

**Mississippi Department of Marine Resources
LOST COMMUNICATIONS
PROCEDURE
FOR
DRAGANFLY X6
AIR OPERATIONS**

The proposed flight operations area is in Class G airspace. The requested flight operations ceiling is 50ft AGL. Prior to flight operations, Colle Field Airport tower will be contacted at (228) 826-5062 and briefed on the intended flight operation(s) with location, operational parameters/objectives and flight duration(s).

While conducting flight operations a VHF radio will be maintained and programmed to operational frequencies utilized for air traffic by Colle Field tower. Should radio communications become disrupted Colle Field tower can be contacted via cell phone or satellite phone at the above number.

Should cell/sat phone communications also be unavailable, the Mississippi Department of Marine Resources Marine Patrol can be contacted via Public Safety radio infrastructure to include VHF and 800mhz digital trunked radio systems. Dispatch will then contact Trent Lott tower via above systems or direct a Marine Patrol Officer to travel to the control tower and relay information.
