

**MISSISSIPPI
DEPARTMENT OF MARINE RESOURCES**

Public Aircraft Airworthiness Declaration:

The Draganfly X6 remote-controlled electric helicopter (Serial #988821) is a public aircraft which is flown, owned, and operated by the Mississippi Department of Marine Resources located in Biloxi, Mississippi. The Department acknowledges and accepts all responsibility for insuring the airworthiness of the aircraft.

The Mississippi Department of Marine Resources has determined the Draganfly X6, UAS is airworthy when used in accordance with the manufacturer's recommendations.

Methodology used for determination of craft's airworthiness:

Airworthiness was based upon referencing of The Department of Defense Airworthiness Certification Criteria Handbook (MIL-HDBK-516B). Criteria applicable to small remotely-piloted rotary wing aircraft was reviewed. In addition, 14CFR Part 27 was utilized in developing a set of criteria applicable to the Draganfly X6.

The above mentioned criteria was used to review the airworthiness of the Draganfly X6.

A handwritten signature in black ink, appearing to read "Jeff Clark".
