

EFF: Ensuring Tech Supports Rights

If you use **technology**, this fight is **yours**.

The Electronic Frontier Foundation (EFF) is the leading nonprofit defending your civil liberties and human rights in tech. EFF lawyers, activists, and technologists advance rights, justice, freedom, and innovation for all people of the world. Founded in 1990, EFF protects online privacy, security, and free expression through:

- **PUBLIC INTEREST LAW:** fighting for the greater good through groundbreaking court cases that support tech users' rights.
- **GRASSROOTS ACTIVISM:** mobilizing the digital rights community, educating the public and policymakers, and confronting government and corporate misdeeds.
- **FREE PRIVACY-ENHANCING TOOLS:** creating free open-source software to protect the public and investigate technology's impact on your freedom.

EFF is a member-supported nonprofit fighting to ensure your rights follow you online and whenever you use technology. Your contribution helps us fight for better laws, take legal action, and hack the technology that's being used to oppress everyone. Email membership@eff.org to get in the fight.

Here are a few ideas of how you can help:

Financial Contribution

Make a gift to support EFF's work. We can accept your contribution through whichever channel is easiest for you, including DAFs, stock gifts, EFTs, cryptocurrency, and other vehicles for contributing. You may even be able to double your impact with a matching gift from your employer. We'd be more than happy to send you some EFF swag to say thank you. Give today at eff.org/donatenow.

Corporate Contributions

Do you work for a company that also believes in digital rights? We welcome conversations with corporate donors to tailor partnerships to allow us to say, “thank you,” in the way that is most meaningful to your company.

Event Sponsorships

EFF hosts a slate of in-person and online events throughout the year. Event sponsorships are a great way to support EFF’s work while letting our audiences know you are in this fight. From Cyberlaw Trivia in San Francisco to EFF’s Poker Tournament at DEF CON, or the EFFecting Change Livestream Series, EFF welcomes your support.

Pro-Bono and In-Kind Support

Whether your company is a law firm with expertise that EFF can rely on or a company offering EFF free use of your products and services, contributing in-kind or pro-bono helps EFF enact our mission. (Please note that such contributions are contingent upon being accepted. And while we are happy to publicly thank corporate donors, we cannot make qualitative statements about your products or services.)

Foundation Grants

Are you on the Board of Directors or Trustees of a foundation? Do you know a grantmaking body that may want to support EFF’s work? We are grateful for the opportunity to submit proposals for both general operating support and project specific funding.

Peer-to-Peer Fundraising

Spread the word about EFF’s critical work with your friends, family, and colleagues. Host a party with friends or a lunch talk at your company where people can learn about our work to fight for rights, justice, and freedom in the digital world. You can also ask people to contribute to EFF in lieu of birthday, wedding, or other gifts.

Matching Gifts

Create a matching fund to encourage public donations. We can craft a matching gift opportunity that incentivizes donors while respecting your interests in acknowledgement or anonymity. You can also share our work on social media or through your own channels.

Legacy Giving

EFF has been fighting for digital rights for over 35 years, and we will continue to do so years into the future. Consider leaving EFF in your estate plans to ensure that EFF has the resources to meet the evolving threats to privacy, speech, and innovation. Our Lighthouse Society supports and acknowledges people who have let EFF we are in your will.
