Thanks. If this would help at all, here is the language that the agent came up with:

From the EC:

b2
b7E

"Enclosures: Enclosed for [redacted] is an original...requesting the name, address length of service and electronic communications transactional records to include existing transaction/activity logs, for the telephone number listed."

The NSL is to a cable company. The language above is also used in the NSL itself. He uses the form for ECPA on both the EC and the NSL.
