FYI. I just got a call from [Redacted] at JMD about the article. Her Boss wanted to know which system notice covered IDW. I told her it is covered by CRS. Also explained that national security systems are exempt from E-Gov and that we had done several PIA looks at IDW, even though it's not required under the law.

Done. (Hope springs eternal.)

I'm with [Redacted] in view that if everyone [Redacted] starts running around with their hair on fire on this, they will just be pouring gas on something that quite possibly would just fade away if we just shrug it off.

Bill: can you send [Redacted] an electronic copy of the CRS Privacy Act System Notice. She is making noises about it. I'm hoping that after she reads it, she will be mollified. Thanks.
