

## Disabling the Supernode function with KaZaA.

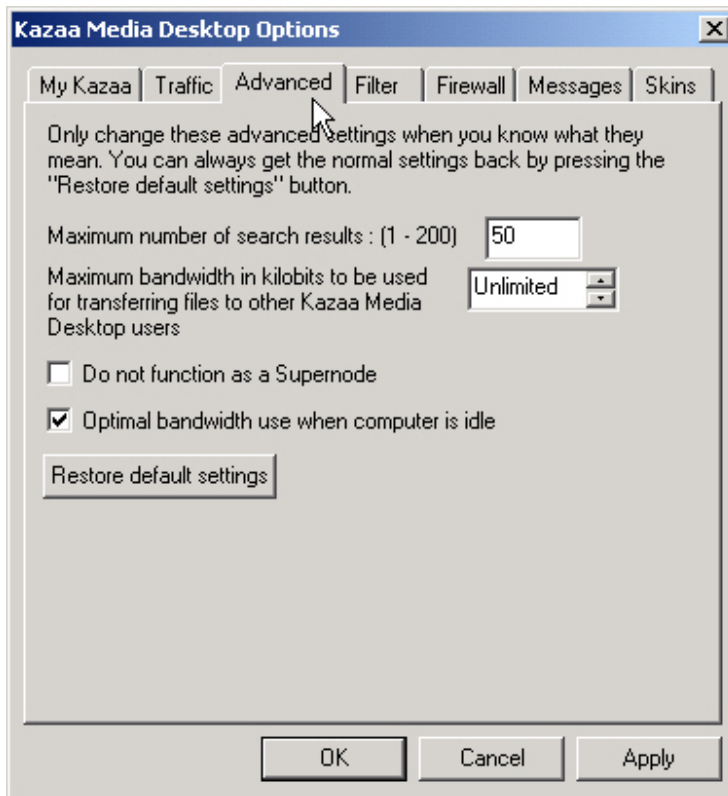

1. Launch the KaZaA application by double clicking on the “KaZaA Media Desktop” icon on your desktop.

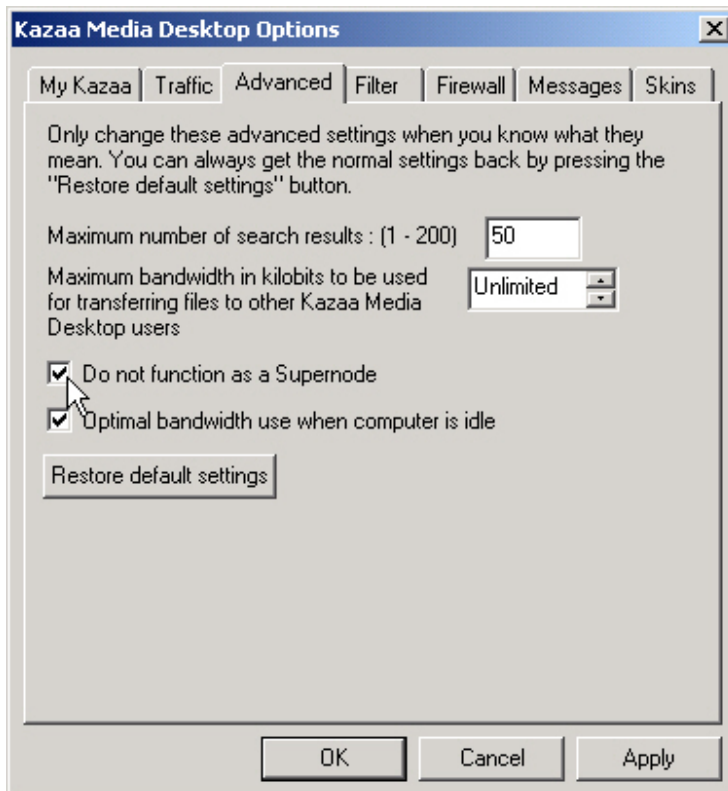

2. Click “Tools” on the menu bar and then select “Options...”

3. The “Options” window will appear. Click the “Advanced” tab.

4. Click the check box preceding “Do not function as a Supernode.” A check mark will appear in the box.

5. Click "OK" to confirm the setting.
