Reported by:
SUSAN I. STUART, CSR No. 6410
Job No. LitCA 6852466

Page 1

1 Q. Let's consider that an investigation.

2 A. Yeah. If you want to consider that an
3 investigation, then, yeah, there was, yeah, about 25.
4 We'd get a list, we see high usage. We'd send a letter
5 and say, "Hi, you know, if you are" -- I don't remember
6 the exact contents of the letter, but essentially it
7 would say something along the lines of "Hi, we have
8 received a high usage notification from something in
9 regards to the city, we'd like to come to ensure that
10 you're in compliance with any type of potential
11 marijuana grow."

12 And then we would get a call back. Like we got
13 a call back from a woman and she's like, "This is
14 asinine, I can't believe you would send this to me." We
15 go to her house and she has like a 10,000-square-foot
16 house and a blown fuse and three kitchen islands that
17 use a high amount of wattage. So all things
18 considered -- oh, and an elevator. So if you want to
19 consider that an investigation, then, yes, I used SMUD
20 to go view her beautiful home.

21 Q. Let's go back to a couple of the examples
22 you -- you talked about.

23 You talked about sometimes going to a home
24 and -- to investigate a marijuana grow because that
25 person was on a high user list --

1 A. Yes.

2 Q. -- and then you found a second room.

3 A. Yes.

4 Q. Can you just describe that a little more, that
5 example, did that happen to you personally?

6 A. So there was -- so one of my investigations
7 was -- and it could be this address, I don't know. One
8 of my investigations led me to a high user. Once I
9 looked into that, he had been previously contacted. I
10 investigated that. We wrote a search warrant. We
11 contacted him. And through that investigation he
12 essentially was like, "Hey, I have a man cave
13 essentially, and my man cave is where I hang out. I
14 guess I still have high usage, I didn't know."

15 There was another time that we went to a house
16 and the homeowners had built essentially like kind of
17 like tiny homes in a way --

18 Q. Uh-huh.

19 A. -- and kind of like a tiny home compound. Like
20 there was a little kitchenette area in the back. And
21 they had high wattage.

22 So those are the two times that are sticking on
23 out in my head as far as rooms.

24 Q. Uh-huh. You also mentioned a -- sometimes you
25 would go to a home of a person who was on a high user

1 list and then you would find a koi pond?

2 A. Yes. It was more of an example, but the
3 specific time that I remember this woman had I want to
4 say a pond, I want to say like five dogs, like three or
5 four cats, maybe a large fish tank. Maybe I'm thinking
6 of a fish tank, not a pond. I want to say she had a
7 fish tank. I want to say she wasn't -- I believe she
8 worked for a vet, so she would like just house animals
9 and just help recuperate them.

10 Q. And then you also mentioned that you've gone to
11 a home on a high user list to investigate a potential
12 marijuana grow and then you just found a
13 10,000-square-foot home with a blown fuse and an
14 elevator.

15 Is that correct?

16 A. Are you taking my word literal for 10,000
17 square feet?

18 Q. No. Just a large home with an elevator.

19 A. I don't know how this thing works, if you guys
20 are taking my words literal or -- I'm estimating how
21 large this home was and bleeding in like some houses had
22 blown fuses, some people used -- I just want to make
23 sure we're being clear.

24 Q. Yeah.

25 A. So it is an estimation of a very large home in

1 what you found?

2 A. Yeah. I --

3 Q. And -- go ahead.

4 A. Go ahead.

5 Q. First, can you tell me about when that
6 happened?

7 A. If I left in May, two months before. March,
8 April. March? Springtime. I don't believe it was in
9 the winter. I believe it was maybe spring-ish. We'll
10 call it spring.

11 Q. And when you went to that large house with an
12 elevator in spring --

13 A. Uh-huh.

14 Q. -- in spring, can you tell me what happened?

15 A. I walked in. The lady was highly upset. She
16 believed that we as officers are giving people heart
17 attacks by sending these letters out to people that have
18 high usage. She was pretty frustrated at the fact that
19 we would even show up to her home -- or, I'm sorry, not
20 show up to her home but like she being someone who lives
21 in a nice neighborhood, all things considered doing the
22 right thing, would be on a list of and be looked at as a
23 criminal.

24 If I remember correctly, I might be confusing
25 another investigation, but I believe she had her -- a

1 an elevator.

2 It sounds like the program was a little
3 inefficient. Would you agree with that?

4 MR. KIM: Object as argumentative.

5 You can answer it if you understand it, if you
6 have an answer to give.

7 THE WITNESS: Based on my time there with the
8 information that I received, the productivity of what
9 would be investigations of marijuana compliance was not
10 on the high end. In respect to me specifically. Like I
11 didn't get -- I didn't get a lot of information and like
12 every week it was like, oh, I have another one, I have
13 another one, I have another one. For me specifically.

14 But do I think that the -- to be able to
15 receive that information was an efficient way? Yeah.
16 But was it the most productive for me? No. I mean
17 maybe I could have just driven around East Sacramento
18 and rolled down my windows and tried to smell something,
19 I don't know.

20 Q. BY MR. TRUJILLO: So aside from the examples we
21 just went over -- the man cave, the koi pond, the
22 elevator, the house with an elevator -- can you think of
23 any other times when you went to a house based on a tip
24 from the high user list and then you -- you found
25 something else, you found a person that wasn't growing

1 marijuana?

2 A. Uh-huh. There was a time of a person who had
3 like exotic plants.

4 Q. Anything else?

5 A. I'm trying to think.

6 If I remember correctly, there was one time
7 there was someone that had -- they were using small
8 space heaters. And then I want to say something was
9 wrong with the fuses where the -- the electrical or
10 something like that.

11 Q. Anything else?

12 A. Not that I can recall.

13 Q. Were -- the majority of your investigations
14 that started from a high user list, did they -- did the
15 majority of them end up by finding no marijuana grow at
16 the house?

17 A. Based off of my percentages, then yeah.

18 Q. Can you give me a ballpark percentage of -- of
19 your experience with the investigations that started
20 from a zip list how many of those actually resulted in
21 a --

22 A. Like I said, about 25 maybe. I don't know.

23 Q. Let me rephrase that. Actually, let's just
24 strike that.

25 So you mentioned exotic plants and you

1 Q. Do you know why SMUD and the police department
2 were getting complaints?

3 MR. KIM: If you know.

4 THE WITNESS: Because some of these people were
5 not doing anything and they felt like they were being
6 criminalized.

7 Q. BY MR. TRUJILLO: And they, in fact, weren't
8 growing marijuana; correct?

9 A. That's correct.

10 Q. Some of these people.

11 A. That is correct.

12 Q. And were some of the complaints about this data
13 sharing violating people's privacy?

14 MR. KIM: If you know.

15 THE WITNESS: Yeah, I never personally received
16 a complaint, but based off the one woman I had talked to
17 she was highly upset with the information being shared
18 and her feeling like she was a criminal.

19 Q. BY MR. TRUJILLO: When -- when you receive a
20 zip list that has the address and the kilowatt hours on
21 it, do you keep that information confidential?

22 A. Rephrase your question.

23 Within the team?

24 Can you just rephrase that or ask it in a
25 different manner?

(SEARCH WARRANT)

THE PEOPLE OF THE STATE OF CALIFORNIA TO ANY SHERIFF, POLICE OFFICER, OR PEACE OFFICER IN THE COUNTY OF SACRAMENTO:

Proof by affidavit having been made before me by **Officer H. Dyson #1054**, that there is probable cause to believe that the property described herein may be found at the locations set forth herein and that it is lawfully seizable pursuant to Penal Code Section 1524 as indicated below by checked box(es) (☒) in that:

- ☒ It is possessed by a person with the intent to use it as means of committing a public offense or is possessed by another to whom he or she may have delivered it for the purpose of concealing it or preventing its discovery. [Penal Code Sec. 1524(a)(3)]

YOU ARE THEREFORE COMMANDED TO SEARCH:

THE FOLLOWING LOCATION(S):

- (1) [REDACTED] Sacramento, California, 95824. [REDACTED] is located in the City and County of Sacramento and is further described as a single-story, single-family home. [REDACTED] is located on the south side of [REDACTED]. The residence is beige in color with white trim on the gutters. The front door faces north towards [REDACTED]. There was a white metal security door that is covering the front door. There is a black wrought-iron fence and a rolling gate across the driveway that is on the north property line. Behind the fence was a concrete driveway that leads to the garage. There are concrete steps to the front door of the residence. To the east of the front door is a window approx. 2 feet by 5 feet. To the east of the window is a garage. The garage had black fabric hanging from it. The address [REDACTED] is affixed to the house in a vertical position in black coloring and are approximately 6 inches in height directly to the left of the front door. To the west of the front door is a smaller approx. 3 feet by 2.5 feet.

To include all attics, basements, rooms, garages, outbuildings, storage sheds, operative/inoperative vehicles, garbage cans, safes, designated lockers or storage space, and containers located within the property boundaries associated with the premises located at [REDACTED] Sacramento, California, 95824.

In the event that law enforcement officers encounter safes, locked cabinets, or other secured containers at the location(s) or in vehicle(s) listed in this search warrant, it is the direction of this Court those officers or their agents access those items to search for evidence listed in this search warrant. Officers are authorized to use the assistance of a locksmith or other experts to open locked safes or storage containers. Officers may remove the safe or storage container to a location where it can be opened at a later date.

THE FOLLOWING PERSON(S):

- (1) [REDACTED] further described as a male white adult, standing approximately five feet, nine inches (5'9") tall, weighing approximately 190 pounds, with blonde hair and brown eyes, with a date of birth of [REDACTED] a Sacramento County [REDACTED]
- [REDACTED]

- (2) [REDACTED] further described as a female white adult, standing approximately five feet, two inches (5'2") tall, weighing approximately 130 pounds, with brown hair and brown eyes, with a date of birth of [REDACTED] a Sacramento County [REDACTED]
- [REDACTED]
- [REDACTED]

THE FOLLOWING VEHICLE(S):

- (1) A black [REDACTED] and Vehicle Identification Number (VIN): [REDACTED] that is registered to [REDACTED]

FOR THE FOLLOWING PROPERTY:

- (1) Cannabis; and items commonly associated with the cultivation and packaging for sale of cannabis, such as: baggies, scales, pay/owe sheets, records of growing cycles and light cycles. Property or items utilized for the cultivation of cannabis, such as: seeds, fertilizer,

irrigation devices, garden tools, growing containers, electrical devices which aid in the growth of cannabis plants, such as timers, pumps, ballast, lights, climate control devices, generators, and books or instructional manuals to aid in the growing of cannabis.

- (2) Receipts, invoices or bills showing the purchase or sale of property or items utilized for the cultivation of cannabis, such as: seeds, fertilizer, irrigation devices, garden tools, growing containers, electrical devices which aid in the growth of cannabis plants, such as timers, pumps, ballast, lights, climate control devices, and books or instructional manuals to aid in the growing of cannabis.
- (3) All firearms and items related to firearms, including but not limited to, ammunition, gun locks, gun cases, holsters, gun safes, repair and cleaning kits, speed loaders, magazines, ammunition belts or pouches, targets, expended shell casings, spent bullets, scopes, gun sights, original gun packaging boxes, ammunition boxes, receipts and credit card statements showing the purchase of firearms or any firearm accessories, business cards from gun stores (or places which sell firearms, ammunition or firearm accessories), and receipts, business cards, or flyers from gun ranges or other shooting facilities, gun shows, or other gun events.
- (4) Any items tending to establish the identity of persons who have dominion and control of the location, premises, automobiles, or items to be seized, including delivered mail, whether inside the location or in the mail box(s), bills, utility bills, telephone bills, miscellaneous addressed mail, personal letters, personal identification, purchase receipts, rent receipts, sales receipts, receipts for rental storage space, keys and receipts for post office box(es) or mail drop rentals, ignition keys, car door and trunk keys, vehicle ownership certificates or "pink slips," and/or vehicle registration slips, records of voice transmissions on telephone answering machines, audio tapes and telephone message receipt books, written phone messages, photographs tending to show occupation of the residence/business and connection between co-conspirators, whether identified, answering machines, tape recorders, and any other recording devices, and to play such devices to obtain their messages. Any examples of handwriting including letters, address books, business records, canceled checks, notes, and/or lists.
- (5) Any cellular telephones or other electronic or telecommunications devices that are in the possession or control of [REDACTED] at the time this warrant is served. An additional search warrant will be obtained to view any information contained within those cellular telephones, consistent with the provisions of the California Electronic Communications Privacy Act (ECPA). Additionally, the searching Peace Officers are authorized to seize, and book said cellular telephones and transfer them to a Law Enforcement Agency location prior to commencing the search of the items. Furthermore, said search may continue beyond the ten-day period beginning upon issuance of this Search Warrant, to the extent necessary to complete the search on the cellular telephones.

Additional Orders:

Page 4 of 19

- (1) Use of Force to Breach Authorized:** Officers may use necessary force to breach any gates, fences, door, and/or windows to gain entry into the location(s) to be searched pursuant to this warrant.
- (2) Use of Force to Open Safes and/or Locked Containers Authorized:** Officers may use necessary force to breach any safe and/or storage container believed to contain contraband, controlled substances, or items to be seized pursuant to this warrant.
- (3) Use of Outside Experts Authorized:** Outside experts acting under the direct control of the investigating officers are authorized to enter the above listed locations in order to photograph, video tape, diagram, and process the scene for latent fingerprints and trace evidence.
- (4) Use of Remote Operated Reconnaissance Technology:** For the reasons set forth in the accompanying affidavit, the officers who execute this warrant are authorized to employ a small Unmanned Aerial Vehicle (sUAV) and/or a small Remote Operated Vehicle (sROV) as necessary to complete their mission and protect the safety of the officers, the occupants of the premises, and others in the vicinity. Such use shall be limited to providing officers with a real-time view of the premises and the area nearby for the purpose of detecting attempts to escape or utilize violence against the officers, enabling officers to obtain a full real-time view of the structure they are about to enter and the surrounding area and, if necessary, tracking the flight of escapees. Furthermore, the officers are ordered to record and retain the information collected by the sUAV and/or sROV so that it may be available to both the prosecution and defense in subsequent court proceedings. The sUAV and/or sROV shall *not* be used as an eavesdropping audio device in locations where officers would not have lawful access and/or be able to overhear themselves; in such scenarios, the sUAV and/or sROV shall be limited to video/visual viewing only with no audio.
- (5) Destruction of Contraband:** Pursuant to Health and Safety Code Section 11479, the Court authorizes the destruction of excess quantities of any seized suspected controlled substances and orders that the provisions of Health and Safety Code Section 11479 be followed in executing said order.
- (6) No Prohibited Violations:** Based on Affiant's attestation pursuant to Penal Code Sections 1524(h) and 1524.2(c), the Court finds that the evidence sought pursuant to this warrant is not related to an investigation into, or enforcement of, a prohibited violation as defined in Penal Code Section 629.51.

AND TO SEIZE IT IF FOUND and bring it forthwith before me, or this court, at the courthouse of this court.

This Search Warrant and incorporated Affidavit was sworn to and subscribed before me this

Page 5 of 19

22 day February, 2023, at 4:56 PM.

Wherefore, I find probable cause for the issuance of this Search Warrant and do issue it.

Officer H. Dyson #1054

Sacramento Police Department

300 Richards Blvd.

@pd.cityofsacramento.org

AFFIDAVIT OF Officer H. Dyson IN SUPPORT OF A SEARCH WARRANT

I, Officer Hakeem Dyson your affiant, am a duly sworn Peace Officer employed by the Sacramento Police Department. I have been employed as a full time Police Officer since January 2017.

In July 2015, I obtained my Bachelors of Science Degree in Kinesiology while attending California State University, Chico.

From July 2017 to December 2017, I attended and completed a 942 hour (26 week) intensive format Police Officer Standards & Training (POST) certified academy provided by the Sacramento Police Department. This course included, but was not limited to, firearms training, shotgun training, uses of force and their proper applications, medical and first aid, emergency vehicle operations and control, preliminary investigations, domestic violence, homicide investigations, narcotics investigations, DUI investigations, collision investigations, sexual assault investigations, property crimes investigations, and crimes against persons investigations. I was instructed in basic knowledge of the previously listed training by investigators and prosecuting attorneys who have many years of experience in the specific areas.

In January 2018, I was assigned to the Office of Operations, Patrol Division, as a uniformed patrol officer. As a patrol officer, I conducted, as well as participated in, no less than one hundred (100) preliminary and ongoing investigations into various crimes including but not limited to homicide, robbery, burglary, rape, theft, assault, domestic violence, sex crimes, child abuse, vehicle theft, weapons violations, vehicle traffic violations, and various narcotic related offenses. During the course of these investigations, I conducted interviews with victims, witnesses, and suspects.

In November 2019, I attended the California Narcotics Officers Association conference and received various law enforcement and narcotics investigation related training (40 hours). The training covered various aspects of narcotics related investigation, to include but not limited to narco-terrorism, the transportation/distribution of controlled substances, current drug trends, and search and seizure.

In January of 2019, I was temporarily assigned to the Office of Operations, Entertainment team (E-Team). In this capacity, I met with business owners from the community of bars, clubs, and restaurants to discuss their complaints and concerns regarding night life in the Sacramento Downtown area. My goal as a E-team officer was to reduce crime, solve long-term night life problems, and enhance the quality of life for the citizens in our city participating in night life activities. During my time on the E-Team, I was the primary officer on no less than 20 robbery and assault investigations.

In January of 2021, I was assigned to the Office of Operations, Bicycle Unit. My duties included, but were not limited to, investigating robberies, burglaries, theft, extortion, and vandalisms.

Communicating with persons experiencing homelessness and providing resources to those people. Communicating with local business to facilitate a safer downtown core area for all people.

During my career I have conducted no less than 50 narcotic possession investigation ranging from Methamphetamine, Heroin, narcotic pills, and Marijuana. I have observed and collected the previous named narcotics. During my investigations I became familiar with how narcotics are packaged, transported, hidden and ingested. Since being employed as a Police Officer, I have personally interviewed several persons for narcotic use, possession and narcotic dealing. I also became familiar with their odor, appearance, texture, packaging and the paraphernalia associated with each narcotic. I have responded to numerous locations where I observed subject ingesting, smoking, possessing, and selling narcotic substances.

In October of 2022, I attended a 10-hour course search warrants for patrol course taught by Sacramento Police Department Detectives. During the course I learned how to successfully author a search warrant into residences, cellular/ electronic devises, social media accounts, and vehicles. Furthermore, I learned the process in which to appropriately obtain, review (DA/ Judges), and execute a search warrant.

In November of 2022, I attended the Robert Presley Institute of Criminal Investigation Core Course which consisted of an 80-hour comprehensive and hands on instruction. Throughout the course I learned how to properly manage a scene, conducted interviews with victims and suspects, conduct thorough follow-up investigations. Furthermore, I learned how to better write search warrants and how to present the case to a district attorney as well as a judge.

I am currently assigned to the Marijuana Compliance Team (MCT). My primary responsibilities, but not limited to, are to investigate illegal cultivation of Marijuana in the City of Sacramento in violation of Sacramento City Codes. I have assisted on an investigation regarding illegal cultivation of Marijuana. I have assisted in an undercover surveillance investigation of illegal sales of Marijuana outside of a business in the City of Sacramento.

CASE SUMMARY

The information contained in this affidavit is based upon information provided by officers and witnesses to whom I have personally spoken with, and upon reports, and other documents I reviewed. Your affiant has not included every fact known to your affiant concerning this investigation. Your affiant believes the following facts are necessary and appropriate to establish the appropriate foundation for the requested search warrant.

The Sacramento Police Department Marijuana Compliance Team made a request to SMUD (Sacramento Municipal Utilities District) for a list of properties in the City of Sacramento that use an abnormally high amount of power, which may be indicative of illicit indoor cannabis grows.

In January of 2023, the Sacramento Police Department requested a list of high-power users to the Sacramento Municipal Utilities District (herein referred to as "SMUD"). On 01/31/23 I, Officer Hakeem Dyson, initiated an investigation of [REDACTED] Sacramento, CA 95824 which indicated a constant high usage of kilowatts (3,789 kwh) from 1/1/2023-1/31/2023. Based on my training and experience and speaking to officers who have knowledge regarding to cannabis cultivation, I know that indoor cannabis cultivations utilize constant high usage of Kilowatts in order to grow cannabis.

SMUD investigator Jason Burkhalter has been employed with SMUD for 21 years. He has worked as an investigator since 2011. Burkhalter has investigated over 1,000 grow houses and had completed over 4,000 power theft cases. Burkhalter has billed over \$1 million in theft charges. Furthermore, SMUD investigator Burkhalter has, to my knowledge, never incorrectly assessed kilowatt usage, amperage draws, or power cycles of illegal marijuana grows with common power consumption.

I conducted a record check of the location through the Sacramento Police Department records management system (RMS) and found that there was a previous report from Officer Danforth and Officer Mills regarding a Cannabis Compliance Check on 02/17/2020 (SPD Report # 20-52885). Per the report Officers contacted [REDACTED] Sacramento, CA 95824 and advised him of the regulations regarding cannabis cultivation.

On 02/01/2023 I reviewed Officer Danforth's body worn camera (BWC) from when he had contacted [REDACTED] regarding a Cannabis compliance check. In the BWC Officer Danforth contacted [REDACTED] In the footage [REDACTED] allows officers to check his residence to ensure his compliance with the Sacramento City ordinances, laws, and policies.

[REDACTED] escorted officers to the backyard of the residence where there was a shed. He stated that he had built an indoor cultivation area for his Cannabis Plants. At the time of this compliance check there were no Cannabis plants present. There was evidence of [REDACTED] growing Marijuana ie: lights, dead plants and potting soil. There was a secondary shed that was smaller than the initial shed that contained drying lines. I know based on my training and experience that people who cultivate cannabis utilize drying lines to hang the cannabis to dry it out once it has been harvested part of the processing.

During officers contact with [REDACTED] Officers explained to him that he was not allowed to cultivate more than 6 plants (per SCC 8.132.040) indoors and none outdoors. [REDACTED] stated that he believed the number of plants that the residence was allowed to cultivate was per person and that he and his wife had 11 plants.

I conducted a record check of [REDACTED] using TLO, a law enforcement search tool. The TLO search showed that [REDACTED] was the resident of the house. [REDACTED] had a date of birth of [REDACTED] I conducted a record check of [REDACTED] using the Sacramento County Known persons finder (WebKPF). Per WebKPF [REDACTED] address was [REDACTED] Sacramento, CA 95824. Per WebKPF [REDACTED] had no criminal history. I positively

identified [REDACTED] through WebKPF by the viewing Officer Danforth's BWC.

A record check through the Sacramento County's Parcel Viewer showed that [REDACTED] and [REDACTED] were the owners of the residence. Per the Sacramento County Parcel Viewer the home was owned by [REDACTED] on 02/03/2011. On 10/31/2016 the owners were [REDACTED] and [REDACTED]

A NCIC records check of [REDACTED] showed that he had two other alias names: [REDACTED] and [REDACTED]. A WebKPF records check of [REDACTED] showed a birth date of [REDACTED] and showed a listed address of [REDACTED] Sacramento, CA 95824. Per WebKPF [REDACTED] did not have any criminal history.

I conducted a DMV record check of [REDACTED] and he had a CA driver license number of [REDACTED]. Per DMV, his address of record was [REDACTED] Sacramento, CA 95824. I conducted a DMV record check of [REDACTED] and she had a CA driver license number of [REDACTED]. Per DMV her address of record was [REDACTED] Sacramento, CA 95824.

On 02/02/23 I requested an updated SMUD usage report for the residence located at [REDACTED] Sacramento, CA 95824. SMUD Investigator Jason Burkhalter advised that [REDACTED] was the current customer at that location and had been since 02/03/2011. Investigator Jason Burkhalter estimated there to be constant high usage with the use of solar as well.

Power usage for of [REDACTED] Sacramento, CA 95824 for the last billing cycle: **4,274 KWH** from 01/01/2023 – 01/31/2023.

Based upon the average comparable electric use for residence located on 39th Avenue the following residences show that of [REDACTED] Sacramento, CA 95824 is using an excess amount of power, which is indicative of cannabis cultivation. The comparable residences for [REDACTED] Sacramento, CA 95824 are:

- (1) [REDACTED] – 561 KWH 01/01/2023 – 01/31/2023
- (2) [REDACTED] – 193 KWH 01/01/2023 – 01/31/2023

Based on my training and experience and the experience of other more experienced investigators, along with instruction from SMUD investigator, I know that the average U.S. household has 45 light bulbs. I also know that the average light bulb in a U.S. residence is between 40 and 60 watts. The consumption of a single 60-watt light bulb operating for one hour is .06 kWh. Information provided by the United States Energy Information Administration states that in 2020 the average annual electricity consumption for a U.S. residence is approximately 10,715 kWh with an average monthly usage of 893 kWh. Extrapolated, the average daily consumption of a U.S. household is 28.81 kWh.

On 02/02/2023 I, Officer Dyson #1054, conducted surveillance of [REDACTED]. I observed a [REDACTED] with Raiders stickers on the back window. In the middle of the back window the sticker stated "beast mode". There was an additional Raiders

sticker on the passenger window on the driver's side. The [REDACTED] was parked on the south side of the street in front of the residence. I conducted a record check of the [REDACTED] and vehicle was registered to [REDACTED] with an address of [REDACTED] Sacramento, CA 95824.

Opinions & Conclusions

Based upon my training and experience, as well as the training and experience of other experienced investigators with whom I have spoken, as well as the facts and circumstances of this investigation, as described above, I formed the opinion that [REDACTED] was in violation of 11358 HS Cultivation of Marijuana and that a search of the requested location(s), vehicle(s), and person(s) will reveal evidence of those offenses and/or [REDACTED] involvement in those offenses.

I know from training and experience and the experience of other investigators well versed in cannabis grow investigations that cannabis growers most always utilize 1000 watt grow lights that are most often high-pressure sodium lights, metal halide and ceramic metal halide lights. These lights require cooling systems. These 1000-watt lights also require ballasts to power the lamp and convert normal household voltage to that used by the light(s).

I know, based on my training and experience and the experience of other knowledgeable illegal indoor cannabis grow investigators that the more sophisticated growers have multiple stage grows in operation at the same location that enables the growers to harvest at least one grow a month. This type of growing operation allows the grower(s) to profit regularly (monthly).

I know from training and experience that growers and tenders of illegal indoor cannabis grows have addresses and/or live in other residences other than the grow site. This is in order to allow for more "grow area" and also in an attempt to give themselves "legal distance" from the grow site should law enforcement action occur.

I believe that evidence related to the grow operation being conducted at [REDACTED] **Sacramento, CA 95824** including rental agreements, tax information, proceeds, receipts for cannabis growing equipment, lighting, fertilizers, hydroponic apparatus, notes, logs, pay-owe sheets, ledgers lists of clients, customers associates, and otherwise unknown or unidentified co-conspirators may be located at [REDACTED] **Sacramento, CA 95824** .

Based on my training and experience and speaking with more experienced narcotics investigators, I know that often times property owners will rent their other properties to persons known to them who operate indoor cannabis grows in order of avoid detection by law enforcement. I know that the tenants of these rental properties will often live inside the rental properties in order to care for the indoor cannabis grows. Often times in return for the operation and care of the indoor cannabis grows, the tenants will usually sell the processed cannabis for monetary compensation. The monetary proceeds are then often passed onto the residence owners for allowing the tenants to conduct their illicit activities and/or indoor grows inside their rental homes. In speaking with more experienced narcotics officers, the monthly

monetary compensation is usually in excess of thousands of dollars. It is these thousands of dollars that allow property owners to live lavish lifestyles and/or own larger homes than their personal finances will often allow for.

Based on my training and experience, I know that persons(s) involved in the illegal cultivation, sales, and transportation of cannabis will normally have most, if not all, of the following items of evidence at the cultivation location or other locations listed in the affidavit: c, cannabis seeds, fertilizer, irrigation devices, garden tools, growing containers, electrical devices which aid in the growth of the cannabis plants such as: timers, pumps, ballasts, lights, climate control devices, generators, and books or instructional manuals to aid in the growing of cannabis, baggies, scales, pay/owe sheets, records of growing cycles, and light cycles.

Based on my training and experience, as the cannabis plant matures, the cannabis grower will trim them on an ongoing basis. This is done to facilitate a more rapid and vigorous growth of the cannabis plant(s) and could provide the cannabis growers with cannabis for their own consumption. This dried cannabis is usually kept within the residence, vehicle(s), and/or upon the persons of the cannabis growers themselves or may be discarded or destroyed. Furthermore, I know that persons who cultivate cannabis will distribute cannabis they produce to other persons for profit. They will also transport the cannabis they distribute in vehicles they own or have control over.

Based on my training and experience I know that non-law enforcement specialists are often needed to assist officers at the scene on an illegal indoor cannabis grow, and to evaluate the potential danger the residence poses to the officers, occupants, and the neighboring structures. It is common for indoor cannabis grows to have dangerous modifications to the electrical system as well as unsafe structural modifications, which cause the residence to be uninhabitable and a fire danger to the neighboring community. These specialists may include SMUD, inspectors from the Sacramento City Dangerous Buildings Unit, and inspectors from the City of Sacramento Code Enforcement and personnel from the City of Sacramento Fire Department. I would request the ability to employ such specialists to aid my investigative effort.

Based on my training and experience, I know that items of indicia found within the places to be searched will help establish the identity of person(s) in dominion and control of the premises and provide additional evidence against those involved in the conspiracy to illegally cultivate cannabis.

Based on my training and experience, I know that person(s) involved in illegal cannabis cultivation will keep, in the locations listed to be searched, receipts, invoices, or bills showing the purchase or sale of property or items utilized for the cultivation of cannabis, such as: seeds, fertilizers, irrigation devices, garden tools, growing containers, electrical devices which aid in the growth of cannabis plants, such as timers, pumps, ballasts, lights, climate control devices, and books or instruction manuals to aid in the growing of cannabis.

Based on my training and experience, I know that illegal cultivators and sellers of cannabis commonly utilize their vehicle(s) for transportation of cannabis and other cannabis related

items of evidence listed in this affidavit.

Based on my training and experience, I am aware that persons involved in illegal cannabis cultivation and the sales of cannabis, will commonly use computer devices and cellular telephones to facilitate their illegal activity. They will use computer devices and cellular telephones to store customer names, drug sales information, inventory information, profit records, and accounts receivable (pay/owes) as well as searching the internet for information on the cultivation of cannabis. Therefore, I request authorization for officers to seize computer devices and data storage devices, until a subsequent search warrant could be authorized for their examination.

Based on my training and experience, I am aware that there exists an increased threat of violence, often involving firearms and other deadly weapons, whenever officers enter a structure for the purpose of executing a warrant to search for drugs/cannabis.

I believe this heightened threat exists for two reasons. First, in executing warrants for these purposes, officers frequently discover firearms and other deadly weapons, and these weapons are often located in places and in a manner that enable the occupants to quickly use them against anyone who is perceived as a threat. Second, officers will give notice of their authority and purpose either before they enter the structure or shortly thereafter. In any event, when the occupants become aware of the officers' authority and objective, it is not unusual for them to panic because of the possibility that they are about to be taken into custody and subsequently prosecuted and imprisoned. In this fight-or-flight mental state, the occupants may become desperate and attempt to thwart the officers' mission by any means necessary, including attempted escape and the use of deadly force.

Based on my training and experience, as well as the training and experience of other experienced investigators with whom I have spoken, as well as my review of other crime reports, I know that during the service of this Search Warrant there could possibly be articles of personal and/or business property tending to establish the identity of persons who have dominion and control over the premises, business, vehicles, and/or items to be seized. I believe that these items will tend to connect the premises, locations, persons, and vehicles to be searched with the items to be seized and the case being investigated. It is my opinion that the following items are usually present at the locations sought to be searched by this Search Warrant and that they will therefore likely still be found at the locations.

Based on my training and experience, as well as the training and experience of other experienced investigators with whom I have spoken, as well as my review of other crime reports, I know that firearms, controlled substances, and other contraband may be stored at the suspect's primary residence and/or vehicle(s), and/or the residences of the suspect's associates, parent(s), family members, boyfriend(s) and/or girlfriend(s), co-conspirators and/or their vehicle(s). This is done in order to elude the discovery and seizure of these items by law enforcement.

In the event that law enforcement officers encounter safes, locked cabinets, or other secured containers at the location(s) or in vehicle(s) listed in this affidavit, it is requested that the Court

direct the officers or their agents to access those items to search for evidence listed in this affidavit. I know that some safes or locked storage containers may require the assistance of a locksmith or other experts to open. I therefore request permission to employ such experts if needed and to remove the safe or storage container to a location where it can be opened.

I also know based on my training and experience that individuals who are involved in criminal activity will commonly hide the weapons used in their crimes and other evidence associated with such crimes, such as clothing and other paraphernalia to prevent their discovery from law enforcement. I know that such hiding spots include concealed locations within the suspect's own residence or vehicle(s), as well as the residences and/or vehicles of their criminal associates, co-participants, co-conspirators, and/or in the context of organized criminal activity, in the residence and/or vehicle(s) of members of their criminal street gang and/or drug trafficking organization.

Based upon my training, experience, and conversations that I have had with other law enforcement officers and/or reports that I have read, I know that during the service of this search warrant there are many articles of personal and/or business property tending to establish the identity of persons who have dominion and control over the premises, business, vehicles, and/or items to be seized. I believe that these items will tend to connect the premises, locations, persons, and vehicles to be searched with the items to be seized and the case being investigated. It is my opinion that these types of items are usually present at the location sought to be searched by this search warrant and that they will therefore likely still be found in the location, and/or the person to be searched.

REQUEST TO USE LAW ENFORCEMENT RECONNAISSANCE TECHNOLOGY

Based on my training and experience, as well as the training and experience of other experienced investigators with whom I have spoken, as well as my review of other crime reports, I am aware that there exists an increased threat of violence, often involving firearms and other deadly weapons whenever officers enter a structure for the purpose of executing a search warrant to search for firearms, controlled substances, weapons, the fruits and instrumentalities of a violent crime, and/or to execute an arrest warrant on an individual wanted for a violent crime. Based on my training and experience, I have formed the opinion that this heightened threat exists for two reasons. First, in executing warrants for these purposes, officers frequently discover firearms and other deadly weapons, and these weapons are often located in places and in a manner that enable the occupants to quickly use them against anyone who is perceived as a threat. Second, officers will give notice of their authority and purpose either before they enter the structure or, in the case of exigent circumstances, shortly thereafter. In any event, when the occupants become aware of the officers' authority and objective, it is not unusual for them to panic because of the possibility that they are about to be taken into custody and subsequently prosecuted and imprisoned. In this fight-or-flight mental state, the occupants may become desperate and attempt to disrupt the officers' mission by any means necessary, including attempted escape and the use of deadly force.

Officers may, however, be able to avoid or significantly reduce these threats by utilizing a small Unmanned Aerial Vehicle (sUAV) and/or a small Remote Operated Vehicle (sROV) to fly over,

around, and/or in the structure before and after the entry is made, and thereby provide them with vital information such as the following: a real-time view of the premises' exterior which will enable supervisors to determine where officers can be safely posted to prevent escape into the surrounding neighborhood; any movement from an open door or window that may indicate the occupants are attempting to escape or use deadly force against officers inside; the location of occupants who fled the premises before or during the officers' arrival; and real-time information as to the presence of people inside and outside the premises who may pose a threat to the officers inside. I am aware that, these types of reconnaissance technology, both sUAV and sROV technology, are now commonly used for these purposes by law enforcement agencies throughout the country, and that their use has proven to be both safe and effective. Furthermore, law enforcement agencies and fire departments now commonly employ these technologies to help conduct search and rescue missions and provide officers with real-time observations at the scenes of crimes and emergencies.

Your affiant is further aware that the use of the sUAV and/or sROV inside a structure implicates certain constitutional and statutory rights, including the prohibition of the use of "wiretaps" or other forms of intercepting and recording communications (for example, as prohibited by Penal Code Section 632). As such, when the sUAV and/or sROV is being deployed inside a structure, such use will be limited to video and/or visual viewing only, and limited to giving the officers executing the warrant video or visual information to ascertain potential threats to the safety of the officers and the public, including the suspects inside. The use of any audio equipment will be limited to exterior use only.

Based on my training and experience, I am also aware that the employment of a sUAV and/or sROV will be minimally intrusive to people who live or work nearby. The reasons are as follows:

- (1) The sUAV's and/or sROV's cameras will ordinarily be focused almost exclusively on the target structure and its curtilage.
- (2) In the case of the sUAV, it makes little, if any, noise that can be heard from the ground.
- (3) In the case of the sUAV, it will be registered with the Federal Aviation Administration (FAA).
- (4) The sUAV will be piloted by a qualified individual who has the necessary FAA certifications.
- (5) The sROV will be remotely operated by a qualified individual with the requisite training and experience to operate the vehicle safely and within Sacramento Police Department (SPD) policy.
- (6) In the case of the sUAV, it will be flown in accordance with FAA regulations and at altitudes authorized by the FAA.

- (7) The sUAV and/or sROV will be used only the amount of time that is reasonably necessary to complete the mission.

Based on information contained in this affidavit, your affiant respectfully requests that a search warrant be issued for the following:

YOU ARE THEREFORE COMMANDED TO SEARCH:

THE FOLLOWING LOCATION(S):

- (1) [REDACTED] Sacramento, California, 95824. [REDACTED] is located in the City and County of Sacramento and is further described as a single-story, single-family home. [REDACTED] is located on the south side of [REDACTED]. The residence is beige in color with white trim on the gutters. The front door faces north towards [REDACTED]. There was a white metal security door that is covering the front door. There is a black wrought-iron fence and a rolling gate across the driveway that is on the north property line. Behind the fence was a concrete driveway that leads to the garage. There are concrete steps to the front door of the residence. To the east of the front door is a window approx. 2 feet by 5 feet. To the east of the window is a garage. The garage had black fabric hanging from it. The address [REDACTED] is affixed to the house in a vertical position in black coloring and are approximately 6 inches in height directly to the left of the front door. To the west of the front door is a smaller approx. 3 feet by 2.5 feet.

To include all attics, basements, rooms, garages, outbuildings, storage sheds, operative/inoperative vehicles, garbage cans, safes, designated lockers or storage space,

and containers located within the property boundaries associated with the premises located at [REDACTED] Sacramento, California, 95824.

In the event that law enforcement officers encounter safes, locked cabinets, or other secured containers at the location(s) or in vehicle(s) listed in this search warrant, it is the direction of this Court those officers or their agents access those items to search for evidence listed in this search warrant. Officers are authorized to use the assistance of a locksmith or other experts to open locked safes or storage containers. Officers may remove the safe or storage container to a location where it can be opened at a later date.

THE FOLLOWING PERSON(S):

- (2) [REDACTED] further described as a male white adult, standing approximately five feet, nine inches (5'9") tall, weighing approximately 190 pounds, with blonde hair and brown eyes, with a date of birth of [REDACTED] a Sacramento County [REDACTED]

- (3) [REDACTED] further described as a female white adult, standing approximately five feet, two inches (5'2") tall, weighing approximately 130 pounds, with brown hair and brown eyes, with a date of birth of [REDACTED] a Sacramento County [REDACTED]

THE FOLLOWING VEHICLE(S):

- (4) A [REDACTED] and Vehicle Identification Number (VIN): [REDACTED] that is registered to [REDACTED]

FOR THE FOLLOWING PROPERTY:

- (5) Cannabis; and items commonly associated with the cultivation and packaging for sale of cannabis, such as: baggies, scales, pay/owe sheets, records of growing cycles and light cycles. Property or items utilized for the cultivation of cannabis, such as: seeds, fertilizer, irrigation devices, garden tools, growing containers, electrical devices which aid in the growth of cannabis plants, such as timers, pumps, ballast, lights, climate control devices, generators, and books or instructional manuals to aid in the growing of cannabis.
- (6) Receipts, invoices or bills showing the purchase or sale of property or items utilized for the cultivation of cannabis, such as: seeds, fertilizer, irrigation devices, garden tools, growing containers, electrical devices which aid in the growth of cannabis plants, such as timers, pumps, ballast, lights, climate control devices, and books or instructional manuals to aid in the growing of cannabis.
- (7) All firearms and items related to firearms, including but not limited to, ammunition, gun locks, gun cases, holsters, gun safes, repair and cleaning kits, speed loaders, magazines, ammunition belts or pouches, targets, expended shell casings, spent bullets, scopes, gun sights, original gun packaging boxes, ammunition boxes, receipts and credit card statements showing the purchase of firearms or any firearm accessories, business cards from gun stores (or places which sell firearms, ammunition or firearm accessories), and receipts, business cards, or flyers from gun ranges or other shooting facilities, gun shows, or other gun events.
- (8) Any items tending to establish the identity of persons who have dominion and control of the location, premises, automobiles, or items to be seized, including delivered mail, whether inside the location or in the mail box(s), bills, utility bills, telephone bills, miscellaneous addressed mail, personal letters, personal identification, purchase receipts, rent receipts, sales receipts, receipts for rental storage space, keys and receipts for post office box(es) or mail drop rentals, ignition keys, car door and trunk keys, vehicle ownership certificates or "pink slips," and/or vehicle registration slips, records of voice transmissions on telephone answering machines, audio tapes and telephone message receipt books, written phone messages, photographs tending to show occupation of the residence/business and connection between co-conspirators, whether identified, answering machines, tape recorders, and any other recording devices, and to play such devices to obtain their messages. Any examples of handwriting including letters, address books, business records, canceled checks, notes, and/or lists.

- (9) Any cellular telephones or other electronic or telecommunications devices that are in the possession or control of [REDACTED] at the time this warrant is served. An additional search warrant will be obtained to view any information contained within those cellular telephones, consistent with the provisions of the California Electronic Communications Privacy Act (ECPA). Additionally, the searching Peace Officers are authorized to seize, and book said cellular telephones and transfer them to a Law Enforcement Agency location prior to commencing the search of the items. Furthermore, said search may continue beyond the ten-day period beginning upon issuance of this Search Warrant, to the extent necessary to complete the search on the cellular telephones.

All data storage devices, computer devices or cellular phones. **Any electronic devices will not be searched unless an additional search warrant is issued pursuant to SB178**

Per Health and Safety Code section 11479, Officers are authorized to destroy the majority of the cannabis on site. Officers will utilize their Body Worn Cameras to document the destruction of the cannabis. The destruction of the cannabis will be completed under the direction of Sacramento Police Chief Kathy Lester. This decision is based on officer safety reasons related to the potential hazards commonly associated with cannabis (mold spores and chemicals), along with the lack of storage space. A two-pound sample along with at least five random and representative samples will be taken and booked into evidence.

SUPERIOR COURT OF CALIFORNIA
COUNTY OF SACRAMENTO

SW No: 230223033729

Search Warrant
RETURN OF SEARCH WARRANT

Police Officer Hakeem Dyson
Search Warrant described below:

being sworn, says that they conducted a search pursuant to the

Issuing Magistrate: Kenneth C. Mennemeier Jr.

Magistrate's Court: Superior Court of California, County of Sacramento, Judicial District

Date of Issuance: Feb 22, 2023

Date of Service: 02/23/2023

The location(s) in the attached search warrant and affidavit described as:

██████████, California, 95824. ██████████ is located in the City and County of Sacramento and is further described as a single-story, single-family home. ██████████ is located on the south side of ██████████. The residence is beige in color with white trim on the gutters. The front door faces north towards ██████████. There was a white metal security door that is covering the front door. There is a black wrought-iron fence and a rolling gate across the driveway that is on the north property line. Behind the fence was a concrete driveway that leads to the garage. There are concrete steps to the front door of the residence. To the east of the front door is a window approx. 2 feet by 5 feet. To the east of the window is a garage. The garage had black fabric hanging from it. The address ██████████ is affixed to the house in a vertical position in black coloring and are approximately 6 inches in height directly to the left of the front door. To the west of the front door is a smaller approx. 3 feet by 2.5 feet.

and the seized property:

- ☐ described in the attached and incorporated inventory.
☒ described below:

Officers did not locate any evidence of cultivation of Marijuana during the search.

I further swear that this is a true and detailed account of all the property taken by me pursuant to the search warrant, and pursuant to Penal Code Sections 1528 and 1536, all such property will be retained in my custody until a final disposition has been rendered whereupon all property, except contraband, will be returned to its rightful owner or disposed of according to law.

Deposition of

KELLI STREICH

Wednesday, September 25, 2024

Reported by:

THOMAS J. LANGE, CSR No. 4689

Job No.: 6918616

1 Q. You would go into their homes?

2 A. Yes.

3 Q. And there were many times when you wouldn't
4 find any marijuana growing there; right?

5 A. Yes.

6 Q. Anybody ever leave a profane voicemail?

7 A. Can you be more specific?

8 Q. Where they kind of cursed the fact that
9 you're sending them these letters?

10 A. Not specifically that I can recall.

11 Q. Were some people upset that you were sending
12 them these letters?

13 A. In a lot of voicemails there was a language
14 barrier and I wasn't able to get a whole lot of
15 information other than maybe some phone numbers and an
16 address. I don't recall if anybody was mad at me.

17 Q. And then when you would visit, you would not
18 go with a search warrant; right?

19 A. Yes.

20 Q. You would just show up and ask to be allowed
21 in?

22 A. They would allow me in.

23 Q. You would ask to be allowed in; right?

24 A. Did I specifically say, "Can I come in"?

25 Q. Yeah.

1 A. Some of them do, yes.

2 Q. Thank you very much.

3 And just -- I don't always get the results of
4 these, meaning they haven't all been produced. A lot
5 of your emails are missing. A lot of Mr. Duggan's
6 emails are missing. A lot of Mr. Wolff's emails are
7 missing.

8 Was there any time -- just to confirm this.
9 I think you already testified. Did they fulfill this
10 list or did they ever refuse to fulfill a list?

11 MR. KIM: If you recall.

12 THE WITNESS: No. I don't remember when they
13 would have said no.

14 Q. BY MR. AGARWAL: Okay. At some point you
15 actually developed a pretty good relationship with
16 Mr. Wolff and Mr. Duggan; right?

17 A. We worked with them sometimes on a daily
18 basis.

19 Q. Did you think of them as kind of members of
20 the team?

21 A. Sure.

22 Q. Let me show you what's been previously marked
23 as Exhibit 56. Take a moment to look at the exhibit.

24 But Exhibit 56, my first question will be, is
25 a series of emails between you and Mr. Michael Wolff

1 SMUD -- you would fill out the form, customer
2 information request for a particular address, and they
3 would -- SMUD would send you what is shown on the last
4 page of this exhibit. But sometimes they would
5 actually put some information on the form. They would
6 fill out the form in response; correct?

7 A. Yes.

8 Q. And you would send the form but not the
9 screen shot that SMUD would share?

10 A. Yes.

11 Q. Why would you not send the city attorney's --
12 the actual screen shot?

13 MR. KIM: If you recall.

14 THE WITNESS: I don't recall.

15 Q. BY MR. AGARWAL: Were you aware that there
16 are these screen shots that appear in the public
17 record in connection -- well, let me back up.

18 The reason you're requesting this particular
19 account is because there is an account where you might
20 have found a grow and the city attorney would issue --
21 would prosecute some kind of administrative penalty;
22 right?

23 A. Yes.

24 Q. You yourself would write some of those
25 administrative penalties; right?

1 A. Yes.

2 Q. We will talk about more of those.

3 And in connection with that prosecution, you
4 would request what's called historical data from SMUD;
5 right?

6 A. Yes.

7 Q. Now, in this particular -- and your testimony
8 is you wouldn't send to the city attorney the actual
9 snapshot showing the last page, information like that?

10 A. Yes.

11 Q. Why wouldn't you send that to the city
12 attorney?

13 A. I don't know.

14 Q. In this particular one, the email on the
15 second page, Mr. Wolff in the middle says (as read):

16 The SMUD request forms are
17 fine. It probably won't matter
18 if you gave them the screen
19 shot too, I just wouldn't want
20 them showing up in the "Sac
21 News and Review."

22 Do you see that, the second page?

23 A. Yes, I see it on the middle.

24 Q. Did SMUD -- did Mr. Wolff express to you
25 hesitation about public disclosure of SMUD's sharing?

UNOFFICIAL REPORTER'S TRANSCRIPT OF
APPEAL HEARING ON
SACRAMENTO POLICE DEPARTMENT ADMINISTRATIVE PENALTY

May 31, 2019

THE HEARING EXAMINER: The May 31st, 2019, hearing for the cannabis-related administrative penalties on behalf of the City of Sacramento will now come to order.

My name is Sondra Betancourt, and I am the Hearing Examiner appointed by City Council.

To introduce the panel to my left, your right, is Sheryl Patterson, counsel to the Hearing Examiner; and City staff to my right are Christine Autio and Sharon Chand.

I would like to acquaint you with a few of the rules regarding the procedures of this hearing. And, at this point, what I would like everyone in the audience and counsels to do is to turn off all electronic devices. Cell phones are to go to silent.

It's important, since we are electronically recording this hearing, that you speak directly into the microphone clearly and loud enough to be recorded.

Also present in chambers today is

1 patrolling. You are not going to hear that the patrol
2 car found it. No.

3 What you are going to hear is that they have a
4 special relationship with Sacramento Municipal Utility
5 District employees --

6 (Interruption by the Reporter.)

7 MR. AGARWAL: Thank you. Let me repeat that.

8 They have a special relationship with
9 Sacramento Municipal Utility District, which is a
10 division of Sacramento, and they have the data on
11 electricity uses. They can see when there is a problem.

12 They called him, or wrote to him, or
13 something -- we'll get the details -- on September 17th.
14 And we're going to talk -- and I am going to march you
15 through why it took -- you'll hear a lot about things
16 that's dangerous.

17 (Interruption by the Reporter.)

18 MR. AGARWAL: Let me pull it a little bit
19 closer.

20 We'll talk through the process of how it is
21 the Sacramento police came to be at that house.

22 I'm also going to talk to you a little bit
23 about the facts of what Mr. -- both of them did
24 afterwards. It turned out that the day that the
25 Sacramento police were at his rented home, he's leaving

1 for a trip overseas, and he doesn't come back until
2 October 12th. And during that time, he's put a mail
3 hold so that his mail doesn't pile up in front of his
4 Sacramento -- excuse me -- San Francisco apartment. So
5 it takes him a little time to get it together.

6 But when he comes back, he contacts the
7 property manager, saying, I got this thing in the mail.
8 And I say mail. This is regular mail, because he never
9 got any certified mail with the administrative penalty.
10 He hired a lawyer, presented an appeal, was denied the
11 right to appeal, to be here even.

12 He went to Sacramento to deal with a building
13 order, only to find out that, in fact, somebody had
14 already dealt with it. We are going to talk about that,
15 too. Who is this mystery person that dealt with it?
16 Because he didn't arrange for it to be cleaned up.

17 By the time they get --

18 MS. BICKEL: It went out.

19 MR. AGARWAL: Not my fault. There we go.

20 By the time they get to the house, it's
21 already patched up. They never saw anything like this.
22 We're going to show you the pictures that Mr. Hin took.
23 It's patched up. Who did it? He didn't arrange for it.
24 And you will hear what Mr. Hin has to say about it.

25 This is not a case of a landlord trying to

1 encourage criminal doing in his home.

2 THE HEARING EXAMINER: At this point, I would
3 like to take a minute. I've asked that all electronic
4 devices be turned off. And if I see that again, I am
5 going to ask you to leave. All right?

6 Continue, please.

7 MR. AGARWAL: I'll start with a little bit of
8 the officer who is sitting here before us.

9 CROSS-EXAMINATION

10 BY MR. AGARWAL:

11 Q. Officer Pitts, I'm going to talk a little bit
12 about what you are reading.

13 Now, your testimony was -- you were reading
14 from something written; is that right?

15 A. Yes.

16 Q. And who wrote that?

17 A. It was compiled by myself and
18 Officer Kelli Streich.

19 Q. Did you physically write it?

20 MS. AUTIO: Can you repeat the name of the
21 other --

22 THE WITNESS: Kelli Streich, myself and
23 Kelli Streich, we both compiled it.

24 BY MR. AGARWAL:

25 Q. At the end of your testimony, you said

1 something about the high potential for profit, right?

2 Is that right?

3 A. Yes.

4 Q. Do you have any information that my clients
5 realized anything by way of profits from the illegal
6 grow that occurred at the house?

7 A. No.

8 Q. Did you review the administrative penalty
9 before it was issued?

10 A. Yes.

11 Q. In front of you -- you were physically present
12 at the house on September 26th; is that right?

13 A. Yes.

14 Q. And did you see my client there?

15 A. No.

16 Q. The person who you arrested, in fact, was
17 You Kai Lin, right?

18 A. Yes.

19 Q. And Mr. Lin, did you understand him to have
20 been the tenant in possession of the property?

21 A. Yes.

22 Q. Now, on the day that you were there, you had a
23 search warrant to pick up not just the plants, but all
24 the papers in the house, right?

25 A. Yes.

1 Q. Did you find any document that suggested that
2 my client, the owners of the property, were in any way
3 complicit with the growing of those plants?

4 A. I did not find any documentation with your
5 client's name on it inside the house.

6 Q. You said you received information -- I think
7 those are the terms you used -- that caused you to
8 eventually end up at the house on September 26th; is
9 that right?

10 A. Yes.

11 Q. Am I correct you did not receive any kind of
12 information by way of a complaint from a neighbor; is
13 that right?

14 A. Yes.

15 Q. And you didn't receive any kind of report that
16 there was going to be a burglary in progress, right?

17 A. No.

18 Q. And you didn't receive any kind of information
19 that suggested there was suspicious activity at that
20 property, correct?

21 A. No.

22 Q. And you didn't receive any prior -- any kind
23 of reports that you had been given that there was any
24 kind of code violation at that property, right?

25 A. No.

1 Q. And is it correct that the only reason that
2 caused the Sacramento Police Department to go to that
3 house was that you received a call from someone at the
4 Sacramento Municipal Utility District on September 17th,
5 nine days before?

6 A. Can you say that last part of that again? It
7 was not clear.

8 Q. Sure. I want to try to get at why you went to
9 the house on September 26th.

10 Is it correct that the only reason that caused
11 you to go, and obtain a warrant and to go, was that you
12 received electricity data from the Sacramento Municipal
13 Utility District?

14 A. I received information that this residence was
15 using power, a large amount of power, in 12-hour
16 increments.

17 Based off of my training, my experience,
18 talking to other individuals who have knowledge of
19 marijuana cultivation, the consumption of power, this
20 large amount of power, in 12-hour increments, is
21 indicative of marijuana cultivation.

22 In addition, we receive tips -- we receive
23 tips for many crimes from many different individuals,
24 different types of individuals. And so my point in
25 saying that is just because we receive a tip from, in

1 this case, SMUD, it could be a neighbor, it could be a
2 community complaint, our job is to go out there and make
3 the community safe, right?

4 So if we get a lead about any illegal
5 activity, whether it's happening, whether we have seen
6 it, we are going to go out there and investigate it.

7 So that's the purpose of -- that is my duty as
8 an officer, is to go out there and investigate crimes.
9 It would be foolish of me, regardless of where the
10 complaint is, not to see if -- to follow it through and
11 see if it has some validity to it.

12 So the purpose of what you are talking about
13 now, that's what I did and that's where I got the
14 information from.

15 Q. I just want to make sure the record is clear.
16 Did you receive a tip with respect to this property
17 other than information about electricity usage?

18 A. No.

19 Q. You received -- who did you receive the
20 electricity usage information from?

21 A. I stated before, from SMUD.

22 Q. I'm sorry. Who was it from?

23 A. SMUD.

24 Q. SMUD? Who at SMUD?

25 A. SMUD investigator.

1 Q. Who?

2 MR. CAMACHO: Madam Examiner, Emilio Camacho
3 on behalf of the Sacramento Police Department.

4 I will object to that information being
5 revealed, one, on the basis of, one, it is not relevant
6 to prove the underlying elements as to whether the
7 ordinance was violated.

8 Second, answering that question jeopardizes
9 officer safety, also the safety of potentially the SMUD
10 staff; and it has the risk of jeopardizing future
11 investigatory tactics and, therefore, officer safety as
12 well.

13 THE HEARING EXAMINER: Sustained.

14 Please go on.

15 BY MR. AGARWAL:

16 Q. How did you receive the information?

17 THE HEARING EXAMINER: I believe that's been
18 asked and answered. He said he received the information
19 from SMUD, which is the Sacramento Municipal Utility
20 District.

21 BY MR. AGARWAL:

22 Q. Did you receive it by phone? Did someone call
23 you? Did an investigator call you or did an
24 investigator E-mail you?

25 A. Face-to-face contact.

1 MR. CAMACHO: Madam Examiner, Emilio Camacho,
2 again, on behalf of the Sacramento Police Department.

3 We provided counsel with the actual
4 information that was received. That is Exhibit --
5 Ms. Bickel, if you could identify that for me, please.

6 MS. BICKEL: F. F.

7 MR. CAMACHO: F.

8 So the information that Officer Pitts
9 received, that was relied on, was provided to counsel
10 ahead of time.

11 We feel that that question has been asked and
12 answered, and we have raised our objection to any
13 further testimony on that.

14 THE HEARING EXAMINER: I would ask for
15 relevance from you.

16 MR. AGARWAL: Thank you, your Honor.

17 I am trying to understand how he got the
18 information, and just telling me he got SMUD electrical
19 information doesn't tell me much. I'm going to get to
20 the exhibit. We are going to talk a lot about that
21 exhibit.

22 But it's important that I understand -- he's
23 testified, I know when I see electrical data and stuff
24 like that, I know a 12-hour duty cycle. It's not in the
25 data that they've provided, so I'm trying to understand

1 how he knew it was a 12-hour duty cycle.

2 THE HEARING EXAMINER: I understand your -- I
3 understand that, but I am going to sustain the objection
4 as well.

5 And I think we need to move on with this.
6 There is evidence that's been presented in the packet
7 that you received regarding that, and you may --

8 MR. CAMACHO: And, Madam Examiner,
9 Emilio Camacho, once again.

10 I would also like to point out that, in
11 addition, we also provided counsel with the search
12 warrant, copy of the search warrant, along with the
13 police reports. And the search warrant includes all of
14 the analysis and information that Officer Pitts relied
15 on as well.

16 THE HEARING EXAMINER: I did review that.

17 MS. BICKEL: Exhibit C.

18 MR. CAMACHO: That is listed as Exhibit C also
19 for your own benefit, Madam Examiner.

20 THE HEARING EXAMINER: I have that.

21 BY MR. AGARWAL:

22 Q. Officer Pitts, in front of you is a black
23 binder. Do you see that?

24 A. Yes.

25 Q. Could you open that binder? This is

1 administrative appellant's exhibits, and I would like
2 you to open up Exhibit 12, please.

3 A. To which page?

4 Q. Exhibit 12 has multiple pages. And kind of at
5 the bottom, you will see 6 of 36. I want you to open to
6 12 of 36.

7 MS. PATTERSON: So it's 12 of 36?

8 MR. AGARWAL: Yes.

9 BY MR. AGARWAL:

10 Q. Is this the case summary that you wrote, or is
11 it another officer on page 12 of 36 of Exhibit 12 --

12 MS. BICKEL: Madam Examiner, before I allow
13 Officer Pitts to respond, I would like to say -- oh,
14 it's Melissa Bickel for the City of Sacramento. My
15 apologies.

16 I would just like to say that this document
17 speaks for itself. Officer Pitts already indicated in
18 his testimony what he did, what he prepared. To go
19 through this document page by page is redundant and a
20 waste of everyone's time.

21 In the interest of efficiency and economy, I
22 would just say that the document speaks for itself, the
23 testimony speaks for itself; and if there is anything
24 outside of the document that Mr. Agarwal would like to
25 ask of Officer Pitts that is not proprietary information

1 that could harm the officers and public, we can continue
2 with that testimony.

3 MR. AGARWAL: Your Honor, I have a due process
4 right to cross-examine the Witness about a \$137,000
5 penalty that he has written out.

6 All I want to know, for the purposes of the
7 record, is how he got the information and what he did
8 with it and in what time frame he did it. I don't have
9 to rely on documents. There are things in the documents
10 that are not set forth that I need to clarify. I am
11 entitled to ask those questions.

12 THE HEARING EXAMINER: You can ask the
13 question, but in terms of which word was put to paper by
14 which person, I am going to call you on that.

15 You are going to go ahead and ask a question
16 of him in terms of where evidence was received, but,
17 seriously, we are not going to go word by word through
18 the document.

19 BY MR. AGARWAL:

20 Q. Officer Pitts, on September 17th, you received
21 information face-to-face from an investigator at the
22 SMUD that said there was a high amount of electricity
23 being used, right?

24 A. Yes.

25 Q. And then on September 18th, you actually drove

1 to the property, right? It says here you conducted
2 surveillance. Was that you or was that somebody else?

3 A. Can you say that one more time?

4 Q. Did you drive -- did you conduct any
5 surveillance on the property on September 19th?

6 A. Yes.

7 Q. What did you do?

8 A. I observed the house, I observed cars, foot
9 traffic, if there was any. I am looking for signs of
10 individuals coming in and out of the house. I did a
11 surveillance on the house to gather more information in
12 order to find facts to either dismantle the complaint
13 that I got or to validate it.

14 Q. Did you see any foot traffic when you did the
15 surveillance at the property at issue?

16 A. No.

17 Q. Did you see multiple cars or one car?

18 A. I saw one car.

19 Q. And it was a white Honda, right?

20 A. Yes.

21 Q. And you ran the plates through Sacramento PD;
22 is that right?

23 A. I ran the plates, yes.

24 Q. And those are the plates of the tenant,
25 correct?

1 A. It revealed that Zhan Lin was the registered
2 owner.

3 Q. Okay. Do you understand that to be
4 You Kai Lin, the tenant?

5 A. I cannot confirm if that's the tenant or not.

6 Q. Okay. Did you ever see any cars there -- how
7 long were you doing the surveillance?

8 A. I would say for approximately 20 to 40
9 minutes, but I don't recall the exact time, time frame.

10 Q. Were you alone or with another officer?

11 A. I do not recall.

12 Q. Okay. And the data, did you, at some point,
13 receive actual electricity data from the SMUD for that
14 property?

15 A. I did receive information about the
16 electricity usage.

17 Q. Did you receive any hard copy information?

18 A. Electronic data information.

19 Q. So someone sent you electronically in some way
20 some of the information that you reviewed, right?

21 A. Correct. After a request was made.

22 Q. Take a look at -- excuse me. In that same
23 binder, have a look at Exhibit 10.

24 Do you recognize what Exhibit 10 is?

25 A. Yes.

1 Q. What is it?

2 A. It's a SMUD -- information from SMUD.

3 Q. Did you submit this request?

4 A. I did.

5 Q. So after somebody, an investigator, comes to
6 you and says, hey, there is an extraordinary amount of
7 electricity being used, you made a formal request for
8 data; is that correct?

9 A. Yes.

10 Q. All right. Now, on page 2, and kind of the
11 remaining pages of Exhibit 10, is this the data -- I'll
12 be very specific -- is this the data that you received
13 on or about September 19, 2018?

14 A. What date one more time?

15 Q. Well, in the week or so before you went to the
16 house.

17 A. No.

18 Q. Did you -- where is the data that you did
19 receive?

20 A. It should have been submitted. I don't see it
21 here in this binder.

22 MR. AGARWAL: Counsel, you can confer with
23 your client, but I want to finish my cross-examination.

24 MS. BICKEL: Maybe you can just ask him --

25 MR. AGARWAL: I will.

1 MS. BICKEL: -- if he submitted --

2 MR. AGARWAL: I know how to ask questions.

3 Thank you, counsel.

4 BY MR. AGARWAL:

5 Q. When did you get this data?

6 A. This data was submitted after the search
7 warrant was conducted. This one is a historical SMUD
8 request for the historical data that reaches back
9 past -- past the -- the past three years, if we can get
10 that information.

11 This is not the information -- to answer your
12 question that you asked, this is not the information
13 that I use or the data that I use in order to author the
14 search warrant.

15 (The Reporter requested clarification.)

16 THE WITNESS: To write the search warrant.
17 There was another request that I submitted, that I do
18 not see here, and that information was submitted
19 electronically, and I received that information, and
20 that's where I came up with the kilowatt hours per month
21 and other information that was stated in the report.

22 BY MR. AGARWAL:

23 Q. Let's use this data since we don't actually
24 have the data --

25 A. Correct. Sorry.

1 Q. -- that was previously requested.

2 What the SMUD data here -- am I correct to
3 call this SMUD data?

4 THE HEARING EXAMINER: Yes.

5 MS. PATTERSON: Yes.

6 MR. AGARWAL: Yes? All right.

7 BY MR. AGARWAL:

8 Q. If you look at page 2 of the exhibit, you are
9 looking at various columns and rows; is that right? And
10 this is for 861 (sic) Forte Street; is that right,
11 Officer?

12 A. Can you state that one more time, please?

13 Q. You are looking at the historical data,
14 electricity data, for 8651 Forte Street, right?

15 A. Yes.

16 Q. All right. So let's start on page 3, if you
17 can put the exhibit right in front.

18 MS. BICKEL: There is a laptop. I mean, we
19 can kind of try to.

20 MR. AGARWAL: I understand.

21 MS. BICKEL: When you talk about page 3, it's
22 actually page 4 of the exhibit, or page 3 of that data?

23 BY MR. AGARWAL:

24 Q. I'm asking you to look at page 3 of the
25 exhibit just so that we can explain it to the

1 MS. PATTERSON: Try it again.

2 THE HEARING EXAMINER: We're back on the
3 record. The Witness is still sworn, Mr. Hin.

4 And Ms. Bickel, if you could proceed.

5 MS. BICKEL: Thank you. For the record, this
6 is Melissa Bickel for the City of Sacramento, Sacramento
7 Police Department.

8 CROSS-EXAMINATION

9 BY MS. BICKEL:

10 Q. Good afternoon, Mr. Hin.

11 A. Yes.

12 Q. I have one preliminary matter. If you could
13 look at --

14 MS. BICKEL: Do you have our exhibits for him?

15 MR. AGARWAL: I might have them kind of marked
16 up.

17 MS. BICKEL: Yeah, may I walk over --

18 MR. AGARWAL: Yes.

19 MS. BICKEL: -- and show him some exhibits?

20 I'm going to refer you-all to Exhibit L -- to
21 Exhibit L.

22 MS. PATTERSON: Which is what?

23 MS. BICKEL: There are two different subpoenas
24 that were issued to EH Property Management in this case.
25 So let's see. We're going to have to share a mic.

1 THE WITNESS: Okay.

2 BY MS. BICKEL:

3 Q. So I would like you to look at these two
4 documents. So there is a City of Sacramento --

5 (Interruption by the Reporter.)

6 BY MS. BICKEL:

7 Q. Sorry. There is the City of Sacramento
8 subpoena that was issued on 4/5/2009, and the proof of
9 service indicates it was served on EH Property on
10 April 8th. Do you recognize that document?

11 A. The lawyer send to me. I was on vacation.

12 Q. You were on vacation?

13 What about this document? It's a subpoena
14 issued through the City of Sacramento Superior Court
15 that was served on EH on -- let's see -- 2/25/19. Do
16 you remember getting this?

17 A. Yes.

18 Q. Okay. Did you respond directly to either of
19 these subpoenas? The second one I showed you was per a
20 copy service. The first one was through the hearing
21 officer. Did you respond directly to either of those?

22 A. No, I send to Mr. Monty.

23 Q. Okay. So when you got this first subpoena,
24 you sent the records to Mr. Agarwal?

25 A. Yes.

1 Q. Why didn't you respond to the subpoena, to the
2 copy service --

3 A. Because I don't know how to respond and I
4 ask Mr. Agarwal to --

5 MS. AUTIO: Melissa, what exhibit?

6 MS. BICKEL: L.

7 THE WITNESS: I ask him for help on how to do
8 it. But I never did that before, so I don't know how to
9 do it.

10 BY MS. BICKEL:

11 Q. Then if you look at the -- let's see. On
12 Exhibit L -- let's see. I'll tell you how many pages
13 in. One, two, three, four, five, six, seven -- page 10
14 of Exhibit L. I'm sorry. I didn't put numbers on
15 there. You are going to have to count the old-fashioned
16 way.

17 This is a copy of a document that was received
18 from the copy service or from the subpoena service that
19 served the first subpoena, and it looks like they kept
20 trying to contact you to find out what was going on, but
21 you wouldn't respond to them.

22 Was there a reason why you wouldn't respond?

23 A. No, I do have call them. I ask for help and
24 get Mr. Agarwal to help, and that's why I left them a
25 message and told them who is going to take care of that.

1 Q. Okay. And so you have read the subpoenas and
2 you saw all of the documents we requested, correct?

3 A. I don't know exactly what document means, so
4 that's why I ask Mr. Agarwal to help. That's why.

5 Q. Okay. Did you provide every document that was
6 requested in the subpoena when you first --

7 A. Yeah, whatever I have, I send to Mr. Agarwal.

8 Q. So any document having to do with 8651 Forte
9 Street, you provided to Mr. Agarwal.

10 A. Yes.

11 Q. So any document that was not in that packet
12 does not exist. Is that a fair statement?

13 A. Yeah, whatever I have, I provide it.

14 Q. And you provided electronically-kept documents
15 as well?

16 A. Yeah, I send it by E-mail.

17 Q. Okay. So any E-mails you had with Mr. Wang,
18 or anything having to do with that, you provided as part
19 of this packet as well?

20 A. Yeah, everything I have, the E-mail, like,
21 utility, we always communicate, like, utility bill and
22 all that. We got never any other stuff.

23 Q. Okay. So I'll represent to you that Exhibit M
24 in the City's binder is all documents that Mr. Agarwal
25 provided to us, and we will go through these in a little

1 bit. Okay?

2 Okay. So you testified that you have been --
3 well, your website says you have been in Sacramento for
4 approximately 15 years, correct?

5 A. Yeah, we have been doing a long time, yes.

6 Q. And you have a couple hundred properties that
7 you manage in the Sacramento area.

8 A. Yes.

9 Q. How many of those are in the city of
10 Sacramento?

11 A. City, I didn't count. I don't know exactly.
12 We do have in the county, so around the Sacramento
13 County perhaps -- Sacramento County and City,
14 approximately about like -- about 200, 150 to 200.

15 Q. Okay. And you couldn't give me an estimate as
16 to the percentage that are just in the city limits,
17 correct?

18 A. No, I cannot.

19 Q. And you said that not only are you a property
20 manager, but you are a real estate agent as well.

21 A. Huh?

22 Q. You are not only a property management person,
23 you are also a real estate agent as well.

24 A. Yes, I am.

25 Q. And how long have you been a real estate

1 agent?

2 A. In 2011.

3 Q. And so, I mean, you would consider yourself an
4 expert in rental properties. Is that a fair statement?

5 A. Yes.

6 Q. And you have been dealing with these rental
7 properties and the issues that arise from them for many
8 years, correct?

9 A. Yes.

10 Q. Now, because you are in the community, and I
11 don't want to be disrespectful, but Asian as well, you
12 know that there is a problem with Asian people and grow
13 houses.

14 MR. AGARWAL: I object to that, your Honor.

15 BY MS. BICKEL:

16 Q. Maybe not based on being Asian yourself, but
17 as a property manager, you are aware that there is a
18 cannabis problem in Sacramento, aren't you?

19 MR. AGARWAL: I object to that.

20 MS. PATTERSON: You can ask him is he aware.
21 You are confirming that he is aware of it.

22 MS. BICKEL: Well, it's cross-examination, so
23 I can --

24 MS. PATTERSON: Well, you are assuming
25 something as a fact. That's what I'm saying.

1 MS. BICKEL: Okay.

2 BY MS. BICKEL:

3 Q. Are you aware that there is a cannabis problem
4 in rental houses in Sacramento?

5 A. We know around the Sacramento area, so we
6 heard it, and that's why we checked everything to make
7 sure. We do yearly inspection. That's our job, to make
8 sure that safety.

9 So we do not know individual. We cannot tell
10 if it's Chinese or Asian that's doing it, that kind of
11 thing. There's many people, different race, they do
12 that, too. But it doesn't mean it's Asian. If you are
13 a person that's Asian -- I mean, only Asian, no.

14 Q. I'll withdraw that question. I apologize.
15 I'll strike that from my line of questions.

16 THE HEARING EXAMINER: Withdrawn, yes.

17 BY MS. BICKEL:

18 Q. Have you ever personally managed a property
19 that had a grow house before Mr. Wang's property?

20 A. Yeah, I did. Sometime they have, because when
21 the City, normally, they supposed to send the notice
22 notifying the owner. If we note it, we have to stop
23 them right away or we have to take them out right away.

24 But if the City not notify us, we don't know
25 until something happens. So sometimes the City -- we

Case No.: 34-2022-80004019

**DECLARATION OF F. MARIO
TRUJILLO IN SUPPORT OF
PETITION FOR WRIT OF
MANDATE**

Hearing Date: October 10, 2025

Time: 10:00 a.m.

Place: Department 21

Judge: Hon. Shelleyanne W. L.
Chang

Action Filed: September 21, 2022

1 I, F. Mario Trujillo, hereby declare as follows:

2 1. I am named counsel for Plaintiffs in the above captioned case. In that
3 role, I am familiar with the facts and discovery in this case. I submit this declaration
4 in support of Plaintiffs' Writ of Mandate. I make this declaration based on my
5 personal knowledge and based on my review of discovery in this case. I have personal
6 knowledge of the facts stated in this declaration, and if called to testify, could and
7 would competently testify thereto.

8 2. Based on my personal experience and my review of records, SMUD does
9 not ask or require customers to agree to any privacy policy when signing up for
10 electricity service online or over the phone. Moreover, SMUD provides no notice of any
11 privacy policy during the customer sign up process, aside from adding a small gray
12 "Privacy Policy" hyperlink at the footer of its website.

13 3. On June 13, 2023, named counsel for Plaintiffs, Monty Agarwal, sent a
14 California Public Records Act request to the Sacramento Municipal Utility District
15 ("SMUD") requesting a copy of the SMUD website sign up flow in order to document
16 what customers see and click on when they sign up for or transfer home electrical
17 service. Opposing counsel in this case was copied on the email. On June 26, 2023,
18 SMUD produced eight documents in an email response. Opposing counsel in this case
19 was copied on the email. Attached as **Exhibit 1** is a true and correct copy of the email
20 exchange. Attached as **Exhibit 2** is a true and correct copy of the produced records.

21 4. On October 10, 2023, I navigated through SMUD's website sign up flow
22 to confirm the process, using Plaintiff Khurshid Khoja's home address with
23 permission from Khoja. Attached as **Exhibit 3** is a true and correct copy of
24 screenshots of that process, with redactions of sensitive information regarding
25 identity verification and contact information.

26 5. The following description of SMUD's sign-up flow is based on SMUD's
27 produced records (dated 2018 and 2020) and my confirmation by navigating through
28 SMUD's online sign-up process in October 2023. I did not complete the final step

1 (Step 8) of submitting information and creating a SMUD account. Therefore, the
2 description of the final step (Step 8) is based on my review of SMUD's produced
3 records.

4 6. To sign up for home electrical service through SMUD's website, a
5 customer must go to this webpage:

6 <https://myaccount.smud.org/manage/startservice/address>.

7 7. As a potential customer, I navigated through eight steps on SMUD's
8 website to sign up for home electrical service. Customers do this by clicking a series of
9 buttons and entering personal information to complete a step before navigating to the
10 next step on a new webpage. At no point in this process are users asked or required to
11 agree to any SMUD privacy policy. *See Exhibits 2 & 3.*

12 8. On step 1 a customer must enter a service address. Then they must click
13 a solid orange button against a solid white background that reads "Next" in white
14 text, located near the bottom of the webpage. *See Exhibit 3, pg. 1.*

15 9. On step 2, a customer must enter a service start date. Then they must
16 click the same "Next" button, located near the bottom of the webpage. *See Exhibit 3,*
17 *pg. 2.*

18 10. On step 3, a customer must click through a series of rate options,
19 including information about electric vehicle credits and a choice between time-of-day
20 and fixed rates. Then they must click the same "Next" button, located near the bottom
21 of the webpage. *See Exhibit 3, pg. 3.*

22 11. On step 4, a customer must verify their identity by entering their
23 personal data (including name, address, contact, date of birth, social security number,
24 and government ID) that will be sent to a credit reporting agency. Then they must
25 click the same "Next" button, located near the bottom of the webpage. *See Exhibit 3,*
26 *pg. 4.*

27 12. A customer will then be redirected to a new screen where they must
28 correctly answer a series of identity verification questions. Then they must click the

1 same “Next” button, located near the bottom of the webpage. *See Exhibit 3, pg. 5.*

2 13. On step 5, a customer must click through a series of account information
3 buttons, including ones that specify billing address, other account holders, access
4 issues with service visits, and whether the home is rented or owned. Then they must
5 click the same “Next” button, located near the bottom of the webpage. *See Exhibit 3,*
6 *pg. 6.*

7 14. On step 6, a customer can click to voluntarily enroll in a green energy
8 program and clean energy donations. Then they must click the same “Next” button,
9 located near the bottom of the webpage. *See Exhibit 3, pg. 7.*

10 15. On step 7, a customer may review and change their information. Then
11 they must click a “Submit Request” button, located near the bottom of the webpage.
12 *See Exhibit 3, pg. 8.*

13 16. On the final step 8, a customer is informed that the request for
14 electricity service is being processed. The customer is also prompted to create an
15 account, by entering a user ID and password. Then they must click the same “Next”
16 button, located near the bottom of the webpage. *See Exhibit 2, pg. 6.*

17 17. If a customer continues to scroll down to the footer at the very bottom of
18 each webpage — below the solid white background and not adjacent to the solid
19 orange “Next” button—a customer may find a series of small words and buttons.
20 Those include nine hyperlinks that read “Outage Center”; “SMUD.org”; “Payment
21 arrangements”; “About us”; “Rebates”; “Contact us”; “Privacy Policy”; “Terms and
22 conditions”; and “En español.” Aside from those hyperlinks, there are five clickable
23 social media buttons for Twitter (now X), Facebook, YouTube, LinkedIn, and
24 Instagram. In addition, there are a series of words that are not hyperlinked, including
25 the words “QUICK LINKS” and “©2023 Sacramento Municipal Utility District.” *See*
26 *generally Exhibits 2, 3.*

27 18. The hyperlinks located in the footer of each webpage do not contain the
28 standard indicia of a hyperlink (for example, underlining, all capital letters, and

1 distinct colors). Instead, they are small black letters against a gray background, just
2 like words that are not hyperlinked. *See generally* **Exhibits 2, 3**.

3 19. Customers are not required or encouraged to click on the hyperlink titled
4 “Privacy Policy” (<https://www.smud.org/en/Corporate/Privacy-policy>) to sign up for
5 home electrical service.

6 20. None of the steps during the sign-up process on SMUD’s website put
7 customers on notice that by signing up for electrical service or clicking the solid
8 orange “Next” button; “Submit Request” button; or the “Create your account” button,
9 customers are also separately agreeing or consenting to any SMUD policy or
10 conditions.

11 21. If a customer chooses to sign up for electricity service over the phone
12 with a SMUD representative, SMUD similarly does not give those customers any
13 notice that they agree or consent to any SMUD policy or conditions, according to call
14 scripts produced by SMUD. **See Exhibit 2, pg. 7-8).**

15 I declare under penalty of perjury under the laws of the State of California that
16 the foregoing statements are true and correct to the best of my knowledge,
17 information, and belief.

18 Date: May 5, 2025

Subject: [EXTERNAL] California Public Records Request

CAUTION: This email originated from outside of SMUD. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear SMUD:

This is a California Public Records Request.

1. I am requesting screenshots sufficient to show the process for signing up for SMUD service online. This link, <https://myaccount.smud.org/manage/startservice/address>, refers to 8 steps. I am requesting documents sufficient to show everything that a customer would see on these 8 steps and anything additional prior to completing the service sign-up or a transfer request workflow. I request the current sign-up flow and any different iterations from 2017-present.
2. I am requesting any additional documentation, like scripts, of any disclosures that are made to a potential customer if they call in to sign up or transfer SMUD service.

A response is required in the time provided for by the California Public Records Act. Payment of amounts allowed by law can be made. If these are electronically maintained records, I request that responsive documents be emailed. If SMUD would like me to come and pick them, I will come pick them up or arrange to have them picked up.

Transfer Service

You're eligible for an EV credit on our Time-of-Day Rate for usage between midnight - 6 a.m., but it looks like we're missing some details for your electric vehicle. Would you like to receive a reminder email to update your EV data once you move in?

No

☒ Yes

Available Rates

Our customers enjoy some of the lowest rates in California. Based on your information, here are your available rates:

☒ Time-of-Day (5 p.m. – 8 p.m.)

Shift usage and save

The price of your electricity changes based on the time of day. Save on your electricity bills by shifting your usage to times when it costs less. Receive an electric vehicle (EV) credit on usage between midnight - 6 a.m.

[View details](#) ▼

☐ Fixed Rate

A fixed price per kilowatt hour (kWh) regardless of when you use electricity. Rates are slightly higher in the summer than the rest of the year. The electric vehicle (EV) credit is not available with this rate.

Start New Service

Do you own an electric vehicle (EV)?

If so, you're eligible on an EV credit for usage between midnight - 6 a.m. on our Time-of-Day Rate.

☐ No

☐ Yes

Available Rates

Our customers enjoy some of the lowest rates in California. Based on your information, here are your available rates:

☒ Time-of-Day (5 – 8 p.m.)

☒ **Over 98% of customers save annually on the Time-of-Day Rate compared to the optional Fixed Rate.** On Time-of-Day, the price of electricity changes based on when you use it. Save even more by shifting your use to lower-cost, off-peak hours.

Fixed Rate

On average, customers pay about 4% more annually on the optional Fixed Rate compared to the Time-of-Day (5-8 p.m.) Rate. The Fixed Rate offers a fixed price per kilowatt hour (kWh) regardless of when you use electricity. Reducing overall usage can help manage costs on this rate.

NACHA Script *(after check payment by phone)*

This telephone conversation is being recorded for quality control and authorization purposes.

This confirms that you, *[state caller's name]* on *[state today's date]* are allowing an electronic withdrawal by SMUD on/or after *[state today's date]* for *[state amount]* from bank account number *[state bank account number]*.

If you agree to this transaction, please state your name and that you confirm this authorization for a single entry electronic withdrawal.

If you have any questions about this transaction, or to revoke your authorization, please call us at 1-888-742-7683.

CVF Script

We have processed your request for electric service at *[state address]* *(and power is restored (if applicable))*. However, as of today's date, conditions at this address require further review by our Credit Department.

If we determine that your electric service requirements have not been met or if you fail to respond to our attempts to contact you, your electric service may be disconnected without further notice.

All Connect Script

"OK, now I'm going to transfer you to Allconnect where they can help you set up other services for your home. Please hold while I transfer your call."

Allconnect contact information: 1-866-386-0885 or allconnect.com/snud

Credit Card Refund Request Script

SMUD has submitted a refund request of *[\$xx.xx]* back to your credit or debit card. The actual date that the funds will be credited back to your original credit card depends on your financial institution.

Direct Connect - Reconnect Authorization Script

This telephone conversation is being recorded by SMUD for quality control and authorization purposes.

Today's date is *[state today's date]*.

For the record, who am I speaking with?

We have confirmed that the service address at *[state service address]* is currently without power. If you'd like, we can restore service remotely without having you press the reset button on the meter. Would you like us to connect the meter remotely? If so, please state your name and that you confirm this authorization.

[If the caller says "no," this is recorded and noted and the call ended. If the caller says "yes," continue.]

If any electric devices or appliances were on when your power went out, it could create a hazard when your power is restored. Can you confirm that all electronic devices and appliances are off and it's safe to turn your power on now?

[If the caller says "no," tell the caller to call back when it is safe to restore power. If the caller says "yes," continue.]

Thank you. If you have any questions, please call us back.

Guión de NACHA *(después de pago con cheque por teléfono)*

Esta llamada telefónica está siendo grabada con fines de control de calidad y para propósitos de autorización.

Esto confirma que usted, *[diga el nombre de la persona a la que llamó]*, el día de hoy, *[diga la fecha de hoy]*, nos permite realizar un retiro electrónico a nombre de SMUD en este día, *[diga la fecha de hoy]*, o posteriormente, por el monto de *[diga la cantidad]* del número de cuenta bancario *[diga el número de cuenta bancario]*.

Si está de acuerdo con esta transacción, mencione su nombre y mencione que confirma esta autorización para realizar un único retiro electrónico.

Si tiene alguna pregunta sobre esta transacción, o para revocar la autorización, llámenos al 1-888-742-7683.

Guión de CVF

Hemos procesado su solicitud de suministro eléctrico en *[diga la dirección]* *[y se restableció el servicio (en caso de que corresponda)]*. Sin embargo, al día de hoy, las condiciones en este domicilio requieren que se realice una revisión más detallada de parte de nuestro Departamento de Crédito.

Si determinamos que no se cumplieron los requisitos para tener el servicio eléctrico o si usted no responde a nuestros intentos para contactarlo, su servicio eléctrico podrá ser suspendido sin previo aviso.

Guión de Allconnect

"De acuerdo, ahora voy a transferirlo a Allconnect, donde pueden ayudarle a instalar otros servicios para su hogar. Por favor, espere en la línea mientras transfiero su llamada".

Información de contacto de Allconnect: 1-866-386-0885 o allconnect.com/smud

Guión de solicitud de reembolso en tarjeta de crédito

SMUD envió una solicitud de reembolso por *[Sxx.xx]* para abono en su tarjeta de crédito o débito. La fecha real en la que los fondos se abonarán a su tarjeta de crédito original depende de su institución financiera.

Guión de autorización para reconexión o conexión directa

SMUD está grabando esta llamada con fines de control de calidad y para propósitos de autorización.

La fecha de hoy es *[diga la fecha de hoy]*.
Para dejarlo registrado, ¿con quién hablo?

Confirmamos que la dirección de servicio ubicada en *[diga la dirección de servicio]* no tiene energía eléctrica en este momento. Si lo desea, podemos restablecer el servicio de manera remota, para que usted no tenga que presionar el botón de reinicio de su medidor. ¿Desea que conectemos el medidor de manera remota? Si es así, mencione su nombre y mencione que confirma esta autorización.

[Si la persona contesta "no", esto se registra y se anota, y la llamada se termina. Si la persona contesta "sí", continúe.]

Si algún aparato eléctrico o electrodoméstico estaba encendido cuando se cortó la energía eléctrica, es posible que represente un riesgo en el momento en el que se restablezca el servicio eléctrico. ¿Puede confirmar que todos los aparatos electrónicos y los electrodomésticos estén apagados y que sea seguro restablecer la energía eléctrica en este momento?

[Si la persona contesta "no", pídale que devuelva la llamada cuando sea seguro restablecer la energía eléctrica. Si la persona contesta "sí", continúe.]

Gracias. Si tiene alguna pregunta, por favor regrésenos la llamada.

Step 3 of 8

Do you own an electric vehicle (EV)?

If so, you're eligible for an EV credit for usage between midnight - 6 a.m. on our Time-of-Day Rate.

- ☒ No
☐ Yes

Need help?

- ✓ What Rate is best for me?
- ✓ Can I change my rate after I move in?

Available Rates

Our customers enjoy some of the lowest rates in California. Based on your information, here are your available rates:

☒ Time of Day (5-8pm)

Over 98% of customers save annually on the Time-of-Day Rate compared to the optional Fixed Rate.

On Time-of-Day, the price of electricity changes based on when you use it. Save even more by shifting your use to lower-cost, off-peak hours.

- ✓ Show more [▶ See how Time-of-Day works](#)

☐ Fixed

On Fixed Rate, you pay a fixed price per kilowatt-hour (kWh) regardless of when you use electricity. On average, the Fixed Rate is approximately 4% higher than the Time-of-Day (5-8 p.m.) Rate. The electric vehicle (EV) credit is not available with this rate.

**DECLARATION OF LEEDEL A.
WILLIAMS, JR.**

1 I, Leedel A. Williams, Jr., declare as follows:

2 1. I am the owner of and Head Researcher for Legislative History & Intent,
3 a California legislative research company. I have over 10 years' experience in research
4 and analysis of legislative and regulatory history and intent. This legislative history
5 research was undertaken by Betsy Raymond, former Director of Client Research for
6d Legislative History & Intent. Betsy undertook the legislative history research for
7 Senate Bill No. 448 (1997), which led to the enactment of California Government Code
8 § 6254.16, now renumbered as Government Code § 7927.410. I have knowledge of the
9 methods and sources used to properly conduct research. I hereby verify that Ms.
10 Raymond's methods, sources and work are proper and complete. Unless otherwise
11 noted in this declaration, all documents were obtained at one of the following sources:
12 legislative offices at the State Capitol or its annexes, the California State Library, the
13 California State Archives, the legislature's website located at
14 <https://leginfo.legislature.ca.gov>, or libraries at the University of California at Davis.

15 2. Attached as **Exhibit 1** is a true and correct copy of Senate Bill No. 448 as
16 it was introduced on February 19, 1997. This document was obtained from the
17 legislature's website located at <https://leginfo.legislature.ca.gov>.

18 3. Attached as **Exhibit 2** is a true and correct copy of a marked-up Senate
19 Judiciary Committee memorandum in advance of an April 8, 1997, hearing and a
20 marked-up copy of Senate Bill No. 448. This document was obtained from the bill file
21 of the Senate Committee on Judiciary.

22 4. Attached as **Exhibit 3** is a true and correct copy of an excerpt of a fax
23 dated April 1, 1997 from the Office of the City Attorney for Palo Alto to Dana Mitchell
24 of the Senate Judiciary Committee. This document was obtained from the bill file of
25 the Senate Committee on Judiciary.

26 5. Attached as **Exhibit 4** is a true and correct copy of a Senate Judiciary
27 Committee analysis of Senate Bill No. 448 as it was introduced from a hearing in the
28 Senate Judiciary Committee on April 8, 1997. This document was obtained from the

1 bill file of the Assembly Committee on Governmental Organization.

2 6. Attached as **Exhibit 5** is a true and correct copy of Senate Bill No. 448 as
3 it was amended in the Senate Judiciary Committee on April 10, 1997. This document
4 was obtained from the legislature's website located at <https://leginfo.legislature.ca.gov>.

5 7. Attached as **Exhibit 6** is a true and correct copy of Chapter 276 of 1997
6d as it was approved by the Governor on August 15, 1997. This document was obtained
7 from the legislature's website located at <https://leginfo.legislature.ca.gov>.

8 I declare under penalty of perjury under the laws of the State of California that
9 the foregoing is true and correct and that this declaration was executed on April 29,
10 2025 in Sacramento County, California.

EXHIBIT 1

SENATE BILL

No. 448

Introduced by Senator Sher

February 19, 1997

An act to add Section 6254.16 to the Government Code, relating to public records.

LEGISLATIVE COUNSEL'S DIGEST

SB 448, as introduced, Sher. Public records.

Existing law, the California Public Records Act, requires that public records, as defined, be open to inspection at all times during the office hours of the state or local agency and that every person has a right to inspect any public record, with specified exceptions. Existing law permits the disclosure of certain public utility customer information for specified law enforcement purposes.

This bill would provide that the act shall not be construed to require the disclosure of specified information concerning municipal utility customers except for specified purposes.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 6254.16 is added to the
- 2 Government Code, to read:
- 3 6254.16. Nothing in this chapter shall be construed to
- 4 require the disclosure of the name, credit history, utility
- 5 usage data, home address, or telephone number of
- 6 municipal utility customers, except that disclosure of that
- 7 information shall be made upon request as follows:

SB 448

— 2 —

1 (a) To an agent or family member of the person to
2 whom the information pertains.

3 (b) To an officer or employee of another
4 governmental agency when necessary for the
5 performance of its official duties.

6 (c) Upon court order or the request of a law
7 enforcement agency.

8 (d) Upon determination by the municipal utility that
9 the customer who is the subject of the request may be
10 using utility services unlawfully or in a manner
11 inconsistent with applicable federal, state, or local utility
12 usage policies.

13 (e) Upon determination by the municipal utility that
14 the customer who is the subject of the request is an
15 elected or appointed official with responsibility for
16 municipal utility decisionmaking.

SUBJECT

Public Utilities Records

DESCRIPTION

This bill would prohibit the release of information about private citizens contained in public utility records, such as name, address, and telephone number. Exceptions are made for family members, police, courts, official government business, and where the utility determines that the public interest in disclosure clearly outweighs the public interest in nondisclosure (This bill would not apply to elected or appointed officials with responsibility for municipal utility decisionmaking whose records would also remain public.)

whose

BACKGROUND

The customer files of municipally-owned utility companies are considered public records, and as such are available to any person who requests them. This information includes the customer's name, address, telephone number, utility usage, payment and credit history.

An ongoing lawsuit in Tennessee dramatizes the danger in allowing unfettered public access to utility customers' personal information. On March 21, 1994, a police informant was murdered the morning before he was to testify in a drug trafficking trial. The week prior to the shooting, according to their records, the local municipally-owned utility company had divulged the victims' address, pursuant to a public records request. The family of the victim has sued the city and police department for wrongful death. A privacy claim against the utility was dropped, as the victim's personal information was determined to be a public record. However, the suit against the police and metro continue on.

(more)

Investor-owned utility companies are not bound by the disclosure requirements of the Public Records Act. Most do not release the private information contained in their customer files.

In partial response to these events, and in an attempt to remain competitive with the investor-owned utilities, the California League of Cities unanimously passed a resolution in October of 1996 resolving, "that the League support legislation that will provide municipal utilities and their customers with business confidentiality and personal customer information privacy protection which is equivalent to that which is currently enjoyed by investor-owned utilities and their customers."

CHANGES TO EXISTING LAW

Existing law The Public Records Act, requires that:

- Public records are open to inspection at all times during the office hours of the state or local agency and every person has the right to inspect any public record, except as hereafter provided.
- Public record is defined as "any writing containing information relating to the conduct of the public's business prepared, owned, used, or retained by any public or local agency regardless of physical form or characteristics".
- Local agencies include "any....municipal corporation; district; political subdivision; or any board commission or agency thereof; other local public agency...."

If a record is not covered by a specific exemption from disclosure, the test for withholding documents from release requires a case-by-case balancing of the public and private interests. In each instance, the agency must ask whether on the facts of the particular case, the public interest served by not making the record public clearly outweighs the public interest served by disclosure of the record.

This bill would add to the list of express exceptions to disclosure the release of names, credit history, utility usage data, home address, or telephone number of municipal utility customers.

This bill would allow continued disclosure of customer's personal information in the following circumstances:

- (a) To an agent or family member of the customer.
- (b) To an officer or employee of another governmental agency when necessary for the performance of its official duties.

- (c) Upon court order or request of a law enforcement agency.
- (d) Upon determination by the utility that the customer who is the subject of the request may be using the services unlawfully or in a manner inconsistent with applicable federal, state, or local utility usage policy.
- (e) Upon determination by the utility that the customer who is the subject of the request is an elected or appointed official with responsibility for municipal utility decisionmaking.
- (f) The utility determines that the public interest in disclosure clearly outweighs the public interest in nondisclosure.

COMMENTS

margin *Interest*
1. Author's stated purpose

The sponsors of this bill state that this proposal closes a gap in the privacy-protection legislation enacted after the fatal shooting in Los Angeles of actress Rebecca Shafer. Ms. Shafer's assailant obtained her address through DMV records, which at the time were public records. In response, the Public Records Act was amended to prohibit release of the personal information contained in DMV and Department of Housing and Redevelopment files. This bill applies the same concept of privacy, says the author, to the records contained in public utility's files. *9*

margin
2. No current right to privacy in public utility customer files

There is an express right to privacy in Article I, Section 1 of the California Constitution. This right was specifically designed to "prevent government ... from collecting and stockpiling unnecessary information about us and misusing information gathered for one purpose in order to serve another purpose." *White v. Davis* (1975) 13 Cal.3d 757, 774. However, the privacy right of a citizen must be balanced as against the public's fundamental right to access public records. *did the case say that?*

In *New York Times Co. v Superior Court*, 218 Cal.App.3d 1579, 1585 (1990) the court held that a public utility's customer records were in fact public records, and open to disclosure. In that instance, a newspaper successfully sought the names and addresses of the public water company's customers who violated the city's water rationing law. The utility defended on the grounds that release of such information would violate customers' rights to privacy, and subject them to harassment and possible harm. In applying the balance test, the court opined that, "a mere assertion of possible endangerment does 'not clearly' outweigh the public interest in access to these (public) records." Id.

VIA TELECOPY & FIRST CLASS MAIL

Honorable Byron Sher
State Senator
State Capitol, Room 4032
Sacramento, CA 95814

ATTENTION: Kevin Walsh

RE: SB 448--Municipal Utilities Customer Privacy
Legislation

Dear Senator Sher:

Last December the City of Palo Alto requested your assistance in authoring legislation to assure the security and privacy of personal customer information held by municipal utilities. On behalf of the City of Palo Alto, let me express my sincere thanks for your effort introducing SB 448.

The bill is set for hearing in the Senate Judiciary Committee on April 8. As I mentioned to Kip Lipper and Kevin Walsh, we have spent quite a bit of time and effort working with the California Newspaper Publishers Association to provide assurance that the bill will not unduly interfere with important news gathering activities.

The result of our discussions is a set of minor amendments we wish to see introduced before April 8. (See attached.) There is also one amendment proposed by your staff. The amendments do three things. First, a small reorganization of the introductory clause makes it clear that credit history information will not be disclosed under any circumstances. Second, we have qualified subdivision (a) to make it clear that a family member can get records only if authorized by the subject utilities customer.

The third and final change goes to the core of CNPA's concern. CNPA is concerned that, as introduced, the bill could preclude legitimate news gathering about persons who are not elected or appointed public officials, but who are nonetheless important with respect to utilities matters. CNPA proposes adding a new subdivision (f) which would allow disclosure of customer records as follows:

"(f) Upon determination by the municipal utility that the public interest in disclosure of the information clearly outweighs the public interest in nondisclosure."

P.O. Box 10250
Palo Alto, CA 94303

415.329.2646 Fax

Honorable Byron Sher
April 1, 1997
Page 2

RE: SB 448--Municipal Utilities Customer Privacy
Legislation

This new subdivision (f) takes an unusual, but I think workable approach. It borrows the "public interest" balancing test from existing section 6255, but turns it around so that the interest in disclosure must be shown to *clearly outweigh* the privacy interests. This provides an opportunity to access records in a variety of circumstances, but it is an opportunity that by definition calls for cautious privacy protection.

We hope these amendments are satisfactory. I have also attached a copy of a paper distributed at last Fall's American Public Power Association conference. The paper discusses a horror story arising from a murder-for-hire incident arising from the Nashville Electric utility's legal obligation to disclose customer names and addresses.

Thank you again for carrying this legislation. Palo Alto believes your extraordinary support for the City's customer privacy needs will be vital in advancing this bill.

Please let me know if you have any questions.

Sincerely,

/s/

ARIEL PIERRE CALONNE
City Attorney

John L. Burton, Chairman
1997-98 Regular Session

SB 448	S
Senator Sher	B
As Introduced February 19, 1997	
Hearing Date: April 8, 1997	4
Government Code	4
DLM:ct	8

SUBJECT

Public Utilities Records

DESCRIPTION

This bill would prohibit the release of information about private citizens contained in public utility records, such as name, address, and telephone number. Exceptions are made for family members, police, courts, official government business, and where the utility determines that the public interest in disclosure clearly outweighs the public interest in nondisclosure.

BACKGROUND

The customer files of municipally owned utility companies are considered public records, and as such are available to any person who requests them. This information includes the customer's name, address, telephone number, utility usage, payment and credit history.

An ongoing lawsuit in Tennessee illustrates the danger of allowing unfettered public access to utility customers' personal information. On March 21, 1994, a police informant was murdered the morning before he was to testify in a drug trafficking trial. The week prior to the shooting, according to their records, the local municipally owned utility company had divulged the victim's address, pursuant to a public records request. The family of the victim has sued the city and police department for wrongful death. A privacy claim against the utility was dropped, as

the victim's personal information was determined to be a public record. However, the suit against the police and metro continue on.

Investor-owned utility companies are not bound by the disclosure requirements of the Public Records Act. Most do not release the private information contained in their customer files.

In partial response to these events, and in an attempt to achieve parity with investor-owned utilities, the California League of Cities unanimously passed a resolution in October of 1996 resolving, othat the League support legislation that will provide municipal utilities and their customers with business confidentiality and personal customer information privacy protection which is equivalent to that which is currently enjoyed by investor-owned utilities and their customers.o

CHANGES TO EXISTING LAW

Existing law, the Public Records Act, requires that:

Public records are open to inspection at all times during the office hours of the state or local agency and every person has the right to inspect any public record, except for records specifically exempted from disclosure by law.

Public record is defined as "any writing containing information relating to the conduct of the public's business prepared, owned, used, or retained by any public or local agency regardless of physical form or characteristics."

Local agencies include oany....municipal corporation; district; political subdivision; or any board commission or agency thereof; other local public agency...."

If a record is not covered by a specific exemption from disclosure, the test for withholding documents from release requires a case-by-case balancing of the public and private interests. In each instance, the agency must ask whether on the facts of the particular case, the public interest served by not making the record public clearly outweighs the public interest served by disclosure of the record.

This bill would add to the list of express exceptions to disclosure the release of names, credit history, utility usage data, home address, or telephone number of municipal utility customers.

This bill would allow continued disclosure of customers' personal information in the following circumstances.

- (a) To an agent or family member authorized by the customer.
- (b) To an officer or employee of another governmental agency when necessary for the performance of its official duties.
- (c) Upon court order or request of a law enforcement agency in relation to an ongoing investigation.
- (d) Upon determination by the utility that the customer who is the subject of the request may be using the services unlawfully or in a manner inconsistent with applicable federal, state, or local utility usage policy.
- (e) Upon determination by the utility that the customer who is the subject of the request is an elected or appointed official with responsibility for municipal utility decisionmaking.
- (f) The utility determines that the public interest in disclosure clearly outweighs the public interest in nondisclosure.

COMMENTS

1. Author's stated purpose

The sponsors of this bill state that this proposal closes a gap in the privacy-protection legislation enacted after the fatal shooting in Los Angeles of actress Rebecca Shafer. Ms. Shafer's assailant obtained her address through DMV records, which at the time were public records.

In response, the Public Records Act was amended to prohibit release of the personal information contained in

DMV and Department of Housing and Redevelopment files. This bill applies the same concept of privacy, says the sponsor, to the records contained in a public utility's files.

2. No current right to privacy in public utility customer files

There is an express right to privacy in Article I, Section 1 of the California Constitution. This right was specifically designed to "prevent government ... from collecting and stockpiling unnecessary information about us and misusing information gathered for one purpose in order to serve another purpose." *White v. Davis* (1975) 13 Cal.3d 757, 774. However, under the Public Records Act, the privacy right of a citizen must be balanced as against the public's fundamental right to access public records.

In *New York Times Co. v Superior Court*, (1990) 218 Cal.App.3d 1579, 1585, the court held that a public utility's customer records were in fact public records, and open to disclosure. In that instance, a newspaper successfully sought the names and addresses of the public water company's customers who violated the city's water rationing law. The utility defended on the grounds that release of such information would violate customers' rights to privacy, and subject them to harassment and possible harm. In applying the balancing test, the court opined that, "a mere assertion of possible endangerment does 'not clearly' outweigh the public interest in access to these (public) records." *Id.*

3. Amendments to be offered in committee

This bill will be amended in the following ways:
to clarify that only family members authorized by the customer may have access to private records;

to assure that a customers credit history will not be released under any provision of this act;

to allow the Press access to information when the utility determines that such access clearly outweighs the customer's privacy interests, and;

to provide that police may only obtain information

relating to ongoing investigations.

EXHIBIT 5

AMENDED IN SENATE APRIL 10, 1997

SENATE BILL

No. 448

Introduced by Senator Sher

February 19, 1997

An act to add Section 6254.16 to the Government Code, relating to public records.

LEGISLATIVE COUNSEL'S DIGEST

SB 448, as amended, Sher. Public records.

Existing law, the California Public Records Act, requires that public records, as defined, be open to inspection at all times during the office hours of the state or local agency and that every person has a right to inspect any public record, with specified exceptions. Existing law permits the disclosure of certain public utility customer information for specified law enforcement purposes.

This bill would provide that the act shall not be construed to require the disclosure of specified information concerning municipal utility customers except for specified purposes.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 6254.16 is added to the
- 2 Government Code, to read:
- 3 6254.16. Nothing in this chapter shall be construed to
- 4 require the disclosure of the name, credit history, utility
- 5 usage data, home address, or telephone number of

SB 448

— 2 —

1 municipal utility customers, except that disclosure of ~~that~~
2 ~~information~~ *name, utility usage data, and the home*
3 *address of municipal utility customers* shall be made
4 *available* upon request as follows:

5 (a) To an agent or *authorized* family member of the
6 person to whom the information pertains.

7 (b) To an officer or employee of another
8 governmental agency when necessary for the
9 performance of its official duties.

10 (c) Upon court order or the request of a law
11 enforcement agency *relative to an ongoing investigation*.

12 (d) Upon determination by the municipal utility that
13 the customer who is the subject of the request may be
14 using utility services unlawfully or in a manner
15 inconsistent with applicable federal, state, or local utility
16 usage policies.

17 (e) Upon determination by the municipal utility that
18 the customer who is the subject of the request is an
19 elected or appointed official with responsibility for
20 municipal utility decisionmaking.

21 (f) *Upon determination by the municipal utility that*
22 *the public interest in disclosure of the information clearly*
23 *outweighs the public interest in nondisclosure.*

EXHIBIT 6

Senate Bill No. 448

CHAPTER 276

An act to add Section 6254.16 to the Government Code, relating to public records.

[Approved by Governor August 15, 1997. Filed with
Secretary of State August 15, 1997.]

LEGISLATIVE COUNSEL'S DIGEST

SB 448, Sher. Public records.

Existing law, the California Public Records Act, requires that public records, as defined, be open to inspection at all times during the office hours of the state or local agency and that every person has a right to inspect any public record, with specified exceptions. Existing law permits the disclosure of certain public utility customer information for specified law enforcement purposes.

This bill would provide that the act shall not be construed to require the disclosure of specified information concerning utility customers of local agencies, except for specified purposes.

The people of the State of California do enact as follows:

SECTION 1. Section 6254.16 is added to the Government Code, to read:

6254.16. Nothing in this chapter shall be construed to require the disclosure of the name, credit history, utility usage data, home address, or telephone number of utility customers of local agencies, except that disclosure of name, utility usage data, and the home address of utility customers of local agencies shall be made available upon request as follows:

(a) To an agent or authorized family member of the person to whom the information pertains.

(b) To an officer or employee of another governmental agency when necessary for the performance of its official duties.

(c) Upon court order or the request of a law enforcement agency relative to an ongoing investigation.

(d) Upon determination by the local agency that the utility customer who is the subject of the request has used utility services in a manner inconsistent with applicable local utility usage policies.

(e) Upon determination by the local agency that the utility customer who is the subject of the request is an elected or appointed official with authority to determine the utility usage policies of the local agency, provided that the home address of an appointed official shall not be disclosed without his or her consent.

Ch. 276

— 2 —

(f) Upon determination by the local agency that the public interest in disclosure of the information clearly outweighs the public interest in nondisclosure.

Case No. 34-2022-80004019

DECLARATION OF JASDEEP UPPAL

Action Filed:

September 21, 2022

Trial Date:

None Set

20
21 I, JASDEEP UPPAL, hereby declare:

22 1. I am a Cybersecurity Engineer with Sacramento Municipal Utility District
23 ("SMUD"). I have worked for SMUD for approximately 10 years. Part of my role involves
24 performing searches for electronically stored information ("ESI") held by SMUD in response to
25 requests for the same, including discovery requests served pursuant to litigation, public records act
26 requests, or for other purposes.

27 2. When searching for ESI such as emails, SMUD utilizes a Microsoft search tool called
28 Purview. This utility allows persons to search for responsive ESI based upon various search

1 parameters, including by sender and recipient email accounts and domain addresses, and across date
2 ranges.

3 3. I have assisted with multiple ESI searches and data retrieval requests received
4 pursuant to the lawsuit *Asian American Liberation Network, et al. v. SMUD, et al.*, Sacramento Sup.
5 Ct. Case No. 34-2022-80004019. These projects have included searches running queries based upon
6 discovery requests for communications between certain individuals who are current and former
7 SMUD Revenue Protection Group employees and several law enforcement agencies, and internally
8 between each other. I have also performed searches on physical devices, including a laptop formerly
9 assigned to Robert Duggan, who is no longer a SMUD employee.

10 4. Search parameters have included date ranges which were communicated to me as
11 ranges accepted pursuant to discussions between counsel for Asian American Liberation Network
12 (“AALN”) and counsel for SMUD, account-based searches (for example, communications from or
13 to Robert Duggan’s specific email account), and domain-based searches (for example, looking for
14 complete records of communications from or to all emails associated with the domain
15 “@pd.cityofsacramento.org.”)

16 5. The searches performed above have resulted in thousands of pages of responsive
17 documents overall, but many specific requests have resulted in few to no results. On information
18 and belief, this is because of a SMUD retention policy affording discretion to employees as to what
19 constitutes or does not constitute a business record necessitating retaining. Because of this policy,
20 on information and belief, some SMUD employees may save only attachments to emails, for
21 example PDF requests from law enforcement officers for user information shared pursuant to Cal.
22 Pub. Util. Code and Govt. Code authorization. If an employee does not archive a particular email,
23 it is deleted after 60 days.

24 6. On information and belief, in assisting SMUD employees, including those who have
25 reviewed and verified SMUD’s discovery responses in AALN’s suit against SMUD, SMUD has
26 produced all responsive ESI uncovered through searches of SMUD’s archive and employee’s
27 laptops, to the extent such information exists.

AFFIDAVIT OF JEFFREY DAIGLE IN SUPPORT OF SEARCH WARRANT

I, **Jeffrey Daigle**, your affiant, have been a duly sworn peace officer with the Sacramento Police Department since June 2010. I graduated California State University, Sacramento with a Bachelor's Degree in Social Science and earned a Multiple Subject Teaching Credential in 2005.

In December 2006, I began my employment with the Sacramento County Probation Department. I received extensive training and experience in interacting and communicating with criminals/inmates that were incarcerated inside the facility. I personally supervised up to 32 inmates at a time that were assigned to my unit. Many of the inmates I supervised were incarcerated for narcotic related offenses including, but not limited to, possession of controlled substances/narcotics, possession of controlled substances/narcotics for sale, possession of methamphetamines, possession of methamphetamines for sales, transporting methamphetamines, and more. I have spoken with no less than 30 of these inmates involved in the use and/or sales of controlled substances, who told me how they personally ingested, prepared for sale, sold, hid, or transported narcotics and controlled substances. I have also become familiar with many of the street terms used for controlled substances through my conversations with these persons.

In January 2010, I attended the Sacramento Police Academy as a non-affiliate and graduated in June 2010. This academy was certified by P.O.S.T. (Peace Officers Standards and Training). During this approx. (6) month long academy, I received basic instruction in all aspects of policing which included but not limited to: investigation, interviewing, criminal law, arrest procedures, firearms, arrest control, and police tactics. During this academy, I received twenty (20) hours of training from experienced narcotics investigators regarding the identification of illegal narcotics, including but not limited to: Methamphetamine, Cocaine HCL, Cocaine Base, Rock Cocaine, Heroin, and Marijuana. These experienced narcotic investigators discussed, demonstrated, and lectured how these drugs were used, transported, packaged for sale, and sold.

In June 2010 I was hired by the Sacramento Police Department and began my Field Training. I worked directly with no less than four experienced Training Officers over a six month period who supervised me while I made traffic stops, subject stops, arrest, booked evidence, conducted criminal investigations, obtained suspect, victim, and witness statements, wrote detailed reports and more.

In January 2011, I was assigned to patrol in the area of Oak Park as a uniformed Police Officer. During this time, I have conducted, as well as participated in, no less than one hundred preliminary criminal investigations, including but not limited to: Homicide, rape, robbery, burglary, assault, fraud, larceny, traffic offenses and various narcotic related offenses. During the course of these investigations, I conducted interviews with victims, witnesses and suspects and have made numerous arrests as a result.

While working as a patrol officer, I have been involved in surveillances and have observed persons actually involved in the use and/or sales of narcotics and other controlled substances. I have conducted no less than one hundred probation/parole searches of people, residences, vehicles and personal property, resulting in numerous arrests for a variety of crimes.

Since July 2010, I have personally interviewed many defendants, who told me how they committed crimes to support their drug dependency. I have also talked with no less than 10 persons involved in the use and/or sales of controlled substances, who told me how they personally ingested, prepared for sale, sold, hid, or transported narcotics and controlled substances. Based on my experience working for the Sacramento Police Department as well as my experience working for Sacramento County Probation I have also become familiar with many of the street terms used for controlled substances and practices used by persons involved with narcotic activity.

Since July 2010, I have personally spoken with no less than ten police officers, who told me about their professional experience in dealing with persons actually involved in the use and/or sales of narcotics and other controlled substances. These officers have shared their experiences with me on how persons involved in narcotic/controlled substances use and/or sales will package, hide, transport, and distribute their product.

I have personally conducted presumptive chemical testing no fewer than forty times for the presence of controlled substances. The substances include Methamphetamine, Cocaine, Heroin, and Marijuana. On these tests I have received a positive reaction for the presence of the controlled substance. My findings were later confirmed by a criminalist at the Sacramento County Crime Laboratory.

In October of 2015, I attended an 80 hour class titled "Major Narcotic Investigations," which was taught by the Robert Presley Institute for Criminal Investigation. During this class, I was taught how narcotics are packaged, transported, sold and used throughout the United States. I was also taught surveillance techniques, undercover operations, and informant development and management.

On 07/08/2016 I initiated an investigation into the allegation that unknown person(s) were engaged in an indoor marijuana growing operation at [REDACTED] in the City/County of Sacramento. The allegation was based upon a SMUD assessment of the residences power usage. I know from training, experience and the experience of other trained narcotics investigators that indoor marijuana grows utilize an inordinate amount of electric power in relation to the regular residential usage of structures around them.

On 7/10/16 a utility subscriber check (SMUD) was conducted for [REDACTED] I requested power usage and customer information for [REDACTED] from SMUD investigator Robert DUGGAN. The utilities subscriber since 5/16/12 is [REDACTED] [REDACTED] The average monthly power consumption since 5/16/2012 at [REDACTED] is 11,202 Kwh per month. Additional updates I had conducted through SMUD showed that from

7/21/16 through 8-18-16 the power usage at [REDACTED] was **9,222 Kwh**.

I made a County Known Persons (KPF) inquiry and found [REDACTED] with an alias of [REDACTED] with the same Social Security Number of: [REDACTED] to have a listed address of [REDACTED]

I conducted a DMV records check of [REDACTED] and I found as of 08-02-2012 her listed address to be [REDACTED] Sacramento, CA 95820.

On 7/10/2016 at 1827 hours, I personally observed a [REDACTED] registered to [REDACTED] and a [REDACTED] registered to [REDACTED] parked in the driveway at [REDACTED]

SMUD investigator Robert DUGGAN is a SMUD Revenue Protection Representative who is responsible for the investigation of power theft, fraud cases, and high usage investigations in the SMUD district. DUGGAN has been employed with SMUD for 27 years and has been an investigator for 4 years. DUGGAN has investigated over 300 indoor marijuana grows. Investigator DUGGAN has given me and other narcotics investigators I know utility information on no less than ten occasions that has resulted in search warrants issued and where marijuana grow operations have been located and seized. Furthermore SMUD investigator DUGGAN has never incorrectly assessed kilowatt usage, amperage draws or power cycles of illegal marijuana grows with common power consumption.

The power usage/average for [REDACTED] is of extremely high usage for a [REDACTED] structure. SMUD investigator DUGGAN stated to me that the power usage is consistent with an indoor marijuana grow based on his experience. From my experience in assisting with indoor marijuana grows and from speaking with narcotic investigators more experienced than myself, the consumption of power at [REDACTED] is consistent with an indoor marijuana grow.

I conducted a search of the Sacramento County Parcel Viewer and found that, [REDACTED] Sacramento, CA 95820, has a building square footage of [REDACTED]. SMUD investigator DUGGAN showed me the comparable usage for houses of similar size and construction around the residence at [REDACTED] as:

[REDACTED] registered **889 Kwh** between 07/21/16 and 8/18/16.

[REDACTED] registered **1,653 Kwh** between 07/21/16 and 8/18/16 this location has an in-ground swimming pool.

Based on my training and experience and the experience of other more experienced investigators, along with instruction from SMUD investigators, I know that the average U.S. household has 45 light bulbs. I also know that the average light bulb in a U.S. residence is between 40 and 60 watts. The formula for Kwh consumption for a single 60 watt light bulb

operating for one hour is expressed as: .06 Kwh. I also know that the average **annual** electricity consumption for a U.S. residence is approximately **10,932 Kwh** with an average **monthly** usage of **911 Kwh**. Extrapolated, the average daily consumption of a U.S. household is **30.36 Kwh**. The residence at [REDACTED] has an average **monthly** electricity consumption (5/20/16 through 8/18/16) of **10,427.33 Kwh**. I also know that the peak cycle for [REDACTED] is in 18 and 12 hour cycles utilizing **347.57 Kwh**. Therefore [REDACTED] comparatively would be running **294** 60 watt light bulbs for 18 hours per day if the consumption was for legitimate purposes. Subtracting **30.36 Kwh** as the average daily baseline for a U.S. residence's usage which would include air conditioning, heating, refrigerator, washer/dryer (none of which normally cycle in 12 or 18 hour cycles), [REDACTED] exceeds the average U.S. daily power consumption by **317.21 Kwh** per day.

I know from training and experience and the experience of other investigators well versed in marijuana grow investigations that marijuana growers most always utilize 1000 watt grow lights that are most often high pressure sodium lights, metal halide and ceramic metal halide lights. These lights require cooling systems. These 1000 watt lights also require ballasts to power the lamp and convert normal household voltage to that used by the light(s).

From May 20th through June 20th 2016 [REDACTED] averaged **11,205 Kwh** which was billed to and paid by the subscriber [REDACTED] at the standard rate of **\$2,043.70**. From June 21st through July 20th 2016 [REDACTED] averaged **10,885 Kwh** which was billed and paid by [REDACTED] amounting to **\$2008.44**. From July 21st through August 18th 2016 the average power usage for [REDACTED] was **9,222 Kwh** and was billed and paid for by [REDACTED] in the amount of **\$1,685.15**. This amounts to **\$5,737.29** in a three month period. SMUD has received no complaints from the subscriber [REDACTED] for excessive power charges.

I know, based on my training and experience and the experience of other knowledgeable illegal indoor marijuana grow investigators that the more sophisticated growers have multiple stage grows in operation at the same location that enables the growers to harvest at least one grow a month. This type of growing operation allows the grower(s) to profit regularly (monthly).

I was advised by SMUD investigator Duggan that SMUD operates a Medical Rate Program. This program gives a discount rate for persons/families with electrical life support and other medical systems. Duggan further related that the power drawn from those systems are nominal and in any case SMUD would be aware of these circumstances and power draws in determination of usage. Life support systems most always work on a 24 hour system and would show as a 24 hour or continuous power cycle. According to SMUD, [REDACTED] is not a participant in the SMUD Medical Rate Program.

Based on the above formulae, my experience and the experience of other knowledgeable illegal indoor marijuana grow investigators I believe that the daily power usage (**317.21 Kwh per day**) at [REDACTED] in 12 and 18 hour cycles is consistent with a two stage illegal indoor marijuana grow operation powering between 15 and 18 1000 watt high pressure lights on the 18 hour cycle.

I also know based on my training and experience and the experience of other knowledgeable illegal indoor marijuana grow investigators that growers taper down their lighting cycle to a point that mimics the seasons. Naturally growing marijuana (outdoors) is harvested from late August through late September. The plant "flowers" after late September. The THC heavy "bud" is what is sought by the illegal marijuana grower. To mimic the natural fall sunlight pattern the illegal indoor marijuana grower will taper the light to 12 hour cycles. The cycles observed in the power consumption at [REDACTED] show distinct 18 and 12 hour cycles above the average base line for U.S. households and are consistent over their monthly billing.

It has been my experience, and the experience of other Sacramento Police Department narcotics officers, that persons involved in the cultivation, sales and transportation of Marijuana will normally have most, if not all, of the following items of evidence within their temporary or permanent residences, businesses, vehicles, storage areas, storage containers or on their persons:

Items such as seeds, fertilizer, irrigation devices, garden tools, growing containers, electrical devices which aid in the growth of marijuana plants, such as fans, timers, pumps, ballast, lights, climate control devices, generators, and books or instructional manuals to aid in the growing of marijuana. Processed marijuana, scales and other measuring devices, paper bindles, plastic bindles, small Ziploc plastic bags, sandwich baggies, plastic coin bags, (used in the preparation of Marijuana for sale and storage); articles of personal property tending to establish and document cultivation, sales and transportation of Marijuana, including cash, buyer lists, seller lists, and recordation of sales and purchases of Marijuana; articles of personal property tending to establish the existence of a conspiracy to cultivate, sell and transport Marijuana, including personal telephone books, address books, telephone bills, papers and documents containing lists of names, addresses and phone numbers of narcotic drug customers and suppliers; and articles of personal property tending to establish the identity of persons in control of the premises, vehicles, storage areas and containers being searched, including utility company receipts, rent receipts, addressed envelopes, keys and photographs of the defendant(s) and their associates.

It is my experience, and the experience of other Sacramento Police officers, that cultivators and sellers of marijuana/narcotics will often hide their narcotics outside their residence. Cultivators and sellers of marijuana may bury their narcotics within the surrounding grounds on their property for further concealment in order to avoid detection and seizure; as well as secreted in attics, safes, storage sheds, lockers, and trash containers.

It is my experience, and the experience of other Sacramento Police officers, that cultivators and sellers of marijuana often have large amounts of marijuana, and then repackage it into smaller amounts for subsequent street sales at their residences. In the process, it is common for sellers to utilize such items as narcotic paraphernalia, including paper bindles, small zip-lock baggies, sandwich baggies, plastic wrappers, plastic baggies, glass vials, film canisters, containers of various types commonly associated with the storage and use of marijuana, scales, other weighing devices, plastic baggies, glass vials. They also maintain written records documenting sales or transactions of narcotics including pay/ owe sheets, buyers' and sellers' lists. The search warrant

therefore should include the above items, as well as written documents bearing the address of the residence to be searched in the name of the addressee for purposes of establishing dominion and control of the premises, and any and all keys which are found to fit any locks of the residence or containers found therein.

It is my experience, and the experience of other Sacramento Police officers, that cultivators and sellers of narcotics normally conduct their business in cash sales. Currency, ledgers including buyers' lists, sellers' lists, names, dates, amounts, and quantities are often compiled by sellers of narcotics and may be found on their persons, residences, within their vehicles or hidden/secreted elsewhere within the curtilage of their property.

It is my experience, and the experience of other Sacramento Police officers, that documents found within the residence being searched for narcotics, which are addressed to the premises, will often bear evidence to establish the identity of persons in dominion and control of the premises.

It is my experience, and the experience of other Sacramento Police officers, that cultivators and sellers of marijuana/ narcotics commonly utilize their vehicles for transportation of narcotics, both from their sources of supply to their residence and to their purchasers. Cultivators and sellers of marijuana/narcotics commonly sell narcotics away from their residence, utilizing a vehicle to make contacts, in order to avoid detection, and in order to avoid possible seizure of total amounts possessed by a seller at one time.

It is my experience, and the experience of other Sacramento Police officers, that cultivators and sellers of marijuana often make narcotics transactions away from their residence and vehicles for further concealment. Sellers of narcotics often carry only a portion of their possessed quantity on their persons for hand to hand street sales at one time. Additional quantities on hand are most often secreted in a safe location, apart from the sales area, such as a secret residence or vehicle, to avoid law enforcement detection.

I know from training and experience and from speaking with narcotics investigators more experienced than myself that cultivators/sellers of illegal marijuana and other narcotics often times arm themselves with firearms and other weapons they have specifically acquired to protect their illegal product from rivals and armed robbers. I know that it is common for these sellers/cultivators to cache their firearms within their residences, businesses, vehicles and on their persons that the firearms might be readily available to defend against such robberies. I know it is also true based on my training and experience and from speaking with other investigators more experienced than myself that these weapons whether acquired legally or illegally have been used by cultivators/sellers of marijuana or other narcotics against Law Enforcement when Law Enforcement is conducting raids or executing search warrants upon such persons at their residences, places of business or in their vehicles.

It is my experience and the experience of other Sacramento Police officers, that while conducting investigations and serving search warrants for narcotics violators, that violators often

use the telephone to set up sales and purchases of narcotics away from their residence, in order to avoid law enforcement detection. Answering the telephone and responding to text messages received at this residence may produce further evidence of narcotics trafficking of the occupants of the residence and may reveal the purchasers of narcotics, as well as possible sources of narcotics.

Based on my training and experience, I am aware that persons involved in marijuana cultivation and trafficking commonly use computers and computer equipment to conduct and facilitate their illegal activity. They will use computers and computer equipment to store customer lists, customer and drug sales information, inventory information, profit records, and accounts receivable (pay/owes). Therefore, I request authorization for officers to seize and search at a later time, computer and computer equipment as listed in this search warrant that may be found at [REDACTED] employing outside experts if need be.

It is my experience, and the experience of other Sacramento Police officers, that cell phone and computer searches and examinations may not be completed within the ten days in which the Search Warrant must be served and the Return of Search Warrant filed. This is because it is common for the Electronic Crimes Unit, which will conduct the examination, to have several cases working at the same time and an examination may take several weeks to complete. I therefore request that the search of the cell phone be allowed to continue, if necessary, beyond the ten day period set forth in Penal Code section 1534.

Based on the aforementioned information and my training and experience, as well as the experience of other skilled narcotics investigators with whom I have spoken, I believe [REDACTED] [REDACTED] is actively engaged in the cultivation of Marijuana and that Marijuana and other items listed in this warrant will be located at the property of [REDACTED]. Therefore, I request a search warrant be issued for:

**YOU ARE THEREFORE COMMANDED TO SEARCH
THE PREMISES KNOWN AND DESCRIBED AS:**

I have personally observed [REDACTED] Sacramento, CA 95820, which is located in the City and County of Sacramento. [REDACTED] is a one story structure that is on the west side of [REDACTED]. The street south of [REDACTED] is [REDACTED] and the street north is [REDACTED]. The exterior of [REDACTED] is traditional red and white colored brick with white colored trim. The front door of [REDACTED] faces east towards [REDACTED] and has a white colored security door in front of an unknown composition front door. The security door encompasses the front porch and is attached to brick posts. The numbers [REDACTED] are posted in black colored numbers above the exterior white security door on white tiles. The numbers are clearly visible from the street. There are circular white wrought iron security portals north and south of the security door set into the brick fascia.

Also to include all attics, basements, and other parts therein, and surrounding grounds, garages, out buildings, storage sheds, storage lockers, garbage cans, locked and unlocked

containers, safes, garages and out buildings of any kind located or belonging to the premises of [REDACTED]

THE PERSONS OF:

[REDACTED], DOB: [REDACTED] CDL: [REDACTED] SSN: [REDACTED]

Any and all persons located at [REDACTED] Sacramento Ca. 95820 at the time of the service of the search warrant.

THE VEHICLE(S) OF:

[REDACTED] black in color,
registered owner [REDACTED] (address of [REDACTED]).

[REDACTED] black in color,
Registered Owner Linda Hoang (address of [REDACTED]).

Any and all vehicles under the immediate care and control of the occupants of the premises to be searched, at the time this search warrant is served, as evidence by DMV registration information, possession of keys the vehicle, actual use of the vehicle, witness statements or admissions.

FOR THE FOLLOWING PROPERTY:

Items used to grow marijuana indoors, grow lights, ballasts, circulating fans, exhaust fans, light canopies, electrical timers, light rails, circular light movers, hydroponic containers, grow mediums, CO2 injection systems, fertilizers, and other miscellaneous items used to grow marijuana.

Marijuana or any parts thereof (such as living plants and dried processed matter) and paraphernalia associated with its ingestion, sales, transportation and cultivation; pipes, cigarette rolling papers, sifters, alligator clips, bongs, plastic bags, film canisters, scales and other measuring devices, marijuana seeds, grow lights, potting soil, containers for planting, chemicals and fertilizers, pruning and gardening tools, buyer lists, seller lists, recordation of sales, pay-owe sheets, buyers list, ledgers, books and pamphlets containing instructions on cultivation, personal telephone books, address books, telephone bills, papers and documents containing lists of names, addresses, phone numbers, utility company receipts, rent receipts, addressed envelopes, keys and photographs.

Articles of personal property tending to establish the identity of persons in control of the premises, vehicles, storage areas and containers being searched to include utility company receipts, rent receipts, addressed mail, keys, and personal identification to include wallets, purses and carrying cases that bear and contain a person's name, driver's license, credit cards, birth certificates, social security cards and tax returns.

Documents, tickets, itinerary notes, receipts, reservations, confirmations, maps, and other items related to domestic and international travel. Books, records, invoices, receipts, records of real estate, securities transactions, bank statements, and related records, passbooks, money drafts, letter of credit, money orders, bank drafts, cashier's checks, checkbooks, tax returns, loan statements, work papers, escrow files, Form 1099 and wire transfer records evidencing the obtaining, secreting, transfer and/or concealment of assets and the obtaining, secreting, transfer, concealment and/or expenditure of narcotics proceeds in violation of money laundering statutes.

Firearms and firearms related items such as: cases, cleaning supplies, receipts, ammunition, bills of sale, bills of transfer. Other weapons of an offensive nature or altered to be utilized as such a weapon.

Personal calendars, address and/or telephone books, rolodex indices and papers reflecting names, addresses, telephone numbers, pager numbers, fax numbers and/or telex numbers, correspondence of the subject of the investigation and their criminal associates, sources of supply, customers, financial institutions and other individuals or businesses with whom a financial relationship exists.

Officers are authorized to answer the phone and converse with callers who appear to be calling in regard to narcotic sales, and note and record the conversation without revealing their true identity. To also authorize officers to note and record phone numbers or other messages received on telephonic devices for the purpose of calling those persons or contacting the suspect(s) to determine if the message was regarding an intended purchase or delivery of narcotics.

Computers and computer systems, including computer records, whether on paper or stored on magnetic media including information contained within a computer or computer system; including computer hardware, software, and data, including central processing units, hard disks, hard disk drives, tape drives, CD-ROM drives, display screens, keyboards, printers, modems, magnetic tapes, "zip" drives, "zip" drive disks, files and documents in the form of optical media, electronic media, computer manuals and resource books, computer cables and connections, pieces of paper with computer passwords, computer network addresses and codes, found together or separately from the another.

It is my experience that cell phone and computer searches and examinations may not be completed within the ten days in which the Search Warrant must be served and the Return to Search Warrant filed. This is because it is common for the Electronic Crimes Unit, which will conduct the examination, to have several cases working at the same time and an examination may take several weeks to complete. I therefore request that the search of the cell phone be allowed to continue, if necessary, beyond the ten day period set forth in Penal Code section 1534. **Any electronic devices will not be searched unless an additional search warrant is issued pursuant to SB178.**

Subject: MCT Search Warrant for [REDACTED]

Good morning,

Today, MCT and SWAT served the search warrant for [REDACTED] without incident. The residence's indoor cannabis grow was in compliance and was left alone. No other criminal activity was discovered during the course of the search warrant.

Respectfully,

Hur, Christopher #958

Type 04 OBSERVATIONS

Subject HUR 958

Author 4294 - HUR, CHRISTOPHER 0958

Related Date Mar-08-2022 13:57

On 02/21/22, I initiated an investigation of a residential marijuana (cannabis) growing operation at [REDACTED] located in the City and County of Sacramento. The allegation was based upon a Sacramento Municipal Utility District, hereinafter referred to as "SMUD," assessment of the power usage. I know from my training and experience that indoor marijuana (cannabis) grows utilize an inordinate amount of electric power in relation to the regular usage of structures around them.

SMUD Investigator Robert Duggan is a SMUD Revenue Protection Representative who is responsible for the investigation of power theft, fraud cases, and high usage investigations. Duggan has been employed with SMUD for 29 years and has been an investigator for 7 years. Duggan has investigated over 300 indoor marijuana (cannabis) grows. Upon request by the Sacramento Police Department Investigator Duggan has provided information to Sacramento Police Officers on no less than twenty occasions, which has resulted in search warrants issued and where marijuana (cannabis) grow operations have been located. Furthermore, SMUD Investigator Duggan has, to my knowledge, never incorrectly assessed kilowatt usage, amperage draws, or power cycles of illegal marijuana (cannabis) grows with common power consumption.

On 02/21/22, I requested an updated usage report for [REDACTED] from SMUD Investigator Duggan. He advised that from 12/22/21-01/24/22, [REDACTED] used 6536 kWh with an average of 4058 kWh. He advised the power cycle of consumption was being conducted in 12-hour cycles, 7pm-7am, and is consistent with 4-5 interior grow lights.

SMUD Investigator Duggan provided me with the customer name of [REDACTED] at [REDACTED]. Per Sacramento County Parcel Viewer, the residence is owned by [REDACTED] and [REDACTED].

Based on my training and experience and the experience of other more experienced investigators, along with instruction from SMUD investigators, I know that the average U.S. household has 45 light bulbs. I also know that the average light bulb in a U.S. residence is between 40 and 60 watts. The consumption of a single 60-watt light bulb operating for one hour is .06 kWh. Information provided by the United States Energy Information Administration states that in 2020 the average annual electricity consumption for a U.S. residence is approximately 10,715 kWh with an average monthly usage of 893 kWh. Extrapolated, the average daily consumption of a U.S. household is 28.81 kWh.

In comparison, a SMUD report of [REDACTED] (direct neighbor to the west of [REDACTED]) used 428 kWh from 12/22/21-01/24/22 with an average usage of 548 kWh. [REDACTED] (direct neighbor north of [REDACTED]) used 641 kWh from 12/22/21-01/24/22 with an average usage of 760 kWh.

Based on my training and experience with Warrants I have written and served in the past, it is not uncommon for illicit indoor cannabis cultivations using approximately 4000-5000 kWh per month with 12-hour cycles to contain approximately 200-300 cannabis plants at the time of the warrant service.

A DMV records check revealed that [REDACTED] has [REDACTED] listed as his primary residence. A DMV records check revealed that [REDACTED] has [REDACTED] as her primary residence. Per Sacramento County Parcel Viewer, [REDACTED] is not a valid parcel or address. A publicly accessible Google Map search showed that [REDACTED] mapped in the backyard of [REDACTED] and not a residence.

SUSPENDED-
INVESTIGATION
COMPLETED

On 02/22/22, I requested the Sacramento Police Department's Air Operations Unit to take photos of [REDACTED] Ofc. Robinson of the Air Operations Unit six photos of the property. Four photos were general wide angled photos containing the entire property. Two photos were of vehicle license plates that were parked in the driveway and detached garage of the residence. The vehicle in the garage appeared to be a [REDACTED] which is registered to a [REDACTED] and/or [REDACTED] with a registered address of [REDACTED]. The second vehicle appeared to be a [REDACTED] that was parked in the driveway of [REDACTED] behind the closed front gate. A records check revealed the [REDACTED] is registered to [REDACTED] with a registered address of [REDACTED].

08/16/16, Ofc. Carson (then assigned to Justice for Neighbors for the Sacramento Police Department) conducted an inspection of [REDACTED] in regards to a possible cannabis cultivation. The inspection was scheduled after a Cannabis Compliance letter was sent to the residence regarding their high electrical usage. Ofc. Carson made contact with [REDACTED] and did not observe a cannabis cultivation at that time.

On 04/24/19, the Sacramento Police Department's Marijuana Compliance Team attempted to conduct an inspection of [REDACTED] based on high power usage consistent with an indoor marijuana (cannabis) cultivation (12-hour cycles). Officers were unable to enter the residence due to no one being home at the time of the inspection. The primary officer (Ofc. Schwertfeger) attempted to call the listed SMUD customer [REDACTED] with negative results. Ofc. Schwertfeger contacted [REDACTED] who advised he was [REDACTED] father. He advised, over the phone, that the power usage was so high because the heaters and air conditioning were being used a lot while the house was under construction. He did not explain why the power was being used in 12-hour cycles.

On 02/24/20, the Sacramento Police Department's Marijuana Compliance Team conducted an inspection at [REDACTED] regarding a possible indoor marijuana (cannabis) cultivation (SPD# 20-60844). During the inspection on 02/24/20 of [REDACTED] [REDACTED] was the only resident home at the time of inspection. During the inspection, [REDACTED] advised the primary officer (Ofc. Danforth) that they did not grow marijuana (cannabis). During the consensual inspection, Ofc. Danforth observed a seed tray with brown rock wool filling the holes. The tray was positioned underneath a fluorescent style light fixture. No live plants were visible, but it did appear that an attempt was being made to cultivate live plants. The seed tray had rock wool style filler in every pod, totaling in approximately 40 seed pods, and a clear plastic lid moist with condensation. [REDACTED] then advised that they had grown previously but, due to recent construction on the residence, were not successful.

During the inspection, [REDACTED] advised that her brother [REDACTED] was the owner of [REDACTED]. A records check also revealed that [REDACTED] has two vehicle registered to him [REDACTED] and [REDACTED] with a listed address to [REDACTED]. One of the vehicles [REDACTED] was transferred to a [REDACTED] in a recent records check revealed that [REDACTED] is listed at the "President" of [REDACTED] located at [REDACTED].

Per Sacramento County Parcel Viewer, [REDACTED] is owned by [REDACTED] and [REDACTED]. A records check revealed that both [REDACTED] and [REDACTED] list [REDACTED] as their primary mailing address and [REDACTED] Rancho Cordova as their primary residence. It was also revealed that [REDACTED] also uses the names [REDACTED] and [REDACTED] per DMV records.

On 12/09/21, Sacramento Dangerous Buildings conducted an inspection at [REDACTED] regarding a "Work without a Permit" violation. City of Sacramento Building Inspector Daniel Lowther he was at the residence to inspect a new electrical panel that was installed. He advised [REDACTED] and [REDACTED] were the primary contacts at the residence and their parents lived with them.

NARRATIVE TEXT HAND COPY

(7000-49 NARCOTICS SUSP/EVID/ACT-1 RPT)

SUSPENDED

INVESTIGATION

COMPLETED

On 02/24/22, I observed three different vehicles being driven by three different subjects leave [REDACTED]. I observed a male white adult subject leave the residence in a [REDACTED] truck [REDACTED]. Based on [REDACTED] DMV photo, I identified the subject as [REDACTED]. I observed a female white adult subject leave the residence in a [REDACTED]. Based on [REDACTED] DMV photo, I identified the subject as [REDACTED]. I observed a female white adult leave the residence in a [REDACTED]. Based on [REDACTED] DMV photo, I identified the subject as [REDACTED]. I also observed a [REDACTED] parked in a detached garage in the backyard of the property while the automatic front fence was open. Per DMV records, the [REDACTED] is registered to [REDACTED].

Based on the high power usage combined with the 12-hour cycles and previous contacts by other officers, I determined that there was an illicit cannabis cultivation at [REDACTED].

I authored a search warrant for [REDACTED] regarding the indoor illicit cannabis cultivation. Judge Kevin J. McCormick, a Judge of the Superior Court of California, signed the warrant on 02/28/22 at 1343 hours.

A records check revealed that [REDACTED] had multiple firearms registered to him. Based on the records of the firearms, the information of the search warrant was forwarded to the Sacramento Police Department SWAT.

On 03/08/22, at approximately 0910 hours, SWAT assisted MCT and I to safely serve the search warrant for [REDACTED] without incident. We were wearing department issued body worn cameras that was functioning/recording.

The occupants of [REDACTED] were detained without incident. None of the occupants were placed in handcuffs or any kind of wrist restraints when they were detained. All occupants were placed separately in the back seat of patrol vehicles with the climate controls activated and functioning.

Upon searching the residence, four (4) mature cannabis plants were located in the basement. The indoor cannabis grow appeared to be its own self made room containing two (2) combined hooded grow lights, air filtration systems, and water filtration systems. No other cannabis plants were located on the property.

[REDACTED] arrived on scene. I explained to her my investigation and the purposes of the search warrant. She advised, other than space heaters used in the residence, she has no idea why the power usage is so high. She also advised that she was aware of the high power usage based on prior Sacramento Police contacts regarding the power usage and suspected cannabis cultivation activity.

The living room was searched for weapons and the occupants were brought back inside the residence and seated in the living room. [REDACTED] did not want to exit the patrol vehicle and was assisted out of the patrol vehicle by [REDACTED] and assisted into the residence by [REDACTED]. [REDACTED] refused any assistance from me.

I explained to [REDACTED] (as a group) my investigation and purposes of the search warrant. I gave [REDACTED] a copy of the search warrant. While I was explaining the investigation, [REDACTED] stood up from the couch she was sitting on and fell slowly to the ground while screaming. Ofc. Flura ran over to [REDACTED] to check on her welfare and I requested FIRE/MEDIC to medically evaluate her. [REDACTED] advised she was not having a medical emergency. [REDACTED] was able to stand up with the assistance of [REDACTED] and sat back onto the couch. [REDACTED] refused any assistance from officers.

ENG10 arrived on scene to evaluate [REDACTED]. She advised FIRE personnel "you're wasting your time, go away". FIRE left the scene.

Subject: New SMUD Info Request Form

Hello Guys,

Robert said he emailed out the new form earlier today to some officers... I have a better version where we fixed some of the split cell problems that make it look janky. It's not his fault! Our boss sent us the form without checking it first. Please forward this to the members of your teams and other related people?

If you need to add additional request boxes you can copy and paste the entire "request #2" box to the bottom of the form, then change the request number to 3, and so on.

The "other information requested" box can be used to free form specific requests, such as "high user zip codes. Be specific though!

<Ex. I'm requesting a list of SMUD customers and SMUD locations using above 4000-kwh per month in the 95823 zip code

REQUEST #3: ☐ Comparison (Fill-in address; SMUD will provide usage)

☐ Customer's Name:	☐ SN:	☐ ID:

☐ Customer's Address:	
☐ Customer's Phone:	☐ Email:
☐ Service Start Date:	☐ Service End Date:
☐ Last month's usage:	
☐ Power usage / Notes:	

REQUEST #4: ☐ Comparison (Fill-in address; SMUD will provide usage)

☐ Customer's Name:	☐ SN:	☐ ID:
☐ Customer's Address:		
☐ Customer's Phone:	☐ Email:	
☐ Service Start Date:	☐ Service End Date:	
☐ Last month's usage:		
☐ Power usage / Notes:		

For your contact info make sure to include your name, agency email, and the date.
You'll need to make sure to check the boxes for the info you want, or you won't get it.

Thanks,

Mike Wolff

**SECOND STIPULATION REGARDING
ADMISSIBLE EVIDENCE**

Hearing Date: October 10, 2025
Time: 10:00 a.m.
Place: Department 21
Judge: Hon. Shelleyanne W. L.
Chang

Action Filed: September 21, 2022

1 Plaintiffs/Petitioners Asian American Liberation Network, Khurshid Khoja, and
2 Alfonso Nguyen, and Defendants/Respondents City of Sacramento and Katherine
3 Lester, by their respective counsel, stipulate that the attached exhibits, which reflect
4 communications to or from the City of Sacramento, are authentic and admissible in the
5 above-captioned matter. The documents are as follows:

6 1. **Exhibit A** is a true and correct copy of a July 21, 2023 email sent from
7 Lindsey Mendoza to Jason Burkhalter with the subject line “3rd Qtr High Users” and
8 containing 23 attachments. (The City of Sacramento produced this document with
9 electronic metadata Bates No. CITY_00010102).

10 2. **Exhibit B** is a true and correct copy of an August 9, 2023 email sent from
11 Jason Burkhalter to Lindsey Mendoza with the subject line “RE: 3rd Qtr High Users”
12 and containing two attachments. (The City of Sacramento produced this document with
13 electronic metadata Bates No. CITY_00010075).

14 3. **Exhibit C** is a true and correct copy of an August 9, 2023 email sent from
15 Jason Burkhalter to Lindsey Mendoza with the subject line “RE: 3rd Qtr High Users”
16 and containing one attachment. (The City of Sacramento produced this document the
17 electronic metadata Bates No. CITY_00010080).

18 4. **Exhibit D** is a true and correct copy of an August 17, 2023 email sent
19 from Lindsey Mendoza to Jason Burkhalter with the subject line “RE: 3rd Qtr High
20 Users” and containing one attachment. (SMUD produced this document with electronic
21 metadata Bates No. SMUD_0013138).

22 5. **Exhibit E** is a true and correct copy of an email thread between Lindsey
23 Mendoza and Jason Burkhalter with the most recent email dated October 4, 2023 with
24 the subject line “RE: 3rd Qtr High Users.” (SMUD produced this document with
25 electronic metadata Bates No. SMUD_0013141).

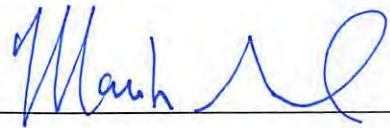

26 6. **Exhibit F** is a true and correct copy of an October 4, 2023, email sent
27 from Lindsey Mendoza to Dustin Smith with subject line “3rd Qtr High Users” and
28

1 containing one attachment (subsequently forwarded from Dustin Smith to Paul
2 Danforth). (The City of Sacramento produced this document with electronic metadata
3 Bates No. CITY_00010144).

4 7. **Exhibit G** is a true and correct copy of an October 12, 2023 email from
5 Paul Danforth to Dustin Smith with the subject line "3rd Qtr High Users."

Good Morning Lindsey,

Here's the list, have fun. 😊 I almost got it under 10K.

I don't see 95814 or 95824, just confirming there were no results for either of those areas?

Thank you!

Subject: RE: 3rd Qtr High Users

Hey, I'll take it, thank you! Hopefully I won't have near as many for you to check patterns on once I sort through County.

Subject: 3rd Qtr High Users

Good Morning Lindsey,

Here's the list, have fun. 😊 I almost got it under 10K.

Jason,

Well, the good news is I was able to cut the list by over half, but the bad news is there's over 4,800 locations left for you to check patterns on; please let me know if you need anything additional.

Thank you!

No problem!

Thank you!

I don't see 95814 or 95824, just confirming there were no results for either of those areas?

Thank you!

Hey, I'll take it, thank you! Hopefully I won't have near as many for you to check patterns on once I sort through County.

Good Morning Lindsey,

Here's the list, have fun. 😊 I almost got it under 10K.

Wow, I just find that hard to believe but OK. I'll have to confirm with management (especially since this list is so small) but it's about time for our final high user request so you could be getting another round later this month.

Thank you!

Jason,

Funny, I was going to email you earlier about this and forgot to hit send...seriously, out of all those locations, there are only (4) showing high usage/patterns?

Thank you!

Subject: 3rd Qtr High Users

As I mentioned when we spoke, there are only (4) locations remaining on last quarter's list and all are new. There is (1) highlighted in blue, indicating the usage is over our 8K threshold which means usually we would go straight to a SW without sending a letter; however, because CAO's process change and SMUD's warning that it could be A/C usage I didn't know if you wanted to go the letter route on that one as well?

Let me know what you decide and I should be able to get these out this week.

Thanks!

Lindsey

Mailed 7/13/2001

Decision 01-07-032 July 12, 2001

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Investigation on the Commission's own motion
into the matter of Competitive Access to
Customer List Information.

Investigation 90-01-033
(Filed January 24, 1990)

**OPINION DENYING PETITION OF CALIFORNIA NARCOTIC OFFICERS'
ASSOCIATION TO MODIFY DECISION 90-12-121**

In this decision, we deny the petition to modify Decision (D.) 90-12-121 that was filed on August 30, 2000 by the California Narcotic Officers' Association (Narcotic Officers or CNOA). That petition seeks to remove language from D.90-12-121 requiring Pacific Gas and Electric Company (PG&E) to modify its tariffs so that PG&E would not release customer information to law enforcement officers except pursuant to "legal process"; i.e., a warrant or subpoena duces tecum subsequently approved by a judge.¹ For the reasons set forth below, we conclude that the Narcotic Officers have failed to demonstrate good cause for

¹ Under *People v. Blair*, 25 Cal.3d. 640, 651 (1979), it is clear that the production of records pursuant to a subpoena *duces tecum* does not constitute "legal process" without the approval of a judge:

"The issuance of a subpoena duces tecum pursuant to section 1326 of the Penal Code . . . is purely a ministerial act and does not constitute legal process in the sense that it entitles the person on whose behalf it is issued to obtain access to the records described therein until a judicial determination has been made that the person is legally entitled to receive them."

modifying the tariff language required by D.90-12-121, and so we deny the petition to modify.

Procedural Background

Order Instituting Investigation (OII) 90-01-033 was issued on January 24, 1990. The purpose of the proceeding – which has often been referred to as the “List OII” – was “to consider what customer list information possessed by public utilities in California should be made available to competitors and other utilities and what measures should be taken by the Commission to protect the privacy of customer information.” (OII, page 1.) In order to consider these issues, 22 local exchange carriers were made respondents, as well as four energy utilities including PG&E. All of the respondents were directed to submit comments answering 11 broadly-phrased questions. Pursuant to this directive, opening comments were filed on May 14, 1990, and reply comments on July 9, 1990.

D.90-12-121 was issued in response to these comments. The main ruling in the decision was that the energy utilities should be dismissed as respondents, because “the present stated practice at all respondent energy utilities is not to make commercial use of customer information,” and because “any possible future demand for information by [cogeneration and demand-side management vendors or alternate gas suppliers] can be better addressed in individual energy proceedings or a later OII specific to the energy utilities.” (*Mimeo.* at 10.)

The ruling that the Narcotic Officers want modified was an incidental part of the discussion dismissing the energy utilities. PG&E’s comments had indicated that it did not release customer information to third parties without the customer’s permission except, inter alia, “to law enforcement agencies, whether or not the request is supported by a subpoena.” (*Id.* at 4.) In response to this statement of PG&E’s policy, the Commission stated:

“We also direct respondent PG&E to modify its current practices to be in line with those of the other three energy utilities, so as not to release information except pursuant to legal process, rather than merely upon request of law enforcement agencies whether or not supported by subpoenas.” (*Id.* at 11.)

Pursuant to this statement, Ordering Paragraph (OP) 3 of D.90-12-121 directed PG&E to modify its procedures for responding to customer information requests from law enforcement agencies by requiring legal process.

Grounds for the Narcotic Officers’ Petition

In their petition to modify D.90-12-121, the principal ground relied on by the Narcotic Officers is that requiring law enforcement officials to use legal process in order to obtain utility customer information is inconsistent with the Crime Victims’ Bill of Rights, which was enacted as Proposition 8 in June of 1982.² The Narcotic Officers contend that D.90-12-121 has created an “anomaly” in criminal law, because “utility user information is admissible in a criminal prosecution without a warrant, but law enforcement is forbidden to engage in the more preliminary act of investigation in the absence of a warrant.” (Petition, p. 3.) The Narcotic Officers contend that the requirement of a subpoena is anomalous for the following reasons:

“The Crime Victims’ Bill of Rights . . . provided that criminal defendants could claim no greater privacy rights than those that exist pursuant to federal constitutional law. Under federal law, there is no recognized right of privacy with respect to utility records,

² The provision to which the Narcotic Officers refer is often called the Right To Truth-in-Evidence provision, and is now set forth in Article I, § 28(d) of the California Constitution. Its central provision is that “except as provided by statute hereafter enacted by a two-thirds vote of the membership in each house of the Legislature, *relevant evidence shall not be excluded in any criminal proceeding*, including pretrial and post conviction motions and hearings, or in any trial or hearing of a juvenile for a criminal offense, whether heard in juvenile or adult court.” (Emphasis supplied.)

Smith v. Maryland, 442 U.S. 753 (1979). Subsequent to Proposition 8 being enacted, *In re Lance W.*, 37 Cal. 3d 873 (1985) and *People v. Rooney*, 175 Cal.App. 3d 634 determined that California peace officers did not need a warrant to obtain names and addresses from utilities, there being no constitutional protection of such information found under federal law.” (*Id.* at 5-6.)

The Narcotic Officers continue that the requirement of legal process slows down their everyday work, and prevents them from following up promptly on valuable leads:

“On a daily basis narcotic officers receive innumerable tips regarding suspected drug activity, characteristically from citizens observing suspicious behavior at a particular address. If utility records can be swiftly accessed, these leads can be winnowed. For example, long-standing residence and stable employment would indicate that illegal activity is less likely; on the other hand, multiple listings – particularly in fictitious names – or a prior criminal record (discovered by submission of the subscriber’s name to the criminal justice information system) would indicate that a full investigation may be necessary.

“Sophisticated drug rings set up numerous locations for various uses, including ‘stash houses,’ ‘money houses,’ or bogus living quarters. By review of utility records, officers can determine if an individual has initiated service at multiple locations at the same time, identifying possible sites of drug activity and gathering information needed to obtain search warrants. Fast access to records is necessary to facilitate investigation and make maximum use of very limited law enforcement resources. . .” (*Id.* at 4.)

Although they do not mention Pub. Util. Code § 588 specifically, the Narcotic Officers suggest that D.90-12-121 be modified to provide for a procedure similar to the one set forth in that statute, which allows designated investigators and inspectors in child abduction cases to obtain utility customer information without legal process. CNOA urges that using procedures similar to those in § 588, its members should be able to obtain upon written request, but without a

warrant or subpoena, “the full name and address, prior address and place of employment of, and date of service instituted by” a utility customer. (*Id.* at 7-9.)

Responses to the Narcotic Officers’ Petition To Modify

Responses to the Narcotic Officers’ petition were filed on October 16, 2000 by PG&E, Southern California Edison Company (Edison), San Diego Gas & Electric Company (SDG&E) and Verizon California Inc. (Verizon). With the permission of the assigned Administrative Law Judge (ALJ), the American Civil Liberties Union of Northern California, Inc. (ACLU) filed a response on November 3, 2000, and the Narcotic Officers filed a reply to all of the responses on November 20, 2000. With the exception of PG&E -- which suggests that we hold a hearing to develop new rules governing the release of customer information to law enforcement -- all of the responses strongly oppose the relief sought by the Narcotic Officers.

Edison’s objections to changing the existing rules are perhaps the most broad-based. First, Edison argues that the petition should be summarily denied for failure to comply with Rule 47 of the Rules of Practice and Procedure. Rule 47(d) requires that a petition for modification of a decision must ordinarily be filed within one year after the decision’s effective date, and that if the petition is filed later than that, an explanation must be offered for why it “could not have been presented” within the one-year period. Edison argues that the Narcotic Officers “completely fail[] to give any reason why [they] waited almost ten years to request modification. “ (Edison Response, p. 3.)

Second, Edison argues that the relief sought by the Narcotic Officers is contrary to the trend of legislation and Commission decisions in recent years, both of which require customer permission before utility information on customers can be released to third parties. Edison notes, for example, that Pub. Util. Code § 394.4, which addresses minimum consumer protection standards for

electric service providers, requires that “customer information shall be confidential unless the customer consents in writing. This shall encompass confidentiality of customer specific billing, credit, or usage information.”

Third, Edison takes sharp issue with the Narcotic Officers’ claim that their petition finds support in the Crime Victims’ Bill of Rights. Quoting *In re Lance W.*, 37 Cal.3d 873 (1985), a leading decision on Proposition 8, Edison argues that all this provision did was to “eliminate a judicially-created *remedy* for violations of search and seizure provisions of the federal or state Constitutions, through the exclusion of evidence so obtained, except to the extent that exclusion remains federally compelled.” (37 Cal.3d at 886-887.) But, Edison continues, that change to evidentiary rules does not justify giving permission to law enforcement personnel to conduct free-roving inquiries into the information that utilities must maintain on their customers:

“[W]hether or not a criminal defendant could preclude the use at trial of evidence obtained without legal process is irrelevant to the question of whether law enforcement can require utilities to produce that information without such process of law. A customer of [Edison] for whom a narcotics officer seeks information may be a criminal suspect but is not yet a criminal defendant. Using [CNOA’s] logic and interpretation of the Crime Victims’ Bill of Rights would vitiate all protections against unreasonable search and seizure and mean that narcotic officers never need to obtain search warrants or subpoenas for any purpose.” (Edison Response, pp. 4-5.)

Finally, Edison notes that the Narcotic Officers are asking the Commission to add language to D.90-12-121 providing that “a law enforcement agency may request and *shall receive* “ customer information from utilities, without citing any authority justifying such an order. Edison contends this is a fatal omission, because Edison “is not aware of any authority given to the Commission to assist law enforcement (or any other third party) by ordering utilities to turn over

information when the reason for production has nothing to do with the utility's or the Commission's business." (*Id.* at 5.)

In its response, SDG&E argues that the petition to modify should be denied because the Commission has already rejected, in D.91-10-036, arguments similar to those made by the Narcotic Officers. SDG&E points out that after D.90-12-121 was issued, PG&E sought modification of the decision on the ground that the utility should be permitted to release customer information to law enforcement authorities in the absence of legal process "in emergency situations where public safety is jeopardized." As examples of such emergencies, PG&E cited "unpredictable events such as natural disasters, fires, explosions, criminal activities where the possibility of imminent violence or harm exists, hostage situations, and fugitive situations where a felon might be expected to flee or resist."

The Commission denied PG&E's petition in D.91-10-036, concluding that PG&E had failed to offer any evidence that the subpoena requirement would lead to unacceptable delays in emergencies, and also pointing out that "PG&E does not propose any controls to insure that an emergency condition actually exists or justify why its customer information policy should be different from the standard practice of other California energy utilities." (*Mimeo.* at 3.) In SDG&E's view, the Narcotic Officers' arguments for eliminating the requirement of legal process are similar to those considered in D.91-10-036, and SDG&E faults the Narcotic Officers for failing to mention this decision in their petition. SDG&E also argues that the relief sought in the petition is contrary to the emphasis on

customer privacy protections in recent Commission proceedings such as I.00-02-004.³ (SDG&E Response, pp. 2-3.)

In its response, Verizon argues that in addition to the Narcotic Officers' failure to comply with Rule 47(d), their long delay in seeking modification of D.90-12-121:

“. . . casts serious doubt on the very rationale for modification. CNOA states that D.90-12-121 ‘has constrained law enforcement’s ability to investigate criminal activity in a timely manner.’ If indeed the problem were as pressing as stated, CNOA would have sought relief sooner. Indeed, the common practice of virtually all California utilities well prior to the issuance of D.90-12-121 has been to release customer information only pursuant to lawful process.” (Verizon Response, p. 2.)

Verizon notes that the requirement of legal process before customer information is released to law enforcement has been in place for telecommunications companies since at least 1981, when D.92860 (5 CPUC2d 745) was decided. Further, Verizon points out, insofar as the Narcotic Officers may also be seeking a change in the tariffs of telecommunications companies, such relief would violate Pub. Util. Code § 2891, which prohibits the release without the customer’s consent of information such as the customer’s credit history and

³ In I.00-02-004, which is popularly known as the Telecommunications Customer Bill of Rights proceeding, the Commission’s Telecommunications Division has proposed that the following general privacy policy apply across the industry:

“Consumers have a right of personal privacy, to protection from unauthorized use of their records and personal information, and to reject intrusive communications and technology.” (OII, *Mimeo.* at 4.)

Comments were submitted in response to the proposals of the Telecommunications Division on April 17, 2000, and reply comments on June 2, 2000. Public participation hearings regarding the proposals were held at 13 locations around California between June 15 and September 18, 2000. A proposed decision is being drafted.

calling patterns, except under circumstances including “information provided to a law enforcement agency in response to lawful process.” (Verizon Response, pp. 2-3.)

The ACLU’s response enlarges upon Edison’s arguments about why the Victims’ Bill of Rights does not support the relief sought by the CNOA. The ACLU points out that the protections against unreasonable searches and seizures inherent in the privacy clause of the California Constitution (Article I, § 13) are broader than their counterparts in the Fourth Amendment to the federal Constitution, and argues that:

“... the California Supreme Court [has] established that people do not relinquish the privacy of personal information by opening accounts with companies that furnish basic financial, residential and communication services. Thus, banks, public utilities, and credit card companies may not release customer information to law enforcement authorities in absence of valid, judicially-supervised, legal process.” (ACLU Response, p. 1.)

After quoting *Lance W.*’s holding that Proposition 8 merely eliminated the *remedy* of excluding trial evidence obtained in violation of state constitutional search standards, the ACLU continues:

“Thus, if a public utility were to release customer information to law enforcement officials acting without a warrant, the information would not be excluded from a subsequent criminal trial, but the disclosure would constitute a clear violation of the California Constitution. (*Id.* at 3.)

Unlike the other parties who filed responses, PG&E does not flatly oppose the type of relief sought by the Narcotic Officers. Although the company opposes the specific language changes proposed in CNOA’s petition, PG&E – after noting its own unsuccessful petition for modification that resulted in D.91-10-036 – argues that it is time for the Commission to reexamine the question

of when law enforcement agencies should be provided with customer information in the absence of legal process:

“PG&E is sympathetic to the concerns raised by CNOA in regard to the difficulties facing law enforcement agencies and recognizes that there are situations where a limited exception to the subpoena requirement may be warranted. However, PG&E takes its role in protecting the confidential information of its customers very seriously. PG&E does not think it is appropriate, based solely on the Petition filed by the CNOA, to overturn the long standing policy established in Decision 90-12-121 to ‘require release of information to law enforcement agencies only pursuant to legal process.’ While the concerns of law enforcement certainly deserve a fair hearing, the interests of customers in maintaining the privacy of the confidential information they provide to utilities should receive careful consideration by the Commission prior to modifying the current process.” (PG&E Response, pp. 1-2; footnote omitted.)

PG&E continues that any new rules adopted by the Commission should be applied uniformly to all utilities, and should include very specific requirements as to (1) what information can be released, (2) what form the request for information should take, and (3) to whom within the utilities such requests should be submitted. (*Id.* at 3-4.)

Discussion

After careful consideration of the parties’ arguments, we agree with Edison, SDG&E, Verizon and the ACLU that the Narcotic Officers have not made an adequate case for modifying D.90-12-121. As Verizon points out, it has been the policy of this Commission for two decades that telecommunications utilities should not release customer credit information or calling records to law

enforcement agencies without a warrant or subpoena⁴, and this requirement is now reflected in several statutes applicable to both telecommunications and energy utilities.

When D.90-12-121 was issued in 1990 (nearly a decade after D.92860), all of the energy utilities except PG&E required a warrant or subpoena as a precondition to releasing customer information. As the Narcotic Officers concede, D.90-12-121 merely required PG&E to bring its practices into conformance with these other utilities. Until now, no law enforcement agency or group has complained to the Commission that this basic procedural requirement imposes an undue burden on its activities.⁵

⁴ In our 1981 ruling, D.92860, which formally imposed the requirement of a search warrant or judicially-approved subpoena as a precondition to the release by telephone companies of credit information or calling records, we said:

“As a matter of policy and practice almost all telephone companies in the state release calling records and credit information only in response to legal process. We think the telephone companies’ present practices are reasonable but that the practices should be published as a tariff rule to give them sanction and to protect consumers from any slackening in the standards. Representatives of practically all state and local law enforcement agencies who testified at the hearing indicated that securing a search warrant as a condition to obtaining such information did not present a problem to their agencies.” (5 CPUC2d at 762; footnote omitted.)

⁵ In the comments on the proposed decision that it submitted on June 28, 2001, CNOA takes issue with the statement that “until now, no law enforcement agency or group has complained” that the requirements of D.90-12-121 impose an undue burden on law enforcement activities. To the contrary, CNOA argues, the Los Angeles District Attorney, the California Peace Officers’ Association, the California Police Chiefs’ Association and the California State Sheriffs’ Association have “at various times over the years, . . . either singly or in concert . . . sought legislative remedy to [D.] 90-12-121.” (CNOA Comments, p. 3.)

Even if the attempts to overturn the requirements of D.90-12-121 through legislation have been as numerous as claimed, CNOA’s argument is beside the point for several reasons. First, as noted in the text, PG&E is the only party who until now has sought to obtain modification from this Commission of D.90-12-121. Second, CNOA did not discuss any of the legislative initiatives by law enforcement groups in its petition to modify D.90-12-121, or in the reply that

Footnote continued on next page

The principal justification that the Narcotic Officers have presented for modifying the requirement of legal process for PG&E -- a justification that, if accepted, would logically seem to apply to the activities of all other utilities⁶ -- is that this requirement is inconsistent with Proposition 8, the Crime Victims' Bill of Rights, the relevant portion of which is now set forth in Article I, § 28(d) of the California Constitution.

The language of Article I, § 28(d) is straightforward. It provides in full:

“Except as provided by statute hereafter enacted by a two-thirds vote of the membership in each house of the Legislature, relevant evidence shall not be excluded in any criminal proceeding, including pretrial and post conviction motions and hearings, or in any trial or hearing of a juvenile for a criminal offense, whether heard in juvenile or adult court. Nothing in this section shall affect any existing statutory rule of evidence relating to privilege or hearsay, or Evidence Code, sections 352, 782, or 1103. Nothing in this section shall affect any existing statutory or constitutional right of the press.”

As the U.S. Supreme Court noted in *California v. Greenwood*, 486 U.S. 35, 44 (1988), the practical effect of Proposition 8 has been to “eliminat[e] the exclusionary rule for evidence seized in violation of state but not federal law.” However, Proposition 8 does not *authorize* such seizures. As the California Supreme Court noted in *In re Lance W.*, “what would have been an unlawful search or seizure in this state before the passage of [Proposition 8] would be

it submitted on November 20, 2000. Third, CNOA has not provided any details in its comments about any of these legislative initiatives.

⁶ Indeed, in the reply that it filed in support of its petition on November 20, 2000, CNOA states that it agrees the modifications it is seeking to D.90-12-121 should not be limited to PG&E. Rather, CNOA requests that the decision “be modified in such a way as to require all energy utilities to provide the requested user information without the necessity of legal process.” (CNOA Reply, p. 6.)

unlawful today, and this is so even if it would pass muster under the federal Constitution.” (37 Cal.3d at 886.)

While our District Courts of Appeal have consistently applied Proposition 8 to uphold the admission of trial evidence seized in violation of state constitutional standards (as long as federal standards under the Fourth Amendment are satisfied)⁷, these courts have been reluctant to rely upon Proposition 8 in non-criminal contexts. For example, in *Gordon v. Superior Court*, 55 Cal.App. 4th 1556 (1997), an attorney whose checkbooks and other financial records had been seized pursuant to a warrant obtained by the Department of Insurance requested that the records be sealed, pursuant to a procedure authorized in § 1524(c) of the Penal Code.⁸ When the attorney learned several months later that -- unbeknownst to him -- the records had been unsealed, he filed a motion seeking return of the records and a declaration that the unsealing had been improper.

The trial court denied relief, but the Second District Court of Appeal found that § 1524(c) had not been complied with and issued a preemptory writ of mandate. After noting that only one of the 326 checks and stubs seized pursuant to the warrant was payable to someone named in the warrant, the Court of

⁷ For a concise discussion of how Proposition 8 has affected California law, see Kelso & Bass, *The Victims' Bill of Rights: Where Did It Come From and How Much Did It Do?*, 23 PACIFIC L.J. 843 (1992) and Kelso & Bass, *Significant Cases Interpreting Proposition 8*, 23 PACIFIC L.J. 1287 (1992). Briefer discussions of the impact of Proposition 8 on California law can be found in I Witkin, CALIFORNIA EVIDENCE 4th Ed., “Introduction” §§ 7-9; IV Witkin & Epstein, CALIFORNIA CRIMINAL LAW 3d Ed., “Illegally Obtained Evidence” § 13.

⁸ Under Penal Code § 1524(c), when a warrant is issued for records that are in the possession of a lawyer, physician, psychotherapist or clergyman, and that professional is not suspected of criminal activity related to the records, the warrant must be served in the presence of a special master. If the professional served with the warrant states that the records seized should not be

Footnote continued on next page

Appeal rejected the argument that Proposition 8 served to excuse non-compliance with § 1524(c), and directed the trial court to rule on the attorney's privilege and other claims:

“The District Attorney contends the checks are not privileged. He says ‘no harm, no foul,’ and relies on *United States v. Miller* (1976) 425 U.S. 435 . . . , where the court held there was no reasonable expectation of privacy in checks that were voluntarily conveyed to a bank in the ordinary course of business . . . The District Attorney concedes there is California law to the contrary . . . , but insists that [under Proposition 8,] federal constitutional standards must now be applied . . . Implicit in the District Attorney's argument is the assumption that we are dealing with a criminal case. He is mistaken.

“With the possible exception of Charles Smith . . . , Gordon's clients were not targeted by the criminal investigation that resulted in the issuance of the warrant for the search of Gordon's office. Insofar as we know (and insofar as it is relevant to this proceeding), there are no criminal charges pending against Gordon or his clients. The fact that Gordon's records were seized as part of a criminal investigation of others does not mean Gordon can be treated as a criminal. Indeed, the special master provisions of subdivision (c) of section 1524 apply only where the attorney is ‘not reasonably suspected’ of any criminal activity. Accordingly, Proposition 8 has nothing to do with the price of tomatoes . . . The only issues here are the attorney-client privilege and the clients' rights of privacy.” (55 Cal. App. 4th at 1556; citations and footnote omitted.)

While the utility customers on whom the Narcotic Officers want information do not have privilege claims like those in *Gordon*, they do enjoy privacy rights based on Article I, § 13 of the California Constitution. The California Supreme Court has held, for example, that telephone customers reasonably expect that the numbers they call from their homes are private, and

disclosed, the special master is obliged to seal the records and take them to court for a hearing on any claims of privilege or other grounds that the professional may assert.

will be used by the telephone company only for billing purposes. Thus, when a record of these telephone numbers is provided to law enforcement agencies without legal process, the customers' privacy rights under Article I, § 13 are violated. *People v. Blair*, 25 Cal.3d 640, 653-54 (1979). Similarly, the Court has held that persons with unlisted telephone numbers have a reasonable expectation that their names and addresses will remain confidential, and that when this information is disclosed to law enforcement personnel without a warrant, the customers' rights under Article I, § 13 are violated. *People v. Chapman*, 36 Cal.3d 98, 108 (1984).⁹ While the Narcotic Officers are correct that Proposition 8 now makes customer information obtained in violation of these decisions admissible in criminal trials¹⁰, the holdings in *Blair* and *Chapman* counsel that, like the court in *Gordon*, we should be reluctant to rely on Proposition 8 outside the context of a criminal trial, especially when the proposed conduct would clearly contravene decisions of our Supreme Court.¹¹

⁹ In its June 28, 2001 comments on the proposed decision, CNOA seeks to distinguish the *Blair* and *Chapman* rulings on the ground that the information CNOA seeks—the date utility service was instituted, as well as the customer's address, prior address, and place of employment—is of a "minimalist nature," and far less sensitive than the information at issue in *Blair* and *Chapman*. (CNOA Comments, p. 2.)

We continue to find this argument unpersuasive. While some utility customers might not expect their current address to remain private, we think most customers would consider the other information CNOA seeks to be private, and not subject to disclosure except pursuant to legal process.

¹⁰ In *People v. Rooney*, 175 Cal.App.3d 634, 648 (1985), in ordering a complaint for bookmaking to be reinstated, the Second District Court of Appeal held that under Proposition 8, information on telephone customers obtained in violation of *Chapman* was nonetheless admissible.

¹¹ There is apparently some anecdotal evidence that Proposition 8 has led to more expansive police conduct. See Brown, *Proposition 8: Origins and Impact-A Public Defender's Perspective*, 23 PACIFIC L.J. 881, 894-95 (1992) (discussing Christopher Commission report on Los Angeles City Police practices at the time of the Rodney King arrest).

Our reluctance to rely upon Proposition 8 as grounds for modifying D.90-12-121 is increased by the fact that in recent years, statutes protecting the confidentiality of various types of utility customer information have been enacted by the Legislature. The most extensive restrictions are contained in Pub. Util. Code § 2891, subsection (a) of which provides that “no telephone or telegraph corporation shall make available to any other person or corporation, without first obtaining the residential subscriber’s [written] consent,” information including personal calling patterns, credit or financial information, services the subscriber purchases, and demographic information from which individual identifying characteristics have not been removed. Subsection (d)(6) does contain an exception to this prohibition for information requested by law enforcement agencies, but the exception states that the information must be provided “in response to lawful process.”

Confidentiality legislation also applies to electricity customers. For example, as part of the electric restructuring legislation passed in 1997, Pub. Util. Code § 394.4(a) directed the Commission to adopt a minimum standard for the confidentiality of customer information obtained by electric service providers. The standard provides that “customer information shall be confidential unless the customer consents in writing. This shall encompass confidentiality of customer specific billing, credit, or usage information.”¹² And while Pub. Util. Code § 588, enacted in 1994, empowers inspectors and investigators in child abduction cases to obtain specified utility customer information without a warrant or subpoena in cases where the inspector or investigator has a “reasonable, good faith belief that the utility customer information is needed to

¹² The Commission adopted rules implementing the minimum standards of § 394.4(a) in Ordering Paragraph 1 of D.97-10-031.

assist the inspector or investigator in the location or recovery of [the] minor child or abductor,” the statute provides that only specifically-designated inspectors or investigators may seek this information, requires the inspector or investigator to submit an affidavit of probable cause supporting the request to the utility, and requires the utility to retain such affidavits for at least one year.¹³

In addition to the strong policy favoring customer privacy that is reflected in these statutes, we agree with Edison and Verizon that CNOA has not adequately explained why it waited nearly a decade after the issuance of D.90-12-121 to seek modification of the decision. While CNOA stresses that no law enforcement agency was a party to the List OII or was made aware of

¹³ As noted in the text, even though CNOA does not specifically mention Pub. Util. Code § 588, its petition proposes to modify D.90-12-121 by adding language that in many respects would track the provisions of § 588. (Petition to Modify, pp. 7-9.) On February 19, 2001, the California Attorney General sent a letter to President Lynch and the other Commissioners endorsing this idea.

We have decided for several reasons that the invitation to replace our current customer privacy policies with a modified version of § 588 should be declined. First, § 588 carved out an exception to our current policies only in cases dealing with “kidnapping, abduction, concealment, detention, or retention” of a minor child. Such cases usually present emergency situations, as evidenced by the requirement in § 588(b)(6) that the affidavit of probable cause must “contain a statement of exigent circumstances, explaining why the inspector or investigator could not seek and obtain a search warrant . . . or other court process for the production of the information sought.” The Narcotic Officers, in contrast, want authority to obtain customer information without legal process for their everyday work, and do not propose to state in the declaration supporting the request why it is infeasible to obtain a warrant or other legal process.

Second, the bill that added § 588 to the Pub. Util. Code, AB 2333 (Stats. 1994, Ch. 112), also added § 2112.5, which makes willful violations of § 588 a misdemeanor punishable by a penalty of between \$500 and \$2000 per offense. This indicates to us not only that the Legislature intended to carve out a very limited exception to our existing privacy policies, but included penalty provisions to ensure that the procedural safeguards included in § 588 were strictly complied with. CNOA is not proposing to follow the same strict procedures laid out in § 588, and even if it were, we have no authority to penalize entities other than public utilities for failure to follow such procedures.

D.90-12-121 at the time of its issuance, CNOA does not contend that it was unaware of the PG&E tariff changes that resulted from D.90-12-121, which went into effect in December of 1991.¹⁴ With respect to the period since then until the filing of its petition to modify¹⁵, CNOA merely asserts that D.90-12-121 has “constrained law enforcement’s ability to investigate criminal activity in a timely manner.” (Petition To Modify, p. 3.)

This assertion is inadequate for two reasons. First, as both Edison and Verizon point out, it does not satisfy the requirements of Rule 47(d), which requires any party who does not submit its petition to modify within one year after a decision is issued to “explain why the petition could not have been presented within one year of the effective date of the decision.” Second, as Verizon puts it, “the severe staleness of [CNOA’s] petition casts serious doubt on the very rationale for modification. . . . If indeed the problem [for law enforcement] were as pressing as stated, CNOA would have sought relief sooner.” (Verizon Response, p. 2.)

Finally, we note that PG&E – while urging denial of the specific relief sought by CNOA – argues that it is time to reconsider our rules on the circumstances under which customer information can be provided to law enforcement agencies. While PG&E has offered some justifications for doing so,

¹⁴ The tariff changes did not go into effect until December of 1991 because of the petition that PG&E filed seeking modification of D.90-12-121. Although that petition was denied in D.91-10-036, the ordering paragraph in D.91-10-036 effectively gave PG&E until early December of 1991 to file the necessary tariff changes.

¹⁵ It should be noted that CNOA first attempted to file its petition for modification in December of 1999. However, because such a long period of time had elapsed between the issuance of D.90-12-121 and the petition to modify, the assigned Commissioner and assigned Administrative Law Judge directed the Narcotic Officers, pursuant to Rule 47(c), to serve their petition on a special augmented service list.

it is clear that the task would be a time-consuming one, and that substantial Commission resources would have to be invested at precisely the time when the electricity crisis is, of necessity, consuming the lion's share of our attention. Because neither CNOA nor PG&E has demonstrated that the current rules are not working adequately, we decline the suggestion that we should reconsider these rules in the near future.

Comments on Draft Decision

The draft decision of the ALJ in this matter was mailed to the parties in accordance with Pub. Util. Code § 311(g)(1) and Rule 77.7 of the Rules of Practice and Procedure. CNOA submitted comments on June 28, 2001. The significant points raised in these comments are discussed at appropriate places in the text.

Findings of Fact

1. The requirement that telecommunications utilities not release customer information to law enforcement agencies in the absence of legal process (i.e., a warrant or subpoena) was imposed in D.92860.
2. By the time D.90-12-121 was issued, all energy utilities in California except PG&E had also adopted the practice of not releasing customer information to law enforcement agencies in the absence of legal process.
3. On March 8, 1991, PG&E filed a petition for modification of D.90-12-121, which sought permission to release customer information to law enforcement agencies without legal process in emergency situations.
4. PG&E's petition for modification of D.90-12-121 was denied in D.91-10-036.
5. No law enforcement agency or group other than CNOA has contended before the Commission that its work has been significantly impaired by the requirement of D.90-12-121 that customer information not be released to law enforcement agencies in the absence of legal process.

6. In recent years, the California Legislature has enacted a number of measures that protect the privacy of customer information held by both electric and telecommunications utilities.

7. In view of the Commission's other responsibilities, it would not be a good use of our scarce resources in the near future to conduct a proceeding to reconsider the circumstances under which customer information should be provided to law enforcement agencies.

Conclusions of Law

1. The practical effect of Proposition 8, the relevant part of which is set forth in Article I, § 28(d) of the California Constitution, has been to eliminate the exclusionary rule in criminal proceedings for evidence seized in violation of California law but not federal law.

2. Proposition 8 does not authorize searches and seizures that violate California law; it merely makes the fruits of such searches and seizures admissible in criminal proceedings, provided that federal law is complied with.

3. Few if any courts have been willing to give effect to Proposition 8 outside the context of criminal proceedings.

4. In view of the decisions referred to in Conclusion of Law (COL) 3, it would be unwise for this Commission to give Proposition 8 a broader effect than the effect described in COL 1.

5. CNOA has failed to demonstrate that the prohibition on releasing utility customer information to law enforcement agencies in the absence of legal process has significantly impaired such agencies from carrying out their duties.

6. CNOA has not satisfactorily explained why it waited at least eight years to file its petition for modification of D.90-12-121.

7. CNOA's petition for modification of D.90-12-121 should be denied.

O R D E R

IT IS ORDERED that:

1. The petition for modification of Decision 90-12-121 filed on August 30, 2000 by the California Narcotic Officers' Association is denied.
2. This proceeding is closed.

This order is effective today.

Dated July 12, 2001, at San Francisco, California.

SMUD announces \$50 million grant to support advanced smart grid technologies

Give feedback

Today, SMUD announced it's been awarded a \$50 million grant from the Department of Energy Grid Deployment Office's Grid Resilience and Innovation Partnership program (GRIP) for new technologies to increase reliability, efficiency and flexibility of the electric grid.

SMUD's Connected Clean PowerCity® project includes a cost share of \$100 million and encompasses a number of technology-enhancing projects that accelerate renewable integration of the following components over the next 5 years:

- **Grid-Edge Intelligence:** Deploy up to 200,000 next generation smart meters and Distributed Intelligence applications to enable advanced DI at the grid-edge.
- **Advanced Distribution Management Systems:** Deploy Advanced Distributed Energy Resource Management System (DERMS) features with centralized artificial intelligence and integrate Distributed Energy Resources (DERs) to support the transition from a one-way centralized distribution system to a two-way decentralized system. Deploy up to 100 miles of fiber optic cable to facilitate deployment and improve DERMS situational awareness, control and data quality.
- **Outage Management System (OMS) Modernization:** Implement a new OMS with advanced features to enable operational efficiencies and better customer experience through improved communication, grid automation and modernization.
- **Enabling Technologies:** Deploy up to 22,500 intelligent, 2-way load control switches/sensors to cycle air conditioning load on/off during grid emergencies. Deliver 5/15 minute interval data availability for commercial/residential customers.

In collaboration with the Wilton Rancheria Tribe of Miwok Indians, SMUD will work with the Tribe to holistically evaluate building electrification opportunities and the integration of solar, storage and electrification on Tribal lands into the regional grid.

When we set our ambitious goal to reach zero carbon emissions by 2030, I said that we couldn't do it alone. I said that we would rely on partnerships and grants to ensure that we could scale new and emerging technologies, while keeping our rates low," said SMUD CEO & General Manager Paul Lau. "This partnership is the perfect example of how we can work together toward a renewable and resilient grid that supports a decarbonized future. I'm proud that we're continuing to demonstrate our thought leadership in grid modernization."

The 5-year project will start with new smart meter technology for 200,000 homes. Main construction and implementation of the first phase will happen within the first two years, and then the projects will roll-out in a phased approach in accordance with DOE contract specifications.

Here in Sacramento, SMUD is a community pillar whose industry-leading work is accelerating our progress towards a clean energy future. That's why I have been such a strong, long-time advocate for bold federal investments in their innovative programs," said Congresswoman Doris Matsui. "In the face of extreme weather and a worsening climate crisis, this \$50 million dollar grant will allow SMUD to leverage new technology and create a smarter, more resilient grid. I am particularly pleased to see the partnership between SMUD, the U.S. Department of Energy, and Wilton Rancheria, empowering our tribal communities to lead the energy transition. Together, we can deliver reliable, affordable power to our region for years to come."

Thanks to the funding from the Bipartisan Infrastructure Law, our region will be able to continue making huge steps in grid modernization and work towards a zero-carbon economy," said U.S. Representative Ami Bera. "With the increasing impact of climate change and severe weather events, we are building a Sacramento County that is more resilient and better equipped for the future."

The framework of advanced technologies will enhance the capability of our meters and allow for better and increased integration to the grid. The two-way technologies will enable SMUD to precisely manage resources during severe weather events to enhance reliable electric service. SMUD will work with Itron, Open Systems International, Inc. as a technical partner to help accelerate the integration.

About SMUD

As the nation's sixth-largest, community-owned, not-for-profit electric service provider, SMUD has been providing low-cost, reliable electricity to Sacramento County for more than 75 years. SMUD is a recognized industry leader and award winner for its innovative energy efficiency programs, renewable power technologies and for its sustainable solutions for a healthier environment. SMUD's power supply is on average about 50 percent carbon free and SMUD has a goal to reach zero carbon in its electricity supply by 2030.

Respondents/Defendants.

Case No.: 34-2022-80004019

**DECLARATION OF GEORGE
PARSONS**

Declaration of George Parsons

I, George Parsons, hereby declare as follows:

1. I am a Sheriff Sergeant at the Sacramento Sheriff's Office. The Sacramento Sheriff's Office contracts with the City of Rancho Cordova for police services, and during 2020, I was assigned to the City of Rancho Cordova Police Department's Problem-Oriented Policing team, as the Marijuana Enforcement Officer (MEO).

2. On or about late July 2020, I received Deputy Daniel Heaton's files. Mr. Heaton was leaving his role as part of the Problem-Oriented Policing team for the City of Rancho Cordova. Among the information I received was information that Mr. Heaton had obtained from SMUD about Brian R. Decker.

3. On or about July 24, 2020, I sent a Customer Information Request Form to SMUD asking for additional information about Mr. Decker's home. Attached as **Exhibit 1** is a true and correct copy of the completed Customer Information Request Form I sent and received from SMUD, with SMUD having filled in the information about Mr. Decker's and surrounding residence's power usage.

4. On or about October 8, 2020, I sent a Customer Information Request Form to SMUD asking for additional information about Mr. Decker's home. Attached as **Exhibit 2** is a true and correct copy of the completed Customer Information Request Form I sent and received from SMUD, with SMUD having filled in the information about Mr. Decker's and surrounding residence's power usage.

5. On or about late October 2020, I prepared an affidavit in support of a search warrant for Mr. Decker's home. Attached as **Exhibit 3** is a true and correct copy of my affidavit and the search warrant.

1 I declare under penalty of perjury under the laws of the State of California that the
2 foregoing is true and correct and that this declaration was executed on July 9, 2025, at
3 Sacramento County, California.

Search Warrant # _____
(Issued Upon Return)

STATE OF CALIFORNIA - COUNTY OF SACRAMENTO

SEARCH WARRANT AND AFFIDAVIT (AFFIDAVIT)

Deputy George Parsons #1200, swears under oath that the facts expressed by him in the in the attached and incorporated statement of probable cause, are true and that based thereon he has probable cause to believe and does believe that the property described below is lawfully seizable pursuant to Penal Code Section 1524, as indicated below, and is now located at the location(s) set forth below. Wherefore, affiant requests that this Search Warrant be issued.

A handwritten signature in black ink, appearing to be "G. P.", written over a horizontal line.

Signature of Affiant (After having been sworn)

NIGHT SEARCH REQUESTED: ☐ YES ☒ NO

Reviewed by **Shauna Franklin**, a Deputy District Attorney with the Sacramento County District Attorney's Office.

(SEARCH WARRANT)

THE PEOPLE OF THE STATE OF CALIFORNIA TO ANY PEACE OFFICER IN THE COUNTY OF SACRAMENTO: proof by affidavit having been made before me by **Deputy George Parsons #1200**, that there is probable cause to believe that the property described herein may be found at the locations set forth herein and that it is lawfully seizable pursuant to Penal Code Section 1524 as indicated below by "X"(s) in that:

 X It tends to show that a felony has been committed or that a particular person has committed a felony.

 X The property or things to be seized are controlled substances or a device, contrivance, instrument, or paraphernalia used for unlawfully using or administering a controlled substance pursuant to the authority described in Section 11472 of the Health and Safety Code.

 X It is possessed by a person with the intent to use it as means of committing a public offense or is possessed by another, to whom he or she may have delivered it for the purpose of concealing it or preventing its discovery

YOU ARE THEREFORE COMMANDED TO SEARCH:

THE FOLOWING LOCATION:

The property located at [REDACTED] **Rancho Cordova, CA 95670** which is in the City of Rancho Cordova and the County of Sacramento, California (CA). **(See below image for further)**

Also to include a single family two story residence, which is located on this property. The front of the residence is two-tone and is brown and tan in color. The roof of the residence is a light tan color. There are multiple solar panels on the roof, which are visible from the street. The gutters at the bottom of the roof are a tan color. The front door of the residence faces west and is white in color. The front door is recessed underneath the roof.

To the south of the front door is a rectangular two-pane windows which face west toward the lawn of the residence and the roadway. To the left and right of the window

are two brown window shutters, and the wall is comprised of tan rocks. There is a walkway which leads west from the front door toward the garage and roadway.

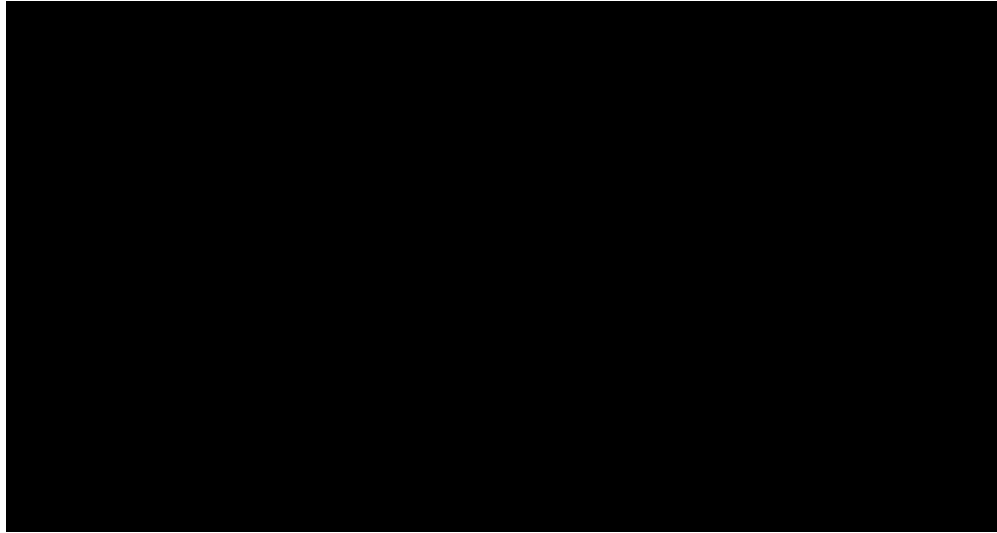

At the northwest of the structure is a two-car garage. The door of the garage is tan in color. The border surrounding the garage is white in color. To the north of the garage there are numbers affixed to the wall. Horizontally (left to right) the numbers read [REDACTED]. The numbers are black in color affixed to a white out door light. To the west of the garage, in the northwest portion of the property, is a driveway composted of concrete. To the south of the driveway, at the southwest portion of the property, is a lawn. In the middle of the lawn is a tree. **(See below image for further)**

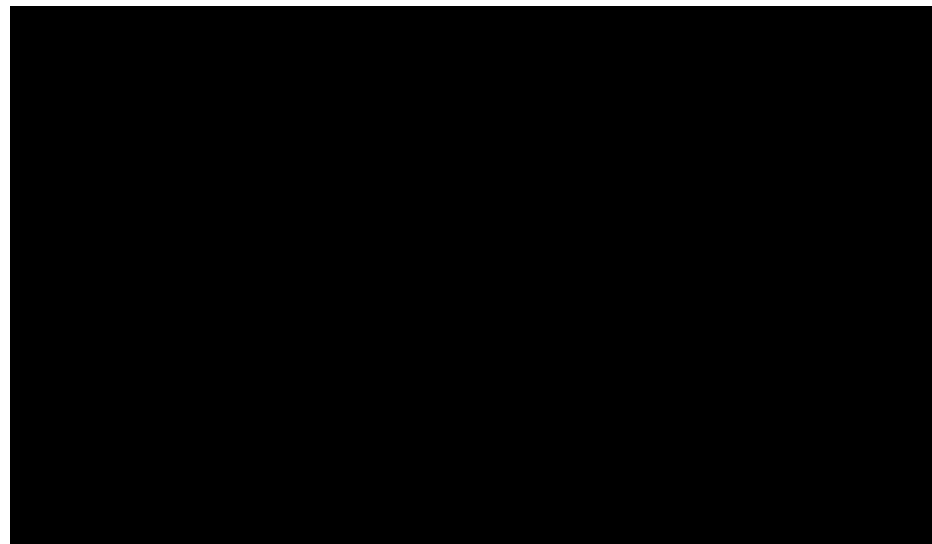

Also to include all attics, basements, and other parts therein, and surrounding grounds, garages, out buildings, storage sheds, storage lockers, garbage cans, containers, and out buildings of any kind located or belonging to the premises of [REDACTED] **Rancho Cordova, CA 95670.**

THE FOLLOWING PERSON(S):

Brian Ray DECKER, ([REDACTED]), described as a white male, who was born on [REDACTED] and is approximately 30 years of age, approximately five feet and ten inches tall, weighing approximately 140 pounds, who is believed to have brown hair, hazel eyes, and can be identified via California driver's license [REDACTED].

Christopher Lee RANNACHER ([REDACTED]), described as a white male adult, who was born on [REDACTED] and is approximately 34 years of age, approximately five feet and nine inches tall, weighing approximately 175 pounds, who is believed to have brown hair, blue eyes, and can be identified via California driver's license [REDACTED].

Any person(s) who are witnessed at the residence during the service of this warrant, who show to have control of the residence observed by possession of keys, mail and/or other documents addressed to the person, or by the persons' self-admission.

THE FOLLOWING VEHICLES:

A **white colored** [REDACTED], assigned California license plate [REDACTED] which is registered through the California Department of Motor Vehicles to [REDACTED], [REDACTED] at the address of [REDACTED] **Rancho Cordova, CA 95742.**

[REDACTED]

A [REDACTED], assigned California license plate [REDACTED], which is registered through the California Department of Motor Vehicles to [REDACTED] at the address of [REDACTED], **Rancho Cordova, CA 95742**

[REDACTED]

A [REDACTED], assigned California license plate [REDACTED], which is registered through the California Department of Motor Vehicles to [REDACTED], [REDACTED] or [REDACTED] at the address of [REDACTED], **Rancho Cordova, CA 95742.**

[REDACTED]

Any and all vehicles under the immediate care, access, and control of occupants at the property at the time this warrant is served, as evidenced by DMV registration information, possession of keys to the vehicle, actual use of the vehicle, witness statements or admissions.

FOR THE FOLLOWING PROPERTY:

Marijuana, concentrated cannabis including Hashish oil, and cannabis tincture and, marijuana derivatives and edibles; and paraphernalia used for its ingestion, including pipes, cigarette rolling papers, sifters, alligator clips and bongs; items used for preparing marijuana for street sales and/or storage, including plastic bags, film canisters, scales and other measuring devices; items used for cultivation, including marijuana seeds, grow lights, potting soil, containers for planting, chemicals and fertilizers for the stimulation of marijuana growth, pruning and gardening tools; articles of personal property tending to establish and document use, sales, transportation and cultivation of marijuana, consisting of buyer lists, seller lists, recordation of sales, books and pamphlets containing instructions for cultivation; articles of personal property tending to establish the existence of a conspiracy to use, sell, transport and cultivate marijuana including personal telephone books, address books, telephone bills, papers and documents containing lists of names, addresses and phone numbers of narcotics customers, other known cultivators and suppliers of cultivation paraphernalia; articles of personal property tending to establish the identity of persons in control of the premises, vehicles, storage areas and containers being searched including the utility company receipts, rent receipts, addressed envelopes, keys and photographs of the defendant(s) and associates.

Items such as seeds, fertilizer, irrigation devices, garden tools, growing containers, electrical devices which aid in the growth of marijuana plants, such as fans, timers, pumps, ballast, lights, climate control devices, generators, and books or instructional manuals to aid in the growing of marijuana. Processed marijuana, scales and other measuring devices, paper bindles, plastic bindles, small Ziploc plastic bags, sandwich baggies, plastic coin bags, (used in the preparation of marijuana for sale and storage); articles of personal property tending to establish and document cultivation, sales and transportation of marijuana, including cash, buyer lists, seller lists, and recordation of sales and purchases of marijuana; articles of personal property tending to establish the existence of a conspiracy to cultivate, sell and transport marijuana, including personal telephone books, address books, telephone bills, papers and documents containing lists of names, addresses and phone numbers of narcotic drug customers and suppliers; and articles of personal property tending to establish the identity of persons in control of the premises, vehicles, storage areas and containers being searched, including utility company receipts, rent receipts, addressed envelopes, keys and photographs of the defendant(s) and their associates.

Based on officer safety reasons related to the potential hazards (i.e. possible mold spores and high amounts of mercury contained in the 1000w light bulbs) commonly associated with cultivation equipment, and also the lack of storage availability for the numerous equipment items often located inside indoor marijuana cultivation operations, officers shall seize and/or photograph representative samples of the equipment (i.e. grow lights, ballasts, electrical panels, timers, and blowers).

Firearms and firearms related items such as: cases, cleaning supplies, receipts, ammunition, bills of sale, and bills of transfer. Other weapons of an offensive nature or altered to be utilized as such a weapon.

Any items tending to establish the identity of persons who have dominion and control of the location, premises, automobiles, or items to be seized, including delivered mail, whether inside the location or in the mail box(s), bills, utility bills, telephone bills, miscellaneous addressed mail, personal letters, personal identification, purchase receipts, rent receipts, sales receipts, tax statements, payroll check stubs, keys and receipts for safe deposit box(s), keys and receipts for rental storage space, keys and receipts for post office box or mail drop rentals, ignition keys, car door and trunk keys, vehicle ownership certificates or "pink slips," and/or vehicle registration slips, recordation of voice transmissions on telephone answering machines, audio tapes and telephone message receipt books, and written phone messages, and photographs tending to show occupation of the residence and to obtain messages from the pagers, answering machines, tape recorders, and any other recording devices, and to play such devices to obtain their messages. Any examples of handwriting including letters, address books, business records, canceled checks, notes, and/or lists.

The terms "records", "information", and "property" includes all of the foregoing items of evidence in whatever form and by whatever means that may have been created or stored, including records, whether stored on paper, on magnetic media such as tape, cassette, disk, diskette or on memory storage devices such as optical disks, programmable instruments such as telephones, electronic address books, calculators, or any other storage media, or any other form of writing as defined by Evidence Code section 250, together with indicia of use, ownership, possession, or control of such records, information and property.

Also to include personal computers, consisting of a monitor, keyboard, central processing unit, and/or printer, automated data processing system or subsystems, or electronic diaries, and all forms of data storage medium necessary to access any of the above records or information, whether found on paper, in handwritten type photocopy or printed form, or stored on computer printouts, magnetic tapes, cassettes, disks, diskettes, optical storage devices, or any other medium.

Investigating officers are authorized to seize all cellular telephones, "computer systems," "computer program or software," "digital video recorder (DVR)" systems, and "supporting documentation" as defined by Penal Code section 502, subdivision (b), including any supporting hardware, software, or documentation that is necessary to the use the system or is necessary to recover digital evidence from the system and any associated peripherals that are believed to contain some or all of the evidence described in the warrant.

If marijuana plants are seized from this location, they will be collected as evidence of illegal cultivation and/or possession for sales of marijuana. Per California Health and Safety Code section 11479, five random sub-samples of marijuana along with a two (2)

pound bulk sample of wet marijuana will be collected from each location and booked as evidence. The marijuana found at the scene will be photographed for documentation purposes. Also, the excess marijuana seized would be impractical and unsafe to keep due to the safety and health risk associated with its storage and will be disposed of in a proper manner pursuant to HS 11479.

ADDITIONAL ORDERS:

The court authorizes the use of person(s) who are not peace officers to accompany the Peace Officers during the execution this Search Warrant for the purpose of assisting in the service of this Search Warrant as provided for under California Penal Code Section 1530.

The court authorizes representatives from Sacramento County Code Enforcement, City of Rancho Cordova Code Enforcement, Sacramento County Building Permits and Inspections, Environmental Management Division, Sacramento County Animal Control, Sacramento Municipal Utilities District (S.M.U.D.), Pacific Gas and Electric (PG&E) and any necessary County contractors to be allowed on the premises, as needed, to successfully process and/or document the marijuana grow.

The court authorizes peace officers, or assigned representatives, to video tape, photograph and/or take digital images, at the discretion of the searching officers, inside and outside of the location, any and all items and/or vehicles at the location, in addition, can identify and photograph and/or digital image all persons present at the search warrant location during the period of execution of this search warrant.

AND TO SEIZE IT IF FOUND and bring it forth with before me, or this court, at the courthouse of this court. This Search Warrant and incorporated Affidavit was sworn to and subscribed before me this

_____ Day of _____, 2020 at _____ AM / PM

Wherefore, I find probable cause for the issuance of this Search Warrant and do issue it.

(Signature of Magistrate)
Judge of the Superior Court
Sacramento County Judicial District

NIGHT SEARCH APPROVED: _____ YES X NO

Executed by _____ Date _____ Time _____

Be advised that pursuant to California Penal Code Sections §1539 and §1540, you may file a written motion in the court of the above-mentioned judge who issued the warrant, seeking return of the property seized pursuant to this warrant.

For further information, concerning this search warrant, contact the officer whose name appears on the warrant:
Deputy George Parsons #1200 at (916) 875-9641 Office, (916) 975-9672 Fax Email: gparsons@sacsheriff.com
Sacramento County Sheriff's Office/ Rancho Cordova Police Department
Attn: Deputy George Parsons
2897 Kilgore Road, Rancho Cordova, CA 95670

**AFFIDAVIT OF GEORGE PARSONS
IN SUPPORT OF A SEARCH WARRANT**

I, Deputy George Parsons, your affidavit, have been a sworn peace officer with the Sacramento County Sheriff's Office since May 2012. I graduated from Union Institute & University in 2015 with a Bachelor of Science Degree in Criminal Justice Management. I graduated from Arizona State University in 2019 with a Master of Public Safety Leadership and Administration Degree and a graduate certificate in Corrections Management. I currently possess my Advance POST Certificate from the California Commission on Peace Officer Standards and Training.

I graduated from the basic Peace Officer Standards and Training (POST) academy facilitated by the Sacramento Sheriff Office on August 5, 2010 (10-SBRA-1). The academy consisted of approximately 956 hours of training over a 40-week period. Training included instruction on the laws of crimes and rules of evidence, radio procedures, patrol procedures, defensive tactics, use of firearms and how to investigate crimes such as robbery, burglary, assaults, grand theft, homicide, petty theft, alcohol related, narcotics related and controlled substance violations.

Between May 2012 and May 2016, I was assigned in a corrections capacity at the Sacramento County Main Jail as a Deputy Sheriff. While assigned to the Sacramento County Main Jail, I was selected to be a Jail Training Officer (JTO) and a member of the Custody Emergency Response Team (CERT). Between May 2016 and August 2016, I was assigned to the Sacramento County Sheriff's North Patrol division where I successfully completed over 550 hours of a field training program. During my time in north patrol, I worked across all four patrol districts. In August 2016, I was selected to work in a patrol capacity in the contract city police department of Rancho Cordova. While working patrol, I was selected to be a Field Training Officer (FTO). In July 2020, I was selected to work as the Marijuana Enforcement Officer (MEO) with the RCPD Problem Oriented Policing (POP) team. I have conducted one marijuana cultivation operation, which resulted in the seizure of more than 3,100 marijuana plants and have been a part of no less than three additional illegal marijuana cultivation operations.

As a patrol deputy my primary duties were responding to calls for services, investigating criminal activity, and conducting proactive enforcement when possible. I have investigated various crimes including but not limited to: homicide, rape, robbery, burglary, assaults involving deadly weapons, domestic violence, narcotics violations, identity theft, and auto theft. I regularly conducted proactive traffic enforcement stops. I have been the primary investigating officer in no fewer than 20 investigations and arrests of subjects driving under the influence of drugs and/or alcohol.

I conducted no fewer than one-hundred (100) searches of residences and/or vehicles. These searches include, but were not limited to, search warrants, parole searches, probation searches, searches incident to arrest, and consent searches, many of which resulted in narcotic or violent crime related arrests. I have training and experience from working in patrol on the methodology by which persons involved in criminal activity sell,

distribute, package, and transport narcotics. I learned how to proficiently recognize and test cocaine, methamphetamine, heroin, cannabis and a variety of other illicit drugs.

I read a 186 slide PowerPoint presentation on Indoor Marijuana Grow Expert Testimony by Officer Seth Cimino of the Citrus Heights Police Department. Officer Seth Cimino is a POST certified instructor and well known in the Sacramento region and the state of California for his knowledge of cannabis and cannabis cultivation.

I have attended various trainings regarding criminal street gang organizations, cartel organizations, terrorist organizations, and transnational gang organizations including 24 hours of Gang Awareness, 3 hours of Penal Code 186.22, 2 hours of Gang Validations, 8 hours of Domestic Terrorism, 8 hours of Sovereign Citizen Extremists, 8 hours of Funding Terrorism and Domestic Sex Trafficking, 8 hours of Updated Gangs, and 8 hours of Hispanic Sureno Gangs and the Mexican Mafia. Additionally, I have attended the basic Terrorism Liaison Officer (TLO) course.

I have attended various courses on driving under the influence (DUI) and drug influence detection including 16 hours of DUI and Standardized Field Sobriety Testing Course presented by the California Highway Patrol, 24 hours of Drug Influence and Recognition, 16 hours of Advanced Roadside Impaired Driver Enforcement (ARIDE), and 16 hours of DUI and Standardized Field Sobriety Testing pretend by the Sacramento Sheriff's Office.

This affidavit is intended to show only that there is sufficient probable cause for the requested warrant and does not set forth all of my knowledge about this matter.

STATEMENT OF PROBABLE CAUSE

The following is a summary of the case as compiled in official police reports, from my personal conversations with other law enforcement officers and from my personal observations.

Deputy Heaton sent a law enforcement information request to SMUD Revenue Protection Representative/Power Theft Investigators Robert Duggan and Michael Wolffe for unusually high power usage in the zip code of **95670**. Among the addresses in the return, I observed [REDACTED], **Rancho Cordova, CA 95670**.

Michael Wolff and Robert Duggan are responsible for the investigation of power theft, fraud cases, and high usage investigations for SMUD. Michael Wolff and Robert Duggan have investigated no less than 500 indoor marijuana grows and from their experience with investigating these types of cases, they are familiar with the smell of marijuana, indicators associated with indoor marijuana cultivation, and the type of power usage that is necessary to conduct an indoor marijuana cultivation operation.

On June 25, 2020 Deputy Heaton submitted a "Law Enforcement Customer Information Request" form to the Sacramento Municipal Utility District (SMUD) requesting additional information regarding power usage and customer information at [REDACTED], **Rancho Cordova, CA 95670.**

Customer Name: Brian R. Decker
OLN: Not Provided
SSN: Not Provided
Phone: Not Provided
Service Start date: 07-03-2019
Service End date: Current

The SMUD records indicated the residence at [REDACTED], **Rancho Cordova, CA 95670** has solar power panels and the power usage is as followed:

May 2020 Usage: 4,718 kWh (3,265 kWh generated)
April 2020 Usage: 4,154 kWh (2,844 kWh generated)
March 2020 Usage: 3,970 kWh (239 kWh generated)

The SMUD records indicated the following power usage at two comparable properties located in the same neighborhood as [REDACTED], **Rancho Cordova, CA 95670:**

Comp: [REDACTED]
May 2020 Usage: 338 kWh (357 kWh generated)

Comp: [REDACTED]
May 2020 Usage: 736 kWh (357 kWh generated)

The SMUD record also indicated that approximately **four (4) to five (5) grow lights** were being used on **distinctive cycles between 7:00 PM and 7:00 AM** (approximately 12 hour cycles). Based on my training and experience, I believe this quantity of power usage, coupled with distinctive cycling, is indicative of marijuana cultivation.

On **June 23, 2020** Deputy Heaton conducted surveillance at the target address and observed two vehicles in the driveway and one parked in front of the location.

A [REDACTED], assigned California license plate [REDACTED], which is registered through the California Department of Motor Vehicles to [REDACTED], [REDACTED] the address of [REDACTED], **Rancho Cordova, CA 95742**, was parked in the driveway.

A [REDACTED], assigned California license plate [REDACTED], which is registered through the California Department of Motor Vehicles to [REDACTED] at the address of [REDACTED], **Rancho Cordova, CA 95742**, was parked in the driveway.

A [REDACTED], assigned California license plate [REDACTED] 0, which is registered through the California Department of Motor Vehicles to [REDACTED], [REDACTED] or [REDACTED] at the address of [REDACTED], **Rancho Cordova, CA 95742**, was parked in the street, just north of the location.

In **July 2020**, I took over the investigation from Deputy Heaton.

The SMUD records also indicated "**Brian R. DECKER**" was listed on the SMUD account.

I conducted a records check in the Sacramento County Known Persons Finder (KPF) which revealed a record for **Brian Ray DECKER**, ([REDACTED]). I observed **Brian Ray DECKER** was described as a white male, who was born on [REDACTED] and is approximately 30 years of age, approximately five feet and ten inches tall, weighing approximately 140 pounds, who is believed to have brown hair, hazel eyes, and can be identified via California driver's license [REDACTED].

A records check in the California Department of Motor Vehicles (DMV) database revealed Brian DECKER's DMV address of record was [REDACTED] as of **08/28/2019**. I utilized a reliable law enforcement tool to conduct an internet public records check which revealed Brian DECKER had been associated with [REDACTED] since 2018.

I conducted a records check in the Sacramento County Known Persons Finder (KPF) which revealed a record for [REDACTED] ([REDACTED]). I observed [REDACTED] was described as a white male adult, who was born on [REDACTED] and is approximately 34 years of age, approximately five feet and nine inches tall, weighing approximately 175 pounds, who is believed to have brown hair, blue eyes, and can be identified via California driver's license [REDACTED].

A records check in the California Department of Motor Vehicles (DMV) database revealed [REDACTED] DMV address of record was [REDACTED] as of **05/29/2020**. I utilized a reliable law enforcement tool to conduct an internet public records check which revealed [REDACTED] had been associated with [REDACTED] since October 2019.

A search of the Sacramento County Parcel Viewer revealed the owner of [REDACTED] **Rancho Cordova, CA 95670** as **Brian DECKER** as of **June 28, 2019**.

On **July 24, 2020** I submitted an updated "Law Enforcement Customer Information Request" form to SMUD. I received the following information back:

Customer Name: Brian R. Decker

OLN: [REDACTED]

SSN: [REDACTED]

Phone: Not Provided
Service Start date: 07-03-2019
Service End date: Current

The SMUD records indicated the residence at [REDACTED], **Rancho Cordova, CA 95670** has solar power panels and the power usage is as followed:

June 2020 Usage: **5,266 kWh**

The SMUD record also indicated that approximately **seven (7) grow lights** were being used on **distinctive cycles between 7:00 AM and 7:00 PM** (approximately 12 hour cycles).

On **October 8, 2020** I submitted an updated "Law Enforcement Customer Information Request" form to SMUD. I received the following information back:

Customer Name: Brian R. Decker
OLN: [REDACTED]
SSN: [REDACTED]
Phone: Not Provided
Service Start date: 07-03-2019
Service End date: Current

The SMUD records indicated the residence at [REDACTED], **Rancho Cordova, CA 95670** has solar panels and the power usage is as followed:

August 8, 2020 to September 8, 2020: **6,157 kWh** (2,484 kWh generated by Solar)

The SMUD records indicated the following power usage at two comparable properties located in the same neighborhood as [REDACTED], **Rancho Cordova, CA 95670**:

Comp: [REDACTED]
August 2020 Usage: 1,670 kWh

Comp: [REDACTED]
August 2020 Usage: 682 kWh

The SMUD record also indicated that approximately **seven (7) grow lights** were being used on **distinctive cycles between 4:00 PM and 12:00 PM** (approximately 20 hour cycles).

Based upon my training and experience, and the facts set forth this this affidavit, I have cause to believe **Brian Ray DECKER** and [REDACTED] exercise dominion and control over the address of [REDACTED] **Rancho Cordova, CA**

95670. It is my opinion there is an illegal cannabis cultivation operation at [REDACTED] **Rancho Cordova, CA 95670.** Based on my training and experience, I believe the size of this marijuana grow at this location is in excess of six (6) plants and in excess of the amount that would typically be possessed for personal use. Marijuana that is cultivated beyond what is needed for personal use is often sold at a profit. Accordingly, I believe **Brian Ray DECKER** and [REDACTED] have committed the following violations:

HS 11366 – maintaining a place for the purpose of unlawfully selling, giving away, or using any controlled substance, a felony

HS 11358(c) – prohibited cultivation of marijuana, in excess of six (6) plants

HS 11359(b) – prohibited sale of marijuana

Due to the covert nature of this cultivation operation, I believe **Brian Ray DECKER** and [REDACTED] have violated CA Revenue and Taxation Code (RTC) section 34011, "Cannabis Excise Tax" and RTC section 34012, "Cultivation Tax," which are felonies under RTC section 55363, by knowingly and intentionally not obtaining the required California Department of Tax and Fee Administration (CDTFA) cannabis cultivation tax permit and the CDTFA cannabis excise tax permit, with the intent of not paying any of the required CDTFA cannabis cultivation tax and the required CDTFA cannabis excise tax to the CDTFA.

I know based on my training and experience that Business and Professions (BP) Code Section 26000 was developed as the Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA). The purpose and intent of this division is to establish a comprehensive system to control and regulate the cultivation, distribution, transport, storage, manufacturing, processing, and sale of cannabis products. This includes Medicinal cannabis and medicinal cannabis products for patients with valid physician's recommendations; as well as adult-use cannabis and adult-use cannabis products for adults 21 years of age and over. The Bureau of Cannabis Control has the sole authority to create, issue, deny, renew, discipline, suspend, or revoke licenses for microbusinesses, transportation, storage unrelated to manufacturing activities, distribution, testing, and sale of cannabis and cannabis products within the state. Commercial cannabis activity is defined as the cultivation, possession, manufacture, distribution, processing, storing, laboratory testing, packaging, labeling, transportation, delivery or sale of cannabis and cannabis products as provided for in this division.

Pursuant to the provisions of the MAUCRSA, a valid state license from a state licensing authority is required to legally cultivate cannabis within the state of California. For a state license to be issued, the business must first comply with all local municipal requirements and receive a license from the jurisdiction in which they are located before any state license to operate will be granted.

Each licensed cannabis business is required by statute to submit taxes to the state of California and keep records for at least 7 years. Location of, or the inability to locate these financial records; including but not limited to, bank statements, sales invoices,

receipts, tax records, and all records required by the California Department of Tax and Fee Administration (formerly Board of Equalization) under title 18, California Code of Regulations, sections 1698 and 4901 will tend to show tax evasion or payment. I know based on my training and experience, the indoor cultivation of marijuana utilizes numerous grow lamps, numerous ballasts, and fans to cultivate marijuana. The grow lamps which are used contain 1000 watt bulbs. The above listed equipment uses enormous amounts of electricity compared to a normal household.

I know based on my training and experience, and the experience of other narcotic investigators well versed in marijuana grow investigations, that marijuana growers most always utilize 1000 watt grow lights that are most often high-pressure sodium lights, metal halide and ceramic metal halide lights. These lights require cooling systems. These 1000-watt lights also require ballasts to power the lamp and convert normal household voltage to that used by the light(s).

During an indoor marijuana plant's lifetime it is illuminated by and grows under High Intensity Discharge (HID) bulbs. Depending on the age of the plant the lights may be left on to mimic the sun for 24, 18 or 12 hours. The indoor marijuana plant is being tricked into believing it is being grown outdoors in nature through natural sunlight. In the propagation stage of life the marijuana seedling or clone needs to expend all its energy developing a root system. Growers will often use 24-hour florescent light to accomplish this. During the plants vegetative stage of growth the HID lights will typically be on for approximately 18-hours and off for approximately 6-hours. This vegetative grow in nature occurs during the summer months when there is the most daylight. During the flowering or mature stage of growth the grower will reduce the HID light usage to approximately 12-hours on and 12-hours off. This mimics the fall season as the daylight hours get shorter. The plant will then begin to flower (bud) in an attempt to reproduce for the next generation. The cycles observed in the power consumption at [REDACTED] **Rancho Cordova, CA 95670** show distinct cycles above the average base line for U.S. households and are consistent over their monthly billing.

I know based on my training and experience, and the experience of other more experienced narcotic investigators, that the more sophisticated growers have multiple stage grows in operation at the same location which enables the growers to harvest at least one grow a month. This type of growing operation allows the grower(s) to profit regularly (monthly).

I know based on my training and experience, and the experience of other more experienced narcotic investigators, that growers and tenders of illegal indoor marijuana grows have addresses and/or live in other residences other than the grow site. This is in order to allow for more "grow area" and also in an attempt to give themselves "legal distance" from the grow site should law enforcement action occur.

Based upon on my training and experience, and from speaking with more experienced narcotics investigators, I know that often times property owners will rent their other properties to persons known to them who operate indoor marijuana grows in order to

avoid detection by law enforcement. I know that the tenants of these rental properties will often live inside the rental properties in order to care for the indoor marijuana grows. Often times in return for the operation and care of the indoor marijuana grows, the tenants will usually sell the processed marijuana for monetary compensation. The monetary proceeds are then often passed onto the residence owners for allowing the tenants to conduct their illicit activities and/or indoor grows inside their rental homes. In speaking with more experienced narcotics officers, the monthly monetary compensation is usually in excess of thousands of dollars. It is these thousands of dollars that allow property owners to live lavish lifestyles and/or own larger homes than their personal finances will often allow for.

It has been my experience, and the experience of other more experienced narcotic investigators, that persons involved in the cultivation, sales and transportation of marijuana will normally have most, if not all, of the following items of evidence within their temporary or permanent residences, businesses, vehicles, storage areas, storage containers or on their persons.

It has been my experience, and the experience of other more experienced narcotic investigators, that cultivators and sellers of marijuana/narcotics will often hide their narcotics outside their residence. Cultivators and sellers of marijuana may bury their narcotics within the surrounding grounds on their property for further concealment in order to avoid detection and seizure; as well as secreted in attics, safes, storage sheds, lockers, and trash containers.

I know based on my training and experience, and the experience of other more experienced narcotic investigators that cultivators and sellers of marijuana often have large amounts of marijuana, which is then repackage into smaller amounts for subsequent street sales at their residences. In the process, it is common for sellers to utilize such items as narcotic paraphernalia, including paper bindles, small zip-lock baggies, sandwich baggies, plastic wrappers, plastic baggies, glass vials, film canisters, containers of various types commonly associated with the storage and use of marijuana, scales, other weighing devices, plastic baggies, and glass vials. They also often maintain written records documenting sales or transactions of narcotics including pay/owe sheets, buyers' and sellers' lists. The search warrant therefore should include the above items, as well as written documents bearing the address of the residence to be searched in the name of the addressee for purposes of establishing dominion and control of the premises, and any and all keys which are found to fit any locks of the residence or containers found therein.

It has been my experience, and the experience of other more experienced narcotic investigators, that cultivators and sellers of narcotics normally conduct their business in cash sales. Currency, ledgers including buyers' lists, sellers' lists, names, dates, amounts, and quantities are often compiled by sellers of narcotics and may be found on their persons, residences, within their vehicles or hidden/secreted elsewhere within the curtilage of their property.

It is my experience, and the experience of other narcotics investigators, that documents found within the residence being searched for narcotics, which are addressed to the premises, will often bear evidence to establish the identity of persons in dominion and control of the premises.

It is my experience, and the experience of other narcotics investigators, that cultivators and sellers of marijuana/ narcotics commonly utilize their vehicles for transportation of narcotics, both from their sources of supply to their residence and to their purchasers. Cultivators and sellers of marijuana/narcotics commonly sell narcotics away from their residence, utilizing a vehicle to make contacts, in order to avoid detection, and in order to avoid possible seizure of total amounts possessed by a seller at one time.

It is my experience, and the experience of other narcotics investigators, that cultivators and sellers of marijuana often make narcotics transactions away from their residence and vehicles for further concealment. Sellers of narcotics often carry only a portion of their possessed quantity on their persons for hand to hand street sales at one time. Additional quantities on hand are most often secreted in a safe location, apart from the sales area, such as a secret residence or vehicle, to avoid law enforcement detection.

I know from training and experience and from speaking with narcotics investigators more experienced than myself that cultivators/sellers of illegal marijuana and other narcotics often times arm themselves with firearms and other weapons they have specifically acquired to protect their illegal product from rivals and armed robbers. I know that it is common for these sellers/cultivators to hide their firearms within their residences, businesses, vehicles and on their persons that the firearms might be readily available to defend against such robberies. I know it is also true based on my training and experience and from speaking with other investigators more experienced than myself that these weapons whether acquired legally or illegally have been used by cultivators/sellers of marijuana or other narcotics against Law Enforcement when Law Enforcement is conducting raids or executing search warrants upon such persons at their residences, places of business or in their vehicles.

It is my experience, and the experience of other narcotics investigators, that while conducting investigations and serving search warrants for narcotics violators, that violators often use the telephone to set up sales and purchases of narcotics away from their residence, in order to avoid law enforcement detection. Answering the telephone and responding to text messages received at this residence may produce further evidence of narcotics trafficking of the occupants of the residence and may reveal the purchasers of narcotics, as well as possible sources of narcotics.

Based on my training and experience, I am aware that persons involved in marijuana cultivation and trafficking commonly use digital devices such as computers, mobile devices, tablets, and various digital storage devices to conduct and facilitate their illegal activity. These digital devices are utilized to store records, data and information such as customer lists, customer and drug sales information, inventory information, profit records, and accounts receivable (pay/owes).

I know that digital devices such as computers, computer systems, and mobile devices commonly consist of electronic data processing and storage devices, with central processing units, internal and peripheral storage devices such as fixed disks, external hard disks, dongles or encryption keys. They also consist of peripheral input/output devices such as keyboards, printers, video display monitors, optical readers and related communication devices such as modems, associated telephone sets, speed dialers, or other controlling devices, plotters, software to run programs, connecting cables and plugs, peripherals such as joysticks, mouse's, or other input devices, scanners, writing pads, manuals, connecting switches, telephones and telephone cables, and interface devices. There is system documentation, operating logs and documentation, software and instructional manuals for the computers and computer systems. Computing or data processing software, stored on any type of medium such as: hard disks, floppy disks, CD-R's, CD-RW's, DVD's, cassette tapes, or other permanent or transient storage medium and other forms of magnetic media containing computer information.

These records, data and information will likely be kept on personal computers, digital storage media, cloud-based storage, and on the phones of employees delivering cannabis that communicate pricing or location to the business owner(s) or customers. The likelihood that records, data and information related to cannabis products and money will be found on digital devices and at the personal residence is highly likely.

I believe that evidence related to the offenses listed in this warrant, and otherwise unknown or unidentified co-conspirators, will be located at [REDACTED] **Rancho Cordova, CA 95670**. I believe evidence sought in this search warrant will greatly assist in the investigation of this incident, and the eventual successful prosecution of the perpetrators identified.

BASED ON THE INFORMATION SET FORTH IN THIS AFFIDAVIT AND ITS ATTACHMENTS, YOUR AFFIANT HAS PROBABLE CAUSE TO BELIEVE THAT THERE ARE GROUNDS FOR THE ISSUANCE OF THE SEARCH WARRANT AS SET FORTH IN SECTION 1524(A)(4) OF THE PENAL CODE AND REQUEST THE SEARCH WARRANT BE ISSUED TO SEARCH:

YOU ARE THEREFORE COMMANDED TO SEARCH:

THE FOLOWING LOCATION:

The property located at [REDACTED], **Rancho Cordova, CA 95670** which is in the City of Rancho Cordova and the County of Sacramento, California (CA). **(See below image for further)**

Also to include a single family two story residence, which is located on this property. The front of the residence is two-tone and is brown and tan in color. The roof of the residence is a light tan color. There are multiple solar panels on the roof, which are visible from the street. The gutters at the bottom of the roof are a tan color. The front door of the residence faces west and is dark in color. The front door is recessed underneath the roof.

To the south of the front door is a rectangular two-pane windows which face west toward the lawn of the residence and the roadway. To the left and right of the window are two brown window shutters, and the wall is comprised of tan rocks. There is a walkway which leads west from the front door toward the garage and roadway.

At the northwest of the structure is a two-car garage. The door of the garage is tan in color. The border surrounding the garage is white in color. To the north of the garage

there are numbers affixed to the wall. Horizontally (left to right) the numbers read [REDACTED]". The numbers are black in color affixed to a white out door light. To the west of the garage, in the northwest portion of the property, is a driveway composed of concrete. To the south of the driveway, at the southwest portion of the property, is a lawn. In the middle of the lawn is a tree. **(See below image for further)**

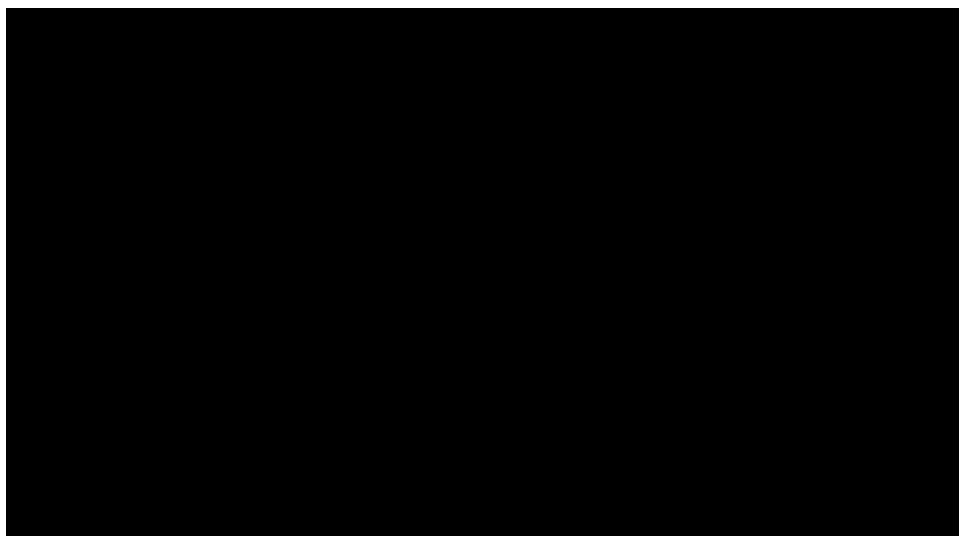

Also to include all attics, basements, and other parts therein, and surrounding grounds, garages, out buildings, storage sheds, storage lockers, garbage cans, containers, and out buildings of any kind located or belonging to the premises of [REDACTED] **Rancho Cordova, CA 95670.**

THE FOLLOWING PERSON(S):

Brian Ray DECKER, ([REDACTED]), described as a white male, who was born on [REDACTED] and is approximately 30 years of age, approximately five feet and ten inches tall, weighing approximately 140 pounds, who is believed to have brown hair, hazel eyes, and can be identified via California driver's license [REDACTED]

[REDACTED], described as a white male adult, who was born on [REDACTED] and is approximately 34 years of age, approximately five feet and nine inches tall, weighing approximately 175 pounds, who is believed to have brown hair, blue eyes, and can be identified via California driver's license [REDACTED]

Any person(s) who are witnessed at the residence during the service of this warrant, who show to have control of the residence observed by possession of keys, mail and/or other documents addressed to the person, or by the persons' self-admission.

THE FOLLOWING VEHICLES:

A [REDACTED], assigned California license plate [REDACTED], which is registered through the California Department of Motor Vehicles to [REDACTED] at the address of [REDACTED] **Rancho Cordova, CA 95742.**

A [REDACTED], assigned California license plate [REDACTED], which is registered through the California Department of Motor Vehicles to [REDACTED] at the address of [REDACTED] **Rancho Cordova, CA 95742.**

A [REDACTED], assigned California license plate [REDACTED], which is registered through the California Department of Motor Vehicles to [REDACTED], [REDACTED] or [REDACTED] at the address of [REDACTED], **Rancho Cordova, CA 95742.**

Any and all vehicles under the immediate care, access, and control of occupants at the property at the time this warrant is served, as evidenced by DMV registration information, possession of keys to the vehicle, actual use of the vehicle, witness statements or admissions.

FOR THE FOLLOWING PROPERTY:

Marijuana, concentrated cannabis including Hashish oil, and cannabis tincture and, marijuana derivatives and edibles; and paraphernalia used for its ingestion, including pipes, cigarette rolling papers, sifters, alligator clips and bongs; items used for preparing marijuana for street sales and/or storage, including plastic bags, film canisters, scales and other measuring devices; items used for cultivation, including marijuana seeds, grow lights, potting soil, containers for planting, chemicals and fertilizers for the stimulation of marijuana growth, pruning and gardening tools; articles of personal property tending to establish and document use, sales, transportation and cultivation of marijuana, consisting of buyer lists, seller lists, recordation of sales, books and pamphlets containing instructions for cultivation; articles of personal property tending to establish the existence of a conspiracy to use, sell, transport and cultivate marijuana including personal telephone books, address books, telephone bills, papers and documents containing lists of names, addresses and phone numbers of narcotics customers, other known cultivators and suppliers of cultivation paraphernalia; articles of personal property tending to establish the identity of persons in control of the premises, vehicles, storage areas and containers being searched including the utility company receipts, rent receipts, addressed envelopes, keys and photographs of the defendant(s) and associates.

Items such as seeds, fertilizer, irrigation devices, garden tools, growing containers, electrical devices which aid in the growth of marijuana plants, such as fans, timers, pumps, ballast, lights, climate control devices, generators, and books or instructional manuals to aid in the growing of marijuana. Processed marijuana, scales and other

measuring devices, paper bindles, plastic bindles, small Ziploc plastic bags, sandwich baggies, plastic coin bags, (used in the preparation of marijuana for sale and storage); articles of personal property tending to establish and document cultivation, sales and transportation of marijuana, including cash, buyer lists, seller lists, and recordation of sales and purchases of marijuana; articles of personal property tending to establish the existence of a conspiracy to cultivate, sell and transport marijuana, including personal telephone books, address books, telephone bills, papers and documents containing lists of names, addresses and phone numbers of narcotic drug customers and suppliers; and articles of personal property tending to establish the identity of persons in control of the premises, vehicles, storage areas and containers being searched, including utility company receipts, rent receipts, addressed envelopes, keys and photographs of the defendant(s) and their associates.

Based on officer safety reasons related to the potential hazards (i.e. possible mold spores and high amounts of mercury contained in the 1000w light bulbs) commonly associated with cultivation equipment, and also the lack of storage availability for the numerous equipment items often located inside indoor marijuana cultivation operations, officers shall seize and/or photograph representative samples of the equipment (i.e. grow lights, ballasts, electrical panels, timers, and blowers).

Firearms and firearms related items such as: cases, cleaning supplies, receipts, ammunition, bills of sale, and bills of transfer. Other weapons of an offensive nature or altered to be utilized as such a weapon.

Any items tending to establish the identity of persons who have dominion and control of the location, premises, automobiles, or items to be seized, including delivered mail, whether inside the location or in the mail box(s), bills, utility bills, telephone bills, miscellaneous addressed mail, personal letters, personal identification, purchase receipts, rent receipts, sales receipts, tax statements, payroll check stubs, keys and receipts for safe deposit box(s), keys and receipts for rental storage space, keys and receipts for post office box or mail drop rentals, ignition keys, car door and trunk keys, vehicle ownership certificates or "pink slips," and/or vehicle registration slips, recordation of voice transmissions on telephone answering machines, audio tapes and telephone message receipt books, and written phone messages, and photographs tending to show occupation of the residence and to obtain messages from the pagers, answering machines, tape recorders, and any other recording devices, and to play such devices to obtain their messages. Any examples of handwriting including letters, address books, business records, canceled checks, notes, and/or lists.

The terms "records", "information", and "property" includes all of the foregoing items of evidence in whatever form and by whatever means that may have been created or stored, including records, whether stored on paper, on magnetic media such as tape, cassette, disk, diskette or on memory storage devices such as optical disks, programmable instruments such as telephones, electronic address books, calculators, or any other storage media, or any other form of writing as defined by Evidence Code

section 250, together with indicia of use, ownership, possession, or control of such records, information and property.

Also to include personal computers, consisting of a monitor, keyboard, central processing unit, and/or printer, automated data processing system or subsystems, or electronic diaries, and all forms of data storage medium necessary to access any of the above records or information, whether found on paper, in handwritten type photocopy or printed form, or stored on computer printouts, magnetic tapes, cassettes, disks, diskettes, optical storage devices, or any other medium.

Investigating officers are authorized to seize all cellular telephones, "computer systems," "computer program or software," "digital video recorder (DVR)" systems, and "supporting documentation" as defined by Penal Code section 502, subdivision (b), including any supporting hardware, software, or documentation that is necessary to the use the system or is necessary to recover digital evidence from the system and any associated peripherals that are believed to contain some or all of the evidence described in the warrant.

If marijuana plants are seized from this location, they will be collected as evidence of illegal cultivation and/or possession for sales of marijuana. Per California Health and Safety Code section 11479, five random sub-samples of marijuana along with a two (2) pound bulk sample of wet marijuana will be collected from each location and booked as evidence. The marijuana found at the scene will be photographed for documentation purposes. Also, the excess marijuana seized would be impractical and unsafe to keep due to the safety and health risk associated with its storage and will be disposed of in a proper manner pursuant to HS 11479.

ADDITIONAL ORDERS:

The court authorizes the use of person(s) who are not peace officers to accompany the Peace Officers during the execution this Search Warrant for the purpose of assisting in the service of this Search Warrant as provided for under California Penal Code Section 1530.

The court authorizes representatives from Sacramento County Code Enforcement, City of Rancho Cordova Code Enforcement, Sacramento County Building Permits and Inspections, Environmental Management Division, Sacramento County Animal Control, Sacramento Municipal Utilities District (S.M.U.D.), Pacific Gas and Electric (PG&E) and any necessary County contractors to be allowed on the premises, as needed, to successfully process and/or document the marijuana grow.

The court authorizes peace officers, or assigned representatives, to video tape, photograph and/or take digital images, at the discretion of the searching officers, inside and outside of the location, any and all items and/or vehicles at the location, in addition, can identify and photograph and/or digital image all persons present at the search warrant location during the period of execution of this search warrant.

**SACRAMENTO SUPERIOR COURT DISTRICT
COUNTY OF SACRAMENTO, STATE OF CALIFORNIA**

RETURN OF SEARCH WARRANT NUMBER: _____

The personal property set out on the inventory attached hereto was taken from the premises located at:

Rancho Cordova, CA 95670

And from the person(s) of:

Brian Ray Decker _____

By virtue of a search warrant dated the **22ND** day of **October, 2020** and issued by the **Honorable Judge James E. McFetridge** of the **Sacramento Superior Court District**.

I, **Deputy G. Parsons #1200**, by whom this warrant was executed, do swear that the attached inventory contains a true and detained account of all the property seized under this warrant which was executed on the **23rd** day of **October, 2020**.

All property will be retained in the custody of the Sacramento County Sheriff's Department until a final disposition has been rendered, whereupon all property, except contraband, will be returned to its rightful owner or disposed of according to law.

Subscribed to and swore to before me this

_____ day of _____, **2020**.

Case No.: 34-2022-80004019

**DECLARATION OF DANIEL
HEATON**

Declaration of Daniel Heaton

I, Daniel Heaton, hereby declare as follows:

1. I am a deputy at the Sacramento Sheriff's Office. The Sacramento Sheriff's Office contracts with the City of Rancho Cordova for police services, and during 2020, I was assigned to the City of Rancho Cordova Police Department's Problem-Oriented Policing group. In this role, I would periodically send requests to Sacramento Municipal Utility District ("SMUD") analysts, Michael Wolff or Robert Duggan, for a list of SMUD customers in certain zip codes who were using above a certain threshold of electricity.

2. Sometime in April of 2020, I requested such a list for SMUD customers in the 95670 zip code and received from SMUD a list containing, among others, Brian R. Decker's name, address, and electricity usage information. Attached as **Exhibit 1** is a true and correct copy of one page from the list I received showing Mr. Decker's name. There were 28 other SMUD customer names, addresses and electricity usage information in this list from SMUD. The other customers' names are redacted to maintain privacy. I do not recall the exact threshold of energy I used, but I typically asked for SMUD customers using over 2,000 kWh per month.

3. Based on Mr. Decker's name appearing on the zip code list I received from SMUD, I sent a Customer Information Request Form to SMUD asking for additional information on or about June 25, 2020. Attached as **Exhibit 2** is a true and correct copy of the completed Customer Information Request Form I sent and received from SMUD, with SMUD having filled in the information about Mr. Decker's home.

4. On or about July 19, 2020, I left my role with the City of Rancho Cordova Police Department's Problem-Oriented Policing group, and Deputy Sheriff George Parsons

1 took over. I provided to Mr. Parsons the information I had obtained from SMUD about Mr.
2 Decker's home, among others.

3 I declare under penalty of perjury under the laws of the State of California that the
4 foregoing is true and correct and that this declaration was executed on July 9, 2025, at
5 Sacramento County, California.

LAW ENFORCEMENT CUSTOMER INFORMATION REQUEST

FILL-IN THE INFORMATION YOU ALREADY HAVE AND CHECK EACH BOX NEXT TO THE INFORMATION YOU ARE REQUESTING.

This request is being made by law enforcement as part of an ongoing investigation and documents associated herewith are protected from production pursuant to Gov. C. §§ 6254(f), 6254.16, and 6255.

Requestor's information (Required):

Office/Unit:	Rancho Cordova Police Department, POP	Reference/Report Number:	N/A
Name:	Daniel Heaton	Badge and/or I.D. Number:	739
Email:	[REDACTED]@saesheriff.com	Date of Request:	6/25/2020
Contact Numbers:	Desk: [REDACTED] (Dispatch)	Cell: [REDACTED]	Fax: None

REQUEST #1:

☒ Customer's Name: Brian R Decker	☒ SN:	☒ ID:
☒ Customer's Address: [REDACTED] Gold River, CA 95670		
☒ Customer's Phone:	☒ Email:	
☒ Service Start Date: 07/03/2019	☒ Service End Date: Current	
☒ Last month's usage: May 4,718 kWh total used - 3,265 kWh generated = 1,453 kWh billed		
☒ Power usage / Notes: Usage last 3 months: May 1,453 kWh; April 1,310 kWh (4,154 kWh used – 2,844 kWh generated); March 3,970 kWh (4,209 kWh used – 239 kWh generated). An estimate of 4 to 5 grow lights are being used from 7pm to 7am.		

REQUEST #2: ☒ Comparison (Fill-in address; SMUD will provide usage)

☐ Customer's Name:	☐ SN:	☐ ID:
☒ Customer's Address: [REDACTED] Gold River, CA 95670		
☐ Customer's Phone:	☐ Email:	
☒ Service Start Date: 01/18/2013	☒ Service End Date: Current	
☒ Last month's usage: May 0 kWh (338 kWh used – 357 kWh generated; 19 kWh credited)		
☐ Power usage / Notes:		

REQUEST #3: ✓ Comparison (Fill-in address; SMUD will provide usage)

☐ Customer's Name:	☐ SN:	☐ ID:
✓ Customer's Address:	[REDACTED] Gold River, CA 95670	
☐ Customer's Phone:	☐ Email:	
✓ Service Start Date: 09/01/2015	✓ Service End Date: Current	
✓ Last month's usage: May 379 kWh (736 kWh used – 357 kWh generated)		
☐ Power usage / Notes:		

✓ **OTHER INFORMATION REQUESTED:**

- Customer information and monthly power usage for address listed in Request #1.
- Your expert opinion if the power is unusually high and/or is cycling in increments of indoor cannabis cultivation.
- If power usage is indicative of cannabis cultivation, your expert estimation of how many lights are being used in the cultivation operation.
- Power usage for the 2 listed comparable properties (Request #2 and Request #3) in the vicinity.
