**Justification of Commanding Officer's decision:**

Live monitoring request based on information received from Major City Chiefs and Memphis Police Department related to potential civil unrest upon release of Body Cam Footage from Memphis PD's In Custody Death incident. Similar historical events have prompted large scale riots and looting across the Nation. There are demonstrations already planned within the Union Square footprint (during high commute hours) and the use of live monitoring will allow SFPD to prevent potential felony vandalism, major looting and crimes that are generally associated with civil unrest as seen in previous events. This will allow SFPD situational awareness to re-deploy the necessary resources.
