the Government partners for a period of 1 year from the start of the production deliveries. The support shall be available during normal working hours unless alternate plans are made.

12 Personnel Support

=====

Hey guys,

I want to try and coordinate our efforts on software upgrades and testing of devices to be deployed to the field. I understand from the chain of emails that there is some question on who did what, when, and how. None of us have the ability (or desire) to watch over each other's back, and without that information, I cannot make a direct and fair evaluation of who is to blame (or not to blame). With that issue in mind, I want to formalize our protocols and document our efforts to avoid any confusion. Such steps will hopefully help us maintain the essential trust that everyone is doing his part, which will be for our benefit here and for any doubters in the field who need to be assured that testing has been conducted. Here's what I have planned, but am open to any improvements/suggestions.

[redacted]	
1.)	
2.)	
3.)	

b6
b7C
b7E

Testing of Equipment:

I will schedule a meeting for this issue as we need to debate the best methods for testing various devices. My understanding is that there are varying opinions on how and what to test, and to what degree. I want to hear these options before making a decision. [redacted] please send me and/or everyone in [redacted] available testing checklists. My intention for the next meeting is that we discuss

b6
b7C
b7E

the testing procedures for the [REDACTED] Everyone will have a chance to discuss the best method, and I will make the decision on what stays or gets added to the check list.

Once we have a checklist, each individual who deploys a piece of equipment must test that device and sign off on the checklist. A copy will go with the device to the field and the original will be

b3
b7E

[REDACTED] (which I will create). Since the [REDACTED]
[REDACTED] checklist step will help us identify and document constant
[REDACTED] assure the field that adequate testing has occurred, and hopefully build confidence and respect amongst ourselves that all testing protocols have been followed.

Thanks,

Supervisory Special Agent
Operational Technology Division
Tracking Technology Unit

Subject: ACTION NEEDED BY 4/5/10: Filming for All Employees Information - Sign Up For a Slot

UNCLASSIFIED
NON-RECORD

The OTD All Employee Conference will be virtual this year. We will be filming each of the people in the list below. The recordings will be made available on the FBI intranet and all employees will be required to watch all of them by some deadline (to be announced at a later time).

The following are the speakers who will need to be recorded:

1. Introduction from AD Thomas - Marcus Thomas
2. Introduction from DAD Cook - Pat Cook
3. Short recap of yearly accomplishments from each Section Chief - Struyk, Price, Devall, DiClemente, Motta
4. EAP Mandatory information ([redacted])
5. EEO Mandatory information ([redacted])
6. Ethics Mandatory information - TBD from HQ
7. Security Mandatory information ([redacted])
8. SMS update for division ([redacted])

If you are on the speaker list above, you will be recorded. Here are the relevant guidelines:

- 1) We would like to keep each clip to under 5 minutes, and in no case longer than 10 minutes.
- 2) We strongly suggest that you convey your information by talking and displaying items only, but can accommodate a Powerpoint if you absolutely must use one.
- 3) You are responsible for bringing any props or samples that you might want to show in the recording to make it interesting.
- 4) The recording will not be edited. It will be one straight run-through. You will need to be fairly confident in what you want to convey before you get to the recording session.
- 5) Notecards or printed outlines are allowed--or, even big cue cards if you want to make them.
- 6) We will be setting up a mini-studio in the Executive Conference Room in ERF on the following dates:
 - Tuesday, 4/6/10 - All day
 - Wednesday, 4/7/10 - 10am-5pm

ACTION REQUIRED:

We set up a Sharepoint to sign up for available slots for filming. To sign up for a filming slot, go to this intranet link:

[redacted]

Click any slot with "open" in the **Speaker Name** column and type your name. If you are prompted to provide your login, use your Trilogy login and password and leave the Domain field blank. (Play nice. You have rights to be able to take a slot away from someone by erasing their name and typing yours. But you would never do that.)

If you have trouble signing up for a slot, reply to this message with your time preference and I can fill in the Sharepoint list for you.

All,

Here are my comments/edits on the [redacted] statement. One overall question: Is ~~LES/FOUO~~
a high enough classification level for discussing conops?
Make sure you have "final showing markup" selected under the review tab to see the edits.

SENSITIVE BUT UNCLASSIFIED
NON-RECORD

Consideration of special recognition should also include 3 more individuals for the following reasons:

[redacted]
Reason: [redacted] offers his availability to participate and engage in [redacted] on a short moment notice and was instrumental in the success of capturing high profile targets involved in the kidnapping of [redacted]. His strong work ethics, results driven attitude, and willingness to work long hours is essential to the team success.

[redacted]
Reason: At a critical mission needs, [redacted] volunteers on a moment notice to [redacted] when no one else is available. [redacted] exhibits exceptional drive in performing his duties above and beyond the norm of working in [redacted]. [redacted] performed the first airborne [redacted] and we were successful in exhibiting our added capability of airborne geolocation operations.

b6
b7C
b7E

[redacted]
Reason: [redacted] was instrumental in the first ever deployment of [redacted] airborne mission which lead to the capture a gang subject using a [redacted] cellular phone. [redacted] took it on himself and initiated a loaner of the airborne equipment to perform his mission expeditiously.

b6
b7C

SENSITIVE BUT UNCLASSIFIED
NON-RECORD

My recommendations below, this year was a historic year where the FBI was first in LEO community to do the following:

Names:

[redacted]

Reason: [redacted] were instrumental the first ever deployment of [redacted] technologies, which lead to the capture of a murder fugitive using a [redacted] cellular phone.

[redacted]

b3
b6
b7C
b7E

Reason: [redacted] was instrumental in the first ever deployment of [redacted] which lead to the capture of a fugitive using a [redacted] cellular phone. [redacted] also traveled

b3
b6
b7C
b7E

[redacted]
Reason: [redacted] was instrumental with the first ever deployment of [redacted] which lead to the capture of fugitive using an [redacted] cellular phone.

Special Recognition: (perhaps we can sponsor an award for him this year through his office?)

[redacted]
Reason: [redacted] made himself available for [redacted] and [redacted] and also attended an advanced TTU sponsored exercise. His availability and drive to work missions, putting all other work aside, has benefitted the bureau in it's endeavor to support all missions as they arise on a moments notice.

Hi [redacted]

I have a quick question and then some [redacted] items.

We went up on a target yesterday and I put it into the [redacted]
[redacted] I closed the [redacted] before bed and [redacted]

[redacted] I can probably get by without a replacement [redacted] but I thought I'd ask what the chances are of a replacement for it if I return this one?

b3
b6
b7C
b7E

Which leads me to the [redacted] questions. Here in [redacted] we have really been pushing the WITT technology and are getting a lot of response (see our stats). We were given a [redacted] that we would like to outfit as another WITT [redacted] with an [redacted] and some type [redacted]

[redacted] I dropped an [redacted]

Our concept is to have [redacted] The first is the [redacted]
It will have the [redacted] ready for use by anyone on the squad at any time.

[redacted]

The [redacted] I currently have the [redacted]
[redacted] installed and working great. The setup I have now is [redacted]
[redacted] when needed and [redacted] With year end money, I hope to get a [redacted]
[redacted] getting the [redacted] There is supposedly an Airborne [redacted] back at

ERF that has our name on it that will also be utilized by me. In theory, we are getting a [redacted] with the Airborne [redacted] at least that is an assumption and what [redacted] said would be ideal. If we do, I will take out the [redacted] and put in the [redacted] When the Airborne mission arises, I will remove the [redacted] from the suburban and take it and the airborne [redacted] to the plane. Which leads us to the third [redacted]

b3
b6
b7C
b7E

Finally, if you need someone to test out the [redacted] we'd be happy to be the beta testers. We are often asked to use the [redacted]

I'm sure you have rolled your eyes several times during this email asking who do you think you are, but we are getting the support from the division and when the loan of equipment policy eventually passes, things will pick up even more...

You can now drink some water and towel off after reading this endless email. Thanks, and give me a call or let me know what you think.

Thanks,

[redacted]

Subject: TDY for

--

EFF CELL-1000

Tentatively we are looking at travel on Sunday. Briefing and additional training by TTU on Monday. Operation should be shortly thereafter..

I assume that the authorization for deployment of sensitive equipment/technology is being approved.

Let me know what else OTD can do to assist.

TDY [] can us [] to start their 540s. I will be reaching out to each TDYer and their ASAC to bring them up to speed. We may have to find another TR account but to get things rolling use that #.

b3
b6
b7C
b7E

I also believe we should have a couple [] as backups should operational needs in the TDYers home office prevent them from traveling as well as having individuals on standby should this become protracted. I am still looking for additional [] with WITT [] to be on standby to assist.

I consider this a priority matter so if we get in a bind I can twist arms to obtain additional resources.

Special thanks to [] and UC [] on expediting the equipment.

Subject: SUPPORT FOR [REDACTED] WITT OPERATION (CON)

b6
b7C
b7E

The requirements for WITT support for [REDACTED] Operation [REDACTED] have been dramatically reduced. There will not be any FBI WITT operations conducted in [REDACTED] nor will Airborne WITT be [REDACTED]

[REDACTED] still anticipates conducting multiple WITT missions on Thursday [REDACTED] and Friday, [REDACTED]

Consequently, the majority of all previously authorized TDY and OTD/TTU support will not be needed, with the exception of [REDACTED] and his WITT [REDACTED] should plan to arrive in [REDACTED] on Wednesday, [REDACTED] TTU's [REDACTED] who will be in the [REDACTED] supporting already scheduled WITT training, will be on-call to assist [REDACTED] as necessary.

b6
b7C
b7E

[REDACTED] is extremely grateful to everyone for their offers of support, especially on such short notice. [REDACTED] would like to especially recognize [REDACTED] and [REDACTED] for their outstanding support and coordination for this investigation.

Please contact [REDACTED] with any questions regarding this matter.

Again, thank you very much.

UC [redacted] asked the below information to be shared with the group along with action to be taken on various topics.

b3
b6
b7C
b7E

- Reminder to everyone to dress business casual next Monday for the new EAD Meet & Greet. PMs shall be required to be presence in the TTU Conference room to answer potential technical questions. [redacted] is requested to have a [redacted] system for display purpose. The system needs not to be [redacted]

Action: [redacted] can you prepare a system for the scheduled event of late afternoon.

[redacted] A status report on current progress with the Policy and Procedure of [redacted] systems installed on FBI air assets to conduct airborne missions is due July 26th. [redacted] advised [redacted] [redacted] is now the Unit Chief and she and her team is meeting with ASU next week to discuss about one of their program to be deployed airborne. Contact [redacted] if interested in combining the two programs when meeting with ASU.]

Action: [redacted] please prepare to submit a summary report for this effort.

b1
b3
b6
b7C
b7E

[redacted] advised [redacted] was returned back to the [redacted] program spend plan as a result of less cost than the original intended spending from the [redacted] contract. Of this amount, [redacted] has requested to have [redacted] to further support their program which leave the availability of [redacted] [redacted] (\$)

Tasking: [redacted] shall inquire with the CO whether we can leverage the existing Contract to perform retrofitting services [redacted] It is likely that not since the contract did not include provision as such. As a result, we need to submit a new bid and obtain 3 cost proposals. Notwithstanding, a modified SOW needs to be prepare to address the specific needs in order for us to receive a cost proposal. [redacted] are you able to take on this task of reworking the SOW to address the retrofitting work? This needs to be on a fast track due to the short time remaining on the current fiscal year.

- WebTA. In compliance with the new policy, all AL needs to be pre-approved prior to actual use. Same with premium pay of comp time and overtime. The principle is that post approval is not a practice we should operate in. For last minute event, obtain verbal approval and make note of it in the comment section.

=====

Below is a summary of the unit weekly staff meeting. There are items with due date that need to be adhere to.

- Use of Lose Annual Leave.

Plan accordingly to prevent an use or lose situation at the end of year particularly now that OT is not available and Comp Time is being compensated instead.

- WebTA Assignment.

[redacted] shall be the primary TimeKeeper for the unit with [redacted] as backup. All others who previously had TimeKeeper duty shall no longer have the responsibility.

b6
b7C

- 5-Year Spend Plan.

Each group shall prepare if not already done so a 5-year spend plan as part of the unit's goal to provide better organizational planning.

- Coordination Effort.

Each group shall continue to work and improve on coordination efforts regarding policy, practice, and procedure. Example include Aviation Support Branch, testing, etc.

- Catalog of Technology, Capability and how it applies.

Each group shall prepare a catalog defining technology, capability and its application and is ready to submit by June 15, 2012. For example, [redacted] shall have the following capabilities defined in the

(S)

[redacted]
[redacted] The finished document is to be sent to [redacted] in an effort to consolidate the unit's program capability for export control purpose.

b1
b3
b6
b7C
b7E

- Website Update.

Each group shall work with [redacted] in an effort to provide a structured easy to navigate website on [redacted] that can be used as a reference source for program information.

A TTU/WITT staff meeting was held today to identify and prioritize work for the short-term. Below is a list of Priorities, which the group shall work towards fulfilling at a minimum, before [redacted] departure [redacted] for his airborne training classes. The other working items are to be done as secondary priorities. There were a lot more of "other working items", but I just wanted to ensure you are aware of the higher priorities that the group shall work to fulfill in the near term.

b6
b7C

[redacted]

Priorities:

- [redacted] and Development Efforts [redacted] and others shall work with [redacted] to develop statement of works, due end of this week for delivery.
- [redacted] shall coordinate OGC assessment of [redacted] and coordinate (Tuesday) meeting with OTD AD Marcus and OGC [redacted] for an assessment of privacy concerns expressed by the AD. As of this writing [redacted] has been briefed. [redacted] is coordinating Tuesday Meeting.
- [redacted] - Currently obtaining justification information for contract paperwork
- [redacted] - Currently working with [redacted] in correcting advertised bidding paperwork.

b1
b3
b6
b7C
b7E

- [redacted] (S)
Operational Support [redacted] shall assume duties for ops support upon [redacted] Departure, and currently shall offer assistance/training (80%)

- [redacted] (S)
Airborne - [redacted] - continue to coordinate classes for FBI FO as needed.

[redacted] (S)

Other Working Items:

- [redacted] - Test and evaluate equipment [redacted].. upcoming shipments of [redacted]
- [redacted] Return of Loaned Equipment [redacted]
- [redacted] may require vendor intervention for modifications
- [redacted] - attend testing 06/30-07/01/2010.
- [redacted] - arrange TTU/WITT class to be held at quantico
- [redacted] (S)
[redacted] - Arrange test/training in future
- [redacted] Contract paperwork at CO, awaiting PO (large purchase order)
