24 Be it ordained by the People of the City and County of San Francisco:

25 Section 1. General Findings.

1 (a) It is essential to have an informed public debate as early as possible about  
2 decisions related to surveillance technology.

3 (b) Whenever possible, decisions relating to surveillance technology should occur with  
4 strong consideration given to the impact such technologies may have on civil rights and civil  
5 liberties, including those rights guaranteed by the First, Fourth, and Fourteenth Amendments  
6 to the United States Constitution as well as Sections 1, 2, and 13 of Article I of the California  
7 Constitution.

8 (c) While surveillance technology may threaten the privacy of all of us, surveillance  
9 efforts have historically been used to intimidate and oppress certain communities and groups  
10 more than others, including those that are defined by a common race, ethnicity, religion,  
11 national origin, income level, sexual orientation, or political perspective.

12 (d) The propensity for facial recognition technology to endanger civil rights and civil  
13 liberties substantially outweighs its purported benefits, and the technology will exacerbate  
14 racial injustice and threaten our ability to live free of continuous government monitoring.

15 (e) Whenever possible, decisions regarding if and how surveillance technologies  
16 should be funded, acquired, or used, and whether data from such technologies should be  
17 shared, should be made only after meaningful public input has been solicited and given  
18 significant weight.

19 (f) Legally enforceable safeguards, including robust transparency, oversight, and  
20 accountability measures, must be in place to protect civil rights and civil liberties before any  
21 surveillance technology is deployed; and

22 (g) If a surveillance technology is approved, data reporting measures must be adopted  
23 that empower the Board of Supervisors and the public to verify that mandated civil rights and  
24 civil liberties safeguards have been strictly adhered to.
